

Thursday, January 1, 2004: (Solemnity of Mary, Mother of God)

Jesus said: "My people, this feast day is a celebration of My Blessed Mother as truly the Mother of God. This also is New Year's Day which many celebrate at midnight. Some may celebrate these holy days, but there are fewer coming to Mass on this day of obligation by Church law. These major feasts are just as worthy to celebrate spiritually as people celebrate them as secular holidays. Those, who come to Mass on Sunday out of obligation, receive a servant's reward, but those, who come out of love of Me, receive a prophet's reward. There is even more spiritual value in going the extra mile for daily Mass, daily prayers and visits to My Blessed Sacrament. Your true love for Me is even more appreciated when you do things for Me without it being an obligation. Those, who are lazy and do not come, should be ashamed of their lack of proper priorities in their lives. Keep your focus on Me and do not pass up opportunities of grace to strengthen your soul against the temptations of the devil."

Thursday, January 1, 2004:

Jesus said: "My people, when you are in deep trouble beyond your means, you are quick to wake Me in the boat as My apostles did. But when you face life's little ups and downs, you can come to Me as well. A lot of little problems can weigh you down and test your patience even more than the major disasters. It is comforting to know that I am at your side awaiting your prayer request. At times you think that you can do everything on your own and you struggle more than you need to if you had My help. So pray with Me every day and your little burdens will seem lighter. Even though I give you graces and blessings to make it through life, you will still have to suffer in carrying your cross. By offering up everything to Me, all of your struggles can merit heavenly treasure for your judgment. As you saw Me calm the waters of the storm, you can trust Me to calm the waters of your struggles as well."

Friday, January 2, 2004:

Jesus said: "My people, I am showing you another sign of the end times in this vision of gradual darkening during the day from the smoke of a volcano exploding. This will be another sign in the sky to know that an evil age of the darkness of sin will be all around you. Where this volcano will let loose, there will be a major water falls in sight of this cloud. This eruption will be so large that the weather will be affected near the site of this volcano. