

Tuesday, April 1, 2003:

Jesus said: "My people, I am showing you a large man dressed in armor. This is to remind you how you need to have protection to defend against the temptations of the evil one. This represents a spiritual protection in your battle against evil. The helmet is the faith that you were gifted with at Baptism. The shield is your prayer life together with Mass and Communion. I want your heart to be burning with love for Me. The water running under the man's feet represents the living water of today's readings. This is the same living water that I talked about to the woman at the well. Physical water is temporary and you will require it again. My living water is the graces that I pour out on you at Communion when you receive My Body and Blood. This grace of Mine will last forever. If your sin takes it away, you can refresh your soul in Confession when I will cleanse your sins and return My grace to you. This water is living because you have My Real Presence among you. Stay strong in your faith so you will be able to resist the cares and distractions of the world."

Jesus said: "My people, there have been a select few people, who upon discernment, have been called to set up refuges for the time of tribulation. Just as Noah was criticized for his preparations of the ark, so My leaders of refuges will suffer much criticism for their preparations. I want to thank these leaders for remaining faithful to their calling for they have suffered financial and physical struggles to prepare My refuges. You may not receive thanks in this life, but you will surely have treasure in heaven for your efforts. Noah could have refused My work because it was so difficult to build the ark. Yet he followed My Word and was persistent in carrying out My plans. So I ask My faithful to give prayerful and what financial support you can give to those brave enough to set up refuges. The people, who will share these facilities and the food multiplied, will be a witness to the truth of My Word. Those, who believe in Me, will be saved in their souls and protected from the evil ones. Those, who refuse to prepare their souls, will be like those lost in the flood waters of Noah's time. I will reward all of those faithful to My Word by sharing in the Era of Peace when I will renew the earth and cleanse the earth of all evil."

Wednesday, April 2, 2003:

Jesus said: "My people, I revealed My splendor and glory at the Transfiguration and after My Resurrection. You know of My power throughout the whole of the universe and even the devil and the demons acknowledge My power over them. This gathering is precious in My sight because you are acknowledging My glory in My Real Presence as does all of heaven. My angels give Me glory in front of every Sacred Host. I have given you messages of how the angels are marking or sealing My faithful so they will be able to recognize each other in the time of tribulation. Now you are witnessing a formal blessing of this seal of protection which is being accomplished by the Blessed Trinity. This seal is a protection for those who receive it to avoid taking the mark of

the beast and to avoid worshiping the beast of the Antichrist. I have given you messages that during the Warning life review you will be acquainted with such a warning as well. Give thanks to My heavenly Father for the grace of this seal as more of My faithful will become acquainted with this blessing. I continue to warn My people to avoid even looking at an image of the beast or at his face because he will have demonic powers of suggestion to have you worship him. Call on My grace and your angels to go to My refuges of protection so your souls will be saved from any evil influence. This seal is similar to the empowerment that the Holy Spirit gifted to My disciples with the tongues of flame at Pentecost."

Jesus said: "My people, this vision of the angels singing 'Holy, Holy, Holy' is the beginning of the great tribulation when the Antichrist will declare himself. At this time all of the demons will be unleashed from hell. My faithful will need to call on My help and your guardian angels to protect you from all evil influence. The flames that were burning all over the earth represents how the faithful will share in a purgatory on earth with those in purgatory. This will be the time of purification for all of My faithful before you are led into My Era of Peace. The evil people will begin to suffer a burning purification both of soul and body at the time of My Great Chastisement. Rejoice, My people, as you will be prepared for the entrance into heaven as your joy in My love and peace will be complete for all eternity."

Thursday, April 3, 2003:

Prayer Group:

Jesus said: "My people, you are blessed because where two or more are gathered, I am there in their midst. Do not be discouraged when your prayer group has a small number free from the distractions of the world. Some do not come because of the weather or other obligations of priority. You consecrate everything over to Me, even your time. So be willing to give of yourself to Me and all will be made right for you."

Jesus said: "My people, I called you to My refuges not to bring your worldly pleasures, but I want My faithful to suffer to be in a rustic setting. Many will be drawn to My refuges to save your souls in a simple life. You have witnessed how the saints gave up their wealth so they could depend on Me completely in full trust. Keep Me close to your hearts by your burning love to be with Me no matter what the environment."

Jesus said: "My people, many times in your night Adoration prayer, you start to fall asleep. The spirit is willing, but the flesh is weak. I ask you to spend one hour of prayer with Me each night and still you start to nod in your sleep. That is why it is better to say your night prayers early so you do not forget them or fall asleep before finishing them."

Jesus said: "My people of the rosary, you have many good priests who become worn out by the many trials of parish work. You need to build them up spiritually by asking them to start hours of Adoration of the Blessed Sacrament. You will see by

supporting My hours of Adoration that your priests will be brought along on your prayers to keep their vocations."

Jesus said: "My people, the culture of death has been succeeding because you have not been fully grounded in your faith and you fall with the least temptation. I went off to the mountains many times to pray in quiet in front of God the Father in order to prepare for great times of testing in the great events of My life. All My faithful need to retreat occasionally so you can build up your spiritual strength to take on the difficulties of your life."

Jesus said: "My people, just as the body needs to be refreshed with sleep, so your souls need to be refreshed as well in your prayer lives. When you follow My one hour of prayer each day, you will look forward to that time when your soul is united with Me. Remember that I am your first priority and your daily prayer life will determine the extent of your strength in keeping holy."

Jesus said: "My people, I want you to teach your children how to pray and show them the need of prayer to get you through the worst of your trials. The children are great imitators and they need good role models to follow on their road to heaven. Most learn their faith from their parents, so you must be willing to be good examples for your children. Those, who mislead My little ones, will have to pay dearly for their bad example. I love the little children, so do not poison their minds with the evils of your sins."

Friday, April 4, 2003: (Ice storm of 2003)

Jesus said: "My people, you are continuing to witness effects from the war in Iraq, diseases and natural disasters that I told you would eventually bring you to your knees. It is one thing to hear of My words which some are not heeding, but others are seeing dramatic natural disasters as your ice storms in your own backyard. Many are now suffering power outages with fallen tree problems. Others are suffering from floods and unusual snow fall amounts. You will continue to suffer from these chastisements because of your sins and your refusal to repent of them. America has been arrogant in your desire for power and possessions. Now many of your conveniences are being compromised by the weather and the destruction from war and diseases. Pray for the conversion of sinners and a quick end to these hostilities in Iraq."

Saturday, April 5, 2003:

Jesus said: "My people, sometimes you need assistance to get down from a high van as with this extra step. Those, that go ahead of Me, sometimes get into more trouble than waiting for My help. Your impulse to do things on your own sometimes causes you some extra grief than if you prayed for My help at the beginning. I am always willing to assist you in your problems, but you need to invite My help as in 'ask and you shall receive'. At times souls need prayer and even offered sufferings to help them out of their troubles. Many problems are a result of selfishness or an

open rejection of Me in their lives. By praying and suffering for someone, you can melt the cold hearts and bring them back to My graces in Confession. There is a lot of power in prayer if you would just call on Me in trust to help you. Ask your petitions according to My Will for the best interest of your soul and others and you will see many of them answered."

Jesus said: "My people, North Korea will continue to threaten the use of a missile attack on South Korea, Japan or further out into the Pacific if they are attacked. They have nuclear capability to carry out their threats and this area is very volatile for another war. This is an area to pray that either side does not make any miscalculation of the other's strengths and capabilities. North Korea is in a desperate situation for food and its economy. If they cannot make a deal for help, they could resort to more serious provocations. They also do not want to be threatened as the next regime to be removed. America is overstepping its right to attack various countries just because of the weapons that these countries have and their dictatorial leaders. The threat of a world war is still possible and without enough prayer even the war in Iraq could spread to neighboring countries."

Sunday, April 6, 2003:

Jesus said: "My people, how long are you going to continue with your wars, your abortions, your fornications and adultery? Man is so set in his ways of greed for power and for pleasure. All of your problems have been brought about by your own undoing. Those seeking world globalization, as the bankers, are causing your wars and diseases. Your unrepentant sins are bringing more destruction in natural and planned disasters. It is the one world people who are bringing about your ruin through concocted wars, terrorism, man-made diseases and enhanced weather making. They are manipulating your debts, deficits and your economy as well. I am allowing this destruction of your country because there is very little forgiveness and repentance of your sins. I have taken away My protection and blessings because you depend on yourselves more than on Me. You will be brought to your knees because your morals are corrupt and you are not improving your lifestyles. Pray for the conversion of sinners in your country as your world will come crashing down around you as the tree limbs of your ice storm."

Monday, April 7, 2003:

Jesus said: "My people, I died on Calvary for all of your sins, but still you must have contrition for them and seek My forgiveness. At your judgment, as in today's readings of Susanna and the adulteress, all of you will have to account for your own sins and you will not be able to lie to Me. I know everything and even your sins of omission and those that you did not consider sins. All sin offends Me and it will be forgiven if you ask, but still you need to make reparation for your sins either on earth or in purgatory. Those, who do not seek forgiveness, will face the flames of hell in the vision. Those, who are

purified, will obtain their reward in heaven. So now is the time to repent of all of your sins before your judgment. Go to Confession now and you will be forgiven. If you are found with mortal sin on your soul, you risk the fires of hell. By having a clean soul, you will always be ready to face your Master at your judgment in the heavenly court."

Jesus said: "My people of America, in the early days of your country people complained about paying exorbitant taxes without any control or representation for their payment. Today, you are again being taxed and the rich control your supposed representatives. This burning of the Declaration of Independence indicates that you are losing your freedoms and all mentions of God are being stripped from your documents. You are now slaves of the one world people who are forcing you into so many unnecessary and trumped up wars for their own gain of money. It is time again when prayer must be your weapon of choice against an evil that has gone out of control. How many times do I tell you that love of God and your neighbor comes first and you would have no wars. Refuse to support such wars and vote against such one world people who start these wars for their own gain. The problem is that the one world people control each party and they get their way with whomever gets elected. Justice will only come when I come again to purify the earth and all of these evil ones will taste the fires of their fate in hell. Remain faithful to Me even despite your abuse and you will see your reward in My Era of Peace and finally in heaven."

Tuesday, April 8, 2003:

Jesus said: "My people, you are about to approach Holy Week and a re-enactment of My crucifixion and death on the cross. The readings of Moses mounting a bronze serpent on a pole to heal those bitten by the snakes is a prefigurement of My being mounted on a cross for everyone's sins. By giving My life up on the cross, I have paid the price for all of mankind's sins whether they believe in Me or not. That is why throughout the Scriptures it is said that everyone must come to heaven through My sacrifice. It was My Blood that opened the gates of heaven to everyone and I have made atonement for everyone's salvation. Still there are obligations of man to believe in Me and ask My forgiveness of your sins. At the judgment there will still be an accounting and remember that a sin against the Holy Spirit will not be forgiven. That sin is an unforgiving heart that refuses to seek forgiveness. Such a soul will be headed to hell. That is why it is important to seek My forgiveness after every sin, especially at Confession. You could have one mortal sin forgiven today and have a pure soul, but if you commit another mortal sin, your soul is dead again. So it is by constantly cleansing your soul in frequent Confession that you can keep your soul pure and acceptable for your judgment. Your work of evangelization is to help all other souls to see the need of conversion and forgiveness to be saved from hell. I have shown you what hell is and you do not want souls to be lost there. Pray for all souls that their hearts may be warmed to accept My love and be saved."

Jesus said: "My people, many fights or disagreements come from stubbornness of having your own way no matter how much you inconvenience each other. It is not just a question of misunderstanding or a failure to desire compromise, but most wars are a result of planned aggression with a purpose to take another's land or possessions. In Iraq there is definitely a double standard because of the oil present. It is convenient to have Iraq sell the U.S. oil without worry of the money going for arms to a dictator. The occupation could last a long time and the US could profit from such a position to exploit the Iraq oil reserves. There is still a price to pay in securing the cities of Iraq even as the main resistance has been neutralized. The one world people remain behind this war and they will profit from all of the deficits and oil rights. The cost of this war will be exacted from the US taxpayers and your economy will suffer on further bills of restoring Iraq. There is a desire to have the oil profits pay for any repairs. Pray for a quick end to this conflict and that the war does not spread."

Wednesday, April 9, 2003:

Jesus said: "My people, the Pharisees and Sadduces were comfortable in their ways and they did not want My law of love that was focused on serving God only. It was hard for them to be forgiving, give up their love of money, and love their enemies. In today's world man has not changed because these same teachings are hard also for the people of this age. Love of money and comforts are the desire of many. People do not want to hear about suffering or serving Me by taking care of their neighbor. When selfishness and greed control people, they will be lost in their sins without Me in their lives. Prayer and giving your self to Me in total consecration is a struggle for many. Yet if your goal is to come to heaven, you must follow the narrow road in serving God and neighbor. Man is weak to sin and Lent is a time to reflect on your sins and seek My forgiveness in Confession. Admitting that you are a sinner is your first step to improving your spiritual life. Working to correct your bad habits follows. Prayer and fasting will help you to maintain your gains. As you follow My agenda instead of your own, then your outlook on life will take on a different meaning. Love in your life will change many selfish interests of your past behavior. Keep striving for your spiritual perfection with My help and you will gain eternal life in heaven."

Jesus said: "My people, with the current ice storm many were thankful to have fireplaces, kerosene heaters or generators to provide warmth in a cold winter without electricity. Without any source of power or heat, people would be in the cold darkness at night. By some source of heat, the pipes holding water would not freeze. Your souls in mortal sin can be likened to a blackout or power outage where you are in the cold darkness of your sin. You have My forgiveness in Confession to provide warmth to your soul in My grace. By absolution you are again back up under power through My Light. It is My love and peace in your soul that gives you new life in the Spirit. The physical comfort of warmth

is temporary, but the spiritual comfort of being in My grace can last forever by renewing your power source often in frequent Confession. By keeping your soul pure in this life, you will be prepared to share eternal life with Me forever in heaven."

Thursday, April 10, 2003:

Jesus said: "My people, when you start out as an infant, you have nothing and when you leave this world, you take nothing with you. I call everyone to serve Me and it is their 'yes' that I am seeking. Those, who receive their gift of faith from their parents, have been shown the way to love Me and follow Me. Those, who do not know Me, are those that need an invitation to Baptism and conversion. In the end you will be choosing between My Will or your own will. Everyone will be made aware of Me at the Warning experience, but it is your free will choice to follow Me that will save your soul. You can choose not to follow Me, but that will lead you to hell. Follow My Will and you will have everlasting life with Me in heaven."

Prayer Group:

Jesus said: "My people, your prayers have been answered that there has not been a large amount of killing. The easy surrenders after constant bombing shows that the people were tired of living in fear from Saddam and they truly want to be free of his oppression. Keeping order in the interim before an Iraqi government can be established may be trying duty for soldiers who have seen little sleep and much movement. Pray now that peace may be restored quickly with no further excuses for war."

Jesus said: "My people, it will be difficult to change the people's hearts to understand democratic freedoms after over thirty years of dictatorial reign. Rebuilding infrastructure and the basic needs of food and water will be a major job, especially for some poor who were not being fed. Billions of dollars will be needed to repair any damage and get the oil wells producing again. Saddam was allowed control because no one was able to challenge him and live. It will be a challenge for setting up a new viable government. Pray that Iraq will be healed quickly of its war wounds."

Jesus said: "My people, many have thought that you had a war with all of the damage to the trees and power lines. It is a hardship to be without power, but man is resourceful in finding ways to heat himself out of necessity. Much of the power being restored has come quicker than in the previous ice storm. Many have been better prepared after learning from earlier storms. Man has refused to see these storms as chastisement for sin. Even weather machines were found to be enhancing the extent of freezing rain. See the hand of the one world people in your wars, storms and diseases. Pray for your country to repent of its sins."

Jesus said: "My people, this war in Iraq has distracted many from their Lenten devotions. That is why it seemed to pass quickly. Look back on what you have been able to change and make an extra effort to pay more attention to your prayer life than

watching the war news. Prepare now for Holy Week by going to Confession and be sorry for your sins that caused Me to die on the cross to forgive them and ransom you with My Blood. The dying of the Son of man is a heavy price for everyone's sins. As Adam brought death, so now I bring you life."

Jesus said: "My people, the first concern of the army forces was to win the war, but now there is concern whether nuclear weapons or biological weapons remain hidden. Some revelations indicate a secret nuclear weapons program was going on as in North Korea. This will give proof for your president's incursion, but war is always a trading of one tyranny for another. These nuclear weapons are proliferating so that these countries could defend themselves. This same reasoning could be applied to Iran and North Korea for future one world wars. Pray to stop these wars before they lead to a world war."

Jesus said: "My people, it is desirous for some who want to claim victory in Iraq, but you still can see all the wounded and dead from this war. War is never pretty as the military tries to hide this ugly side of the innocent civilians being killed. Even as this war is winding down, many countries are still split over the reasons for this war. Other questions of how the riches of the oil will be distributed could create massive problems between the three main groups in Iraq. It will be difficult to find true justice on the earth, for you will have to wait for My reign. Pray for calm to come over this land and that a fair government will take over."

Jesus said: "My people, this sense of release from the bondage of Saddam's fear squads should be the same spiritual freedom that you are seeking from the bonds of your sins. Spiritual freedom is when all of your fears, guilt and anxieties are put to rest. It is My love and peace that you should be seeking because My peace is the only true rest that your soul could enjoy. You are tried by the trials of this world, but it is only a training ground to determine those who are really faithful to Me through good and bad times. Keep your focus on following My Will and struggle to carry your daily cross as I carried Mine to Calvary."

#### Friday, April 11, 2003:

Jesus said: "My people, the Earth planet has been blessed that I took the form of a man and died on the cross for all of mankind. This one time sacrifice of My Blood was worthy to free all of man's sins. It is hard to find the right conditions for life in the hot and cold of the universe. The Earth also needed My protection from Satan and his demons. I have cared enough for all of My people that I gave up My very life for you. It is man's responsibility to return your love and commitment to Me for giving you life. All of creation bows to My Will. Even though you have free will, I want you to freely choose to love Me. All those, who refuse to love Me, will be joining the evil ones in hell. You have a choice, but you will be in My peace and joy only if you choose heaven for all eternity. Eternal suffering in hell without My Presence is not worth a few selfish pleasures

during your short lifetime. To come to heaven, you will suffer and need to seek the forgiveness of your sins. Give your entire self over to Me and your life can be more perfectly used in My service for My greater glory. Keep close to your daily prayer life and you will be on the narrow path to heaven."

Jesus said: "My people, I have warned you that America's pre-emptive war against Iraq was not justified. Even before this war is over, the one world people will be planning the next country to attack. You have made Iraq a precedent for more incursions in the name of the war on terror. You will see, that those hungry for control and vengeance, will be promoting the next war. If the American people do not say 'stop', the present administration will find a new target to bully. Wars expend money, kill civilians and military, and never accomplish anything for America. See that the evil ones are behind these fruitless wars for their own financial gain. Pray for My peace and an end to these wars."

#### Saturday, April 12, 2003:

Jesus said: "My people, the evil one world people have turned My creation upside down where wrong is right and right is wrong. Traditions and My Commandments are being turned aside as old-fashioned and chaos in the streets with sin is accepted by society as a norm. Abortions, birth control, fornication, and adultery are not even sins to many. That is how evil your generation has become. The evil one world people are promoting your death culture of wars, abortions and euthanasia. They have even added man-made diseases as AIDS, Ebola, West Nile virus and SARS to help with population control. The evil of science in cloning and manipulating DNA for evil purposes is a consistent theme of the evil ones to destroy My creation. The righting to normal in the vision is coming soon when I will come again as in Noah's day to cleanse the earth of all evil and distortion and I will renew the earth to its original perfection. Man thinks he can make things better by his manipulations, but instead he has corrupted the earth as in Noah's day. That is why the real rejoicing will come in My purification of the earth's evil, as the evil ones will rot in hell's flames."

Jesus said: "My people, as you look back on your life, you wonder where all of the years went that have passed you by. It seems only yesterday that you were back in high school or just getting married. You can remember the birth of your children and even their children. Life passes you by very fast, so you need to reach out to live it to the fullest. Life is a testing ground and you only have a short time to prove your love for Me in your actions. It is at your death that your soul's eternal life begins in the spirit. It is your destination that should be most important to you. Everyday in every action you either choose My way or your way. If you give everything over to Me and do things out of love for Me and your neighbor, then it will go well for you at the judgment day. If you do everything for yourself, then your greed and pride could lead you on the broad road to hell. If you truly desire to live forever in My peace and love, then

you must be willing to suffer life's trials and carry your daily cross for Me. By giving your will over to My Divine Will, life will be a joy to share with everyone. Those, who only live for themselves, will live very dull and disappointing lives without My love inspiring them. Do not close your hearts to Me, for I am seeking your love to your dying breath."

Sunday, April 13, 2003: (Palm Sunday)

Jesus said: "My people, the hour of My death was the hour of darkness that covered the earth for a brief time when evil appeared to triumph. Yet in three days a bright light renewed the earth with My Resurrection. My apostles were overjoyed to see Me again as death could have no hold on Me. This is My victory over sin and death, and it was the beginning of the spread of the Christian faith all over the earth. Another hour of darkness will be coming during the tribulation of the reign of the Antichrist. It will again appear that evil will be victorious, but it will be a short reign before I come again in power and glory to cleanse the earth of all evil. I will triumph with the comet and the three days of darkness. Then I will renew the earth and My Light will dispel the darkness of evil once again in My Era of Peace. My Light of glory will then resurrect all of My faithful souls to heaven and there will be a great rejoicing."

Monday, April 14, 2003: (funeral Mass-Maria)

Jesus said: "My people, you are starting Passion Week and that is why you are seeing the purple curtain blocking the way. Many souls had to wait in the place of the dead until My dying on the cross freed them and opened the gates to heaven. You will soon be celebrating My Resurrection again on Easter Sunday. All of those, who die now and are worthy, are blessed by My ransom of their souls. Once they are purified, they can enter heaven. Continue to pray for the souls who die, because you do not know the disposition of that soul at their judgment. Every soul, who dies, does not go directly to heaven as even very few do. Those, who are saved in purgatory, need your prayers to hasten their delivery to heaven. These souls cannot pray for themselves, so they need your prayers and do not forget to pray for them."

Jesus said: "My people, the red color of this book indicates a book all about causing and fighting wars. The book itself represents how you can read the script of the masons and the one world people in their attempt to take over the world. I have told you that through continuous wars, disasters, diseases and massive debts the one world people have a plan to destroy America. The first steps you have already seen in two wars in Yugoslavia, one war in Afghanistan, and now another war in Iraq. You have not even paid for the Iraq war or its buildup and already your media are beating war drums again to fight Syria. How long are Americans going to allow their government to force war after war on trumped up charges of dangerous weapons and terrorism? If you do not repent of your sins and stop these fruitless wars, you will soon let these madmen destroy you. You

cannot give your president free reign to invade any country he desires, or you will be no less a tyrant than any other dictatorship. These are wars of aggression and they cannot be justified by their countless excuses and accusations. Pray for peace now before the whole world will want to destroy you, because America is out of control."

Tuesday, April 15, 2003:

Jesus said: "My people, you have watched Me in the Scriptures suffer through all of your problems and more. I suffered criticism even on the cross. All that I suffered on earth was offered up for your sins as atonement to My heavenly Father. This image of crosses in the cave represents your struggles on your cross in this world where everyone must suffer. This life is a test of your spiritual and physical stamina in your attempt to travel the narrow road to heaven. Some refuse to accept sufferings and want the comfortable broad road to hell. If you truly love Me and your neighbor, you cannot be lazy in your responsibilities, but you need frequent forgiveness of your sins and My help to avoid the occasions of sin. Everyday you are doing battle with the temptations of the evil one, but call on My help in your daily consecration and I will assist you through life's trials. It is your persistence in faith to follow Me no matter what the cost that will save your soul. Never give up no matter how hopeless your situation may be, and you will see the light at the end of your life leading you to heaven."

Jesus said: "My people, I am showing you a computer monitor and how much of your life is controlled by electronic images. Your bank money is stored electronically. Your information for all of your insurances, passports, licenses, wills and any other documents are all electronically controlled. In addition your technology has enabled you to store this memory on smaller and smaller chips. These chips also can be linked with satellites and cell towers all over the world. Now people are actually taking smart chips in the body so they can be tracked and monitored for any number of purposes. It is these electronic marvels that will provide the capability for the mark of the beast to buy and sell and even control your minds. This part of science has been purposely advanced even by demonic know-how so the Antichrist could control people through this monetary and thought control means. That is why the opening of these computer chips as a book of knowledge can be abused by evil people to control the world. I am warning all of My people to avoid smart chips and absolutely to refuse such chips in the body. Do not give the evil ones any opportunity to control your mind and soul. Call on My protection and that of your angels to avoid this evil influence of the mark of the beast in computer chips and refuse to worship the Antichrist. I am the only One worthy of your worship because My power is greater than any creature."

Wednesday, April 16, 2003: (funeral Mass, Marie)

Jesus said: "My people, you have a wake for those who die, but this vision of a boat's wake represents how each person's

life affects other lives. The immediate family feels the pain of such a loss the most, but every life that meets the deceased has some remembrance of them. Think of how your own life is influenced by others and you have an idea of how your own life has changed others as well. If you are a person of strong faith, you can be an inspiration of faith and evangelize souls to come to know Me. All the souls, who were saved through your help, will be a testimony for you at your judgment. So do not be afraid to reach out to others in trying to save their souls. When you see a deceased person in the casket, think of all the lives that were touched by that person's goodness."

Jesus said: "My people, there are some people who are always joyful and they carry these flowers of joy to everyone they meet. It is much easier to live with people that are joy filled than with those who are mean or constantly complaining. Those, who are faith filled, are many times those same people that are trying to help their neighbor in their needs. The closer you are to Me, the more My love becomes a part of you and you want to share that love with others. So let Me take the anger and bad language out of your lives so you can be more loving and joyful to others. You will see that you make more friends with love than constant criticism. Work every day on your own disposition and try to be more loving in your approach with people. Even if you fail at times, do not give up, but keep working at love. People will understand your sincerity at helping them and you could soften many hardened hearts. Other people are looking for love also and they will meet you half way if you just give them an opportunity to respond."

Thursday, April 17, 2003: (Holy Thursday)

At Holy Name after Communion I could see a brilliant luminous cross which represents the Light of Jesus and His healing. Jesus said: "My people, I am the Light in the darkness of sin all over the world. The focus of this weekend is on My death on the cross and how I suffered that man may be freed of his bonds of sin. I love man so much that I was willing to freely give up My life that you may live in freedom. By My grace I instituted My Eucharist in this sacrament of My Real Presence. I also gave My apostles the power to forgive sins in Confession. Now with My ransom your sins can be forgiven every time that you come to the confessional. Every time your soul is cleansed of sin you are healed of sin's effects. Keeping your soul pure is the closest way of pleasing Me by your obedience to My Commandments. The luminous cross is a symbol of hope for helping you through the time of tribulation. Those, who look upon My luminous cross, will be healed of all sicknesses and My angels will protect you from all harm. I am always with you in My Eucharistic Presence."

Friday, April 18, 2003: (Good Friday)

At Holy Name after Communion I could see Jesus suffering on the cross. Jesus said: "My people, I did not die in vain, but My death was a sacrificial offering of the Lamb of God. The sins of

man required more than man could atone for, but the Son of God's Blood is more than sufficient to atone for all of man's sins. I established My Church with St. Peter and My apostles when I said: (Matt. 16:18) 'And I say to thee, thou art Peter, and upon this rock I will build My Church, and the gates of hell shall not prevail against it.' No matter how badly the demons want to destroy My Church, I will always protect My faithful remnant until the day that I return in glory. Keep faithful to Me in following My ways and your soul will be saved. Many thought that killing Me would stop My Church, but My Resurrection and the power of the Holy Spirit have kept My Church alive both now and forever. Just as I had to suffer on the cross, all of My followers must suffer also. As I served everyone, so I want My disciples to serve the rest out of love for Me. By following My example, you will save your soul."

Saturday, April 19, 2003: (Easter Vigil)

At Holy Name after Communion I could see a black hole as a symbol of death and then a bright star as a symbol of Jesus' Light. Then I looked at all the stars of the night where Jesus reigned over all the universe. Jesus said: "My people, My Resurrection was the most startling event to mankind since Adam was condemned to die. Because of his sin, you inherited death, but because of My Resurrection, everyone of My faithful will be resurrected as well at the final judgment in new life. You have seen the light of the Easter candle represent My Light dispelling the darkness of sin. So also you are seeing the waters of Baptism represent My Blood which has cleansed away your sins. It is you who are called forward to accept Me as Master and Savior, and to seek My forgiveness of your sins. All those, who bask in the Light of My glory, have My rays of grace shine on you every day, just as the sun lights your way. Rejoice and be glad for this is the day of your salvation."

Sunday, April 20, 2003: (Easter Sunday)

At Holy Name after Communion I could see the cross exiting to the left and Jesus was appearing to His apostles in all of His radiant glory. Jesus said: "My people, My apostles were incredulous with joy to see Me alive again. When they could see My wounds and that I ate with them, they believed that I was not a ghost, but real flesh and bones. Now they remembered how I told them how I must die and in three days be raised to life. Now they could announce My Transfiguration and Resurrection to everyone so they could believe in Me also. I have given you the greatest of all miracles, that as I suffered and died, you also will die but be raised to glory with Me in heaven. I have given everyone hope, who believes in Me, that you too can be raised from the dead. Once you are resurrected, you will never see pain, death or sin again because I have conquered them all. This promise of eternal life is available to everyone who accepts Me as their Savior and seeks the forgiveness of their sins. Rejoice on My first Easter when all the dead, who were worthy, were raised also with Me to heaven. Continue to sing My praises and

give thanks to Me for letting My people go free from their sins."

Monday, April 21, 2003:

At St. John the Evangelist after Communion I could see some electronic devices that could spy by hearing and seeing. Jesus said: "My people, in the days of the Exodus My people were oppressed and enslaved by the Egyptian Pharaohs. In your modern days you will be oppressed and enslaved by the one world people by chips and control of your money system. These electronic chips in the vision are the eyes and ears of those spying on your daily activities. As the agents of the Antichrist attempt to control people, you will see more harassment of those following Me. You will soon have to worship Me in secret to avoid imprisonment and even martyrdom. As you are led to places of refuge, you will witness a modern day Exodus where I will protect My people from taking the mark of the beast or worshipping him. You will also witness miracles of protection to feed you and protect you from harm. As you are reading of My victory over sin and death at My Resurrection, you will again see My victory over the Antichrist as I will come again in glory to cleanse the earth of all sin and evil."

Later, at St. Theodore's tabernacle I could see a train moving down a track and out on a bridge over the water. The train had to stop midway and back up because the bridge was out. Jesus said: "My people, many times nations set out on a path which may appear to be the right way to go, but sometimes detours happen. The United States after September 11<sup>th</sup> set out to take away the havens for the Islamic terrorists. The first attacks came on Afghanistan to rid Osama Bin Laden and the Taliban, but he was never found. Another war was started in Iraq to rid Saddam Hussein and his supposed weapons of mass destruction, but again neither were found. The terrorists can run to too many countries to hide and America does not have the right to attack these haven nations. Even the countries that have been taken are now going to take years to rebuild and the Arab nations have drawn disdain from every attack, even to remove ruthless dictators. America cannot justify its wars of aggression as wars of liberation because many similar leaders will find their way to the top later on. These constant wars need to stop with chaos going on all over the world. America cannot afford these constant wars in debts or lost personnel. Pray for the stoppage of all killing by wars, abortions, or man-made diseases."

Tuesday, April 22, 2003:

At St. John the Evangelist after Communion I could see a spoon for feeding someone, but spiritually. Jesus said: "My people, you are familiar with spoon feeding your young children before they can feed themselves. This is true also in your children's spiritual life when they need direction in their prayer lives. You also need to encourage them in frequent Confession so they have good habits. This may also be necessary to give good example for new converts or those who have no religion. You can help people to understand how important love

of God and love of neighbor is for their souls. So many have fallen away from their faith that they need to be encouraged to return to their former Catholic devotions. Daily prayer is a start and returning to the sacraments, especially Confession, is necessary for the cleansing of souls. Pray for sinners to repent and continue to give good example of your faith to all ages."

Later, at St. Theodore's Adoration I could see some books on a shelf and they looked old, but they were special. Jesus said: "My people, there are certain books about truthful information that is being suppressed by the one world people to cover up their plans and their dirty deeds. Many books about history have been altered to not show the one world people's hand in starting major wars and depressions. Information about government contracts to make man-made diseases have been stripped from libraries. Truth about revolutionary carburetors that have much greater gas mileage have been suppressed by the oil industry. The truth of My Word in the Bible is also being revised many times according to the agenda of the writers. By distortion or outright banning, such books will slowly be removed from the public as religion about worshiping Me will be covered up and made unlawful to spread. As you move closer to the tribulation, Bibles of the proper translation will be hard to find. See this as another sign of the end times as the Antichrist's agents will be pushing the New Age religion as the only one acceptable to the new world order. Save your Bibles now for safe keeping in this evil age. Pray also for My help to protect your soul from the evil one's influence."

#### Wednesday, April 23, 2003:

At St. John the Evangelist after Communion I could see a fresh dew and rain on some green branches symbolizing life. Jesus said: "My people, My Resurrection gives life and meaning to all living things and all creation is enlightened by My Presence. That is why sins of taking life and obstructing the creation of life are serious sins indeed. You have a culture of death trumpeted by the one world people in promoting wars, abortions, euthanasia, and man-made deadly diseases. These things are all against harmony and My creation, so pray to be peacemakers and encourage the protection of all life. The sins of fornication, adultery and birth control are all interfering with the proper creation of life and need to be avoided. Living together and homosexual acts are bad occasions of sin and need to be avoided as well. I have given you marriage as the proper place for conjugal love and all other conditions are mortal sins. More souls go to hell because of the sins of the flesh, so protect your souls by frequent Confession and obeying My Commandments. When mankind acts properly according to My ways, then you see harmony in life as I have created it."

Later, at St. Theodore's Adoration I could see a plain house as it grew more ugly as it aged until it was ready to fall down. Jesus said: "My people, your body is like this aging house, but it houses your immortal soul which does not age. In your earlier years you are more attractive, but as you age, you are the same

person, but not as appealing as before. Do not let your aging appearance dismay you for this is a part of life. Those, who are younger, pride themselves on their appearance to attract those that they want to marry. Physical beauty is fleeting as fame, so put trust and hope in being with Me in heaven than relying on things that will pass. Your internal beauty in a pure soul free of sin is more appealing to Me than your physical beauty. So use frequent Confession to keep your soul beautiful in My eyes, no matter what your physical age is. I have shown you how ugly the demons and condemned souls appear in hell. All of these fallen angels have lost their beauty and are forever scarred with their sin of disobedience. Those, who come to heaven, have a beautiful radiance and one day will have glorified beautiful bodies as well. So if you truly wish to keep your beautiful look both in body and spirit, seek to follow Me on your path to heaven. By consecrating everything over to Me every day, you will always be pleasing to Me and yourself. Love of God and love of neighbor are the true beauty that I am looking for in your heart."

Thursday, April 24, 2003: (Anne Manning funeral)

At Holy Name after Communion I could see myself coming up out of the depths of the ground to a feast of glory with God. Jesus said: "My people, Anne has suffered much in her health problems, but she is at rest now. This funeral was one of a loving family with many fond memories of Anne's life. This was a real heart felt homily from her son that everyone was privileged to share. Mothers are always helping when they are needed, right up to their death. It is only fitting that their children should reach out to them in their own need as this family. All of you need to pray a prayer of thanksgiving for your own mothers whether living or dead. You can all think of the moments when your mother was there for you. You have My Blessed Mother to help and guide you as well when you pray her rosary."

Thursday, April 24, 2003:

Prayer Group:

Jesus said: "My people, many countries dress up their star attractions to encourage more tourist trade. War, terrorism, and diseases have caused a drop in the amount of traveling. Disagreements between countries have also stifled travel to foreign countries. Some businesses are also being affected by the same fears. Unemployment is still a problem in many areas because of what some are feeling as a recession. If there was more love between countries, then there would not be wars and terrorism. Pray for My love to spread throughout the world in all of everyone's hearts."

Jesus said: "My people, you have had severe cold and a long winter with many snow and ice storms. Now you are being tested by more storms and tornadoes. These air conditioners are another sign that you will again see extremes of heat again as last year. Again fires and droughts will continue to harass you with threats to crops and houses. See that all of these weather events

continue to test your patience as disasters are only one facet that will bring you to your knees."

Jesus said: "My people, many times you are so busy earning a living and taking care of your chores that you forget to take time to enjoy all of My creation around you. When you take time for a retreat or a vacation, you have the time to slow down and reflect on life going on around you. Give thanks to Me for creating you and all that you see. It is this appreciation of My harmony in creation that lets you see how I want all of you to live with love in your heart."

Jesus said: "My people, you are joyful that the snow is gone and the warmer weather is returning. You are also beginning to notice the longer days as more light uplifts your spirit. You are joyful also in celebrating My Resurrection which coincides with the new life of spring. Rejoice in this gift of life and My gift of My own life that has set you free from your sins. Share your joy and love with your neighbor and everyone can be joyful even amidst your daily trials and troubles."

Jesus said: "My people, this unnatural picture of nature on a computer screen is an example of how artificial man's tampering of nature has occurred. Through DNA and hybrid changes, man has tried to grow crops large and plentiful in short times and resistant to pests. Unfortunately, the perfection that I placed in nature is a balance to not interfere with seed production, taste of the crops and even balance with insects. That is why most everything that man tries to improve usually comes with undesired side effects and the improvements are not worth the losses to gain them. Better to live with nature as I have created it than to try and improve on My perfection."

Jesus said: "My people, your storm power outages have again made you appreciate all the conveniences that your electricity can provide. Your world is always changing in seasonal temperatures and winds. Sometimes you have good weather and think that this is normal, but you must suffer the good with the bad as part of life. Even when you recover from a disaster, it makes you appreciate your good weather. Your life of sin also has storms and calms, so you must have spiritual strength to weather your temptations. You can recover from your disastrous sins in Confession where I can calm the storms that are buffeting your soul. Rejoice as you are cleansed and feel pure in My sight."

Jesus said: "My people, repairing the damaged trees and lawns are your first concern in spring. Cleaning out your garages and basements helps to remove all the clutter that has accumulated over the year. Every year I draw your attention to cleaning out your bad habits and the clutter of your sins as well. It is better to have a clean heart and soul than a clean house. With My grace you can have both if you seek My forgiveness and love your neighbor."

#### Friday, April 25, 2003:

Jesus said: "My people, when I asked My apostles to follow Me, I was asking them to follow the Light of God. Now, I am

asking everyone to follow My Light as well. You may not see an actual physical light to follow, but you can follow My example in life. When you are drawn to daily prayer, you are following Me. When you help your neighbor in need, you are helping Me in them. When you see a need to come to Confession because of your sins, you are coming to Me for forgiveness. Your guardian angel may be prompting you to do these things, so do not put them off by your laziness. Pray for discernment to understand how I want you to lead your lives by obeying My Commandments of love of God and love of neighbor. Every time that you make a decision to do My Will, you are following My Light toward heaven. Listen to today's Gospel that only through Me can you be saved."

Jesus said: My people, the same masons, who have stripped your churches of statues, kneelers and Communion rails, are the same people stripping your government buildings of statues and anything about God as well. Prayer in such public buildings is being outlawed as well as the Ten Commandments and Nativity scenes. Now even 'under God' in the pledge of allegiance to your flag is coming under attack. Your country was founded on God-faring principles and now you are turning your back on Me. The other meaning of empty government buildings is that your freedoms are slowly being taken away in the name of terrorism or diseases. Because you are not repenting of your sins, you have signed your fate as America will be brought to your knees. You cannot dismiss My laws and My blessings and still remain standing. I will allow the masons to control you as a chastisement for your disbelief in My Word. My prophets are showing you your doomed future because the evil of your society calls for My wrath and judgment against it."

Saturday, April 26, 2003:

Jesus said: "My people, you are just celebrating the joyous Easter Season of My Resurrection and still I am showing you a sign of sorrow and suffering. This symbol of violet colored curtains on the ceiling represents how heaven is sorrowing that man does not give Me enough reverence for My Real Presence in My Blessed Sacrament. I have told you how My angels give Me praise at every tabernacle containing My sacred Hosts. It is difficult to genuflect to My tabernacle when it is not present in the main church. My Real Presence is what makes your churches holy and that is symbolized in your sanctuary light always burning. Those, who praise Me and adore Me in My Blessed Sacrament, are following the example of My angels. Your God, who has created you and the world that you live in, is present in My Sacred Host. Keep your soul pure of sin with frequent Confession, so you can receive Me worthily in Holy Communion. Believe in My Real Presence in the Host because that is My most precious gift of Myself that I have given you in My Eucharist. Teach reverence of Me to your children so you will always recognize My Presence among you."

Jesus said: "My people, because a lot of people have been cheated out of their money in various professions, some people have little trust in man. Whether it be a crafty mechanic, a car

salesman, an insurance man or even lawyers, there are con persons who have made it bad for the rest of mankind. Because many have been taken for thousands and even millions of dollars, even Wall Street has been given a bad name. Trust is a hard virtue to earn in another's eyes and it can only come with truth over time. An honest friend is a true friend that can be trusted with everything. You have the truest friend possible in Me because I am pure love and I will never betray you or cheat you. It is hard to trust man, but you can always trust God to be true to His Word. When I forgive you your sins, you are truly free. When you give everything over to Me, you will truly gain eternal life with Me. Follow Me and obey My Commandments and you will gain heaven because you can truly trust Me all of the time."

Sunday, April 27, 2003:

Jesus said: "My people, today's homily about change is a misrepresentation of the faith and was really the agenda of the coming schismatic church. Time changes people's ages and physical changes of buildings. Even some of man's traditions in the Church have changed. But My Word and My Commandments do not change, no matter how much your society thinks that sins of the flesh are acceptable. I do not change to make My message of love and obedience more acceptable to the masses. You have a choice to accept My love or not, but you must be willing to accept the consequences of your choice. Those, who follow My Commandments of love of God and neighbor, will be promised eternal life with Me in heaven. Those, who refuse to follow My Will and do not obey My laws, are on the road to eternal suffering in the flames of hell. The changes of stripping the statues, crosses, and kneelers are taking away the reverence and praise of Me that I am worthy of. Hiding My Blessed Sacrament in back rooms is part of taking away My Real Presence from the faithful. It is the priest who should be giving your homilies, for that is their ordained ministry. The schismatic church is promoting the one world religion of no God except man. Avoid this change for its own sake because it is led by the evil one."

Jesus said: "My people, My mercy and My graces are so abundant that they are like an everlasting sunlight that will never expire. As the sunlight, My mercy falls on everyone, but it is you who must open your hearts to receive Me. Those, who embrace Me in truth and give your will over to My Divine Will, will reap My mercy in the forgiveness of all of your sins. When you close the door or a shade to block My grace and mercy, then you are refusing My mercy and My suffering on the cross for you and you are asking for My justice of judgment. I call everyone to be saved, but you must accept Me as your Savior and seek the forgiveness of every sin that you have committed. By accepting that you are a sinner and need forgiveness, then you will be forgiven and I will put you on the path to your heavenly reward. My mercy awaits even the worst of sinners, but you must trust and hope in Me that I can save your soul."

Monday, April 28, 2003:

Jesus said: "My people, America has deposed Saddam Hussein, but now you have an even harder problem of making political peace between the three factions who want control of Iraq. Without financial support from other nations, the debt of tying down troops and paying to restore services could expand beyond any oil payments. Many American poor are going to be upset that your government will be taking better care of Iraq than your own citizens. You have a chaos on your hands that may not wait for restoration from war damage. This is another example of over extending your military and debts to satisfy the one world people's desire for control of this dictator. America should learn this lesson that regime changes do not stop terrorism, but cost more lives and debts for no gain and more political problems. This degrading and extension of your military and your deficits are fulfilling the plan of the one world people. That is why you cannot be drawn into more of these wars for any reason because there will always be another trumped up dictator to replace. America needs to promote peace with no more supposed wars of so-called liberation."

Jesus said: "My people, you have two choices in life. As with these scenes of a chandelier and a serpent, you can live in My Light as the bright lights of the chandelier or you can live in the belly of the serpent. When you give your life over to Me in total consecration, you will experience My peace and you will freely serve Me in My Divine Will. Those, who choose to follow their own will and serve the world and Satan, will only find disappointment and emptiness in their spirit as Satan holds them in a life of sin. Those, who serve their pleasures and comforts, are held captive in the bonds of their sins. As I resurrected in My glorified Body, I defeated death and sin and I have offered My mercy and forgiveness to all who want to be with Me in heaven. By seeking My mercy of forgiveness in Confession, I am setting you free from your sins and I will pour out My graces on your soul. When you are empowered by My grace, life will be a joy to share your love with Me and your neighbor. When you share your love, time and money with those around you, you will have treasure in heaven and a warm feeling of gratitude from those you have helped. Choose to continue following My light to heaven every day instead of the darkness of sin that leads to hell."

Tuesday, April 29, 2003: (St. Catherine of Sienna)

Jesus said: "My people, many times you appreciate things more when they are briefly taken away as your power lines. There is a spiritual power line that you have at daily Mass. It is the greatest prayer of My Church when I am consecrated into My Real Presence under the species of bread and wine. That is why when you are not able to have Mass for the day, there is a void and a great loss for especially My daily Mass people. As the time of tribulation draws near, you will be faced with this loss of the Mass and My priest sons. Then you will have to call on Me in daily spiritual communion. St. Catherine of Sienna also had to deal with schism in the Church and several antipopes. She by prayer was able to bring the pope back to Rome. In the end times

you again will be dealing with a formal schism in My Church as elements of the New Age, one world religion will force its way into My Church. There will be a split, but I will always prevail against the gates of hell by protecting My faithful remnant. Have trust and hope in Me that I will always be with you even though some will try to mislead some of My Church members. I have told you that unless you call on My help, even the elect will be tempted to deny Me. So love My daily Mass while you still have it, and treasure My Real Presence always."

Jesus said: "My people, this recent disaster involving a gasoline truck explosion and the destruction of several houses shows you how dangerous it is to have such vehicles on your streets. I have warned you earlier how these vehicles could be used for terrorist incidents or other scare tactics. This makes the second major incident involving chemicals in this city of Rochester in a short time. Any lapses in safety with these vehicles have some dramatic consequences. Each incident causes a review of the training of drivers or engineers for trains. Many disasters are to continue in your country from many sources as a punishment for your sins. Many of the injured and stressed neighborhoods will take a time to heal from such a sudden disruption. Pray for all of those affected and their families so they can get back on their feet medically and financially."

Wednesday, April 30, 2003:

Jesus said: "My people, I know you have daily troubles and problems, but do not let them control your life so much that you are downcast and overwhelmed. Pray at the beginning of every day for My help in all that you do, and with confidence in Me, you will be more joyful in going about your work. It is worrying too much and trying to accomplish more than you are able that will cause you stress both to your disposition as well as your body. Try more to act calmly and think through things the best that you can, and everything else will take care of itself. If your workload is too much, then delegate more to others. Do not be so concerned with worldly things that you do not have enough time for your prayer life. It is only by coming to Me that you can find rest for your soul. Through the forgiveness of your sins, you will have hope and trust in Me to calm the storms of your trials. Focus on the beauty of people and My creation than on the evil things and problems of life. With a more loving outlook on life through Me, you can have a more uplifting, cheerful life that will be contagious to all of those around you. If you are truly celebrating My Resurrection, you should have joy and peace in your heart every day."

Jesus said: "My people, there are those in your government who are trying to degrade and cut back the number of ships and airplanes in your Navy and Air Force. Some legitimate reasons are aging or obsolete equipment, but the longer goal is to minimize your force so it is easier to control. There are large areas of waste and overspending in your Defense Department and that leaves less money for upgrading new vessels and airplanes. Much of this inefficiency is planned obsolescence so America will

have less defense. The one world people want to destroy America so they are working to reduce its fighting forces for eventual takeover. There is a supposed reduction in force because of the changes in Russia, but there are still threats to America from China and other nations. Through the gradual loss of freedoms and constant wars, this is the plan of the one world people to make America ripe for takeover. Your country is a superpower today, but it is being betrayed by traitors from within your country."
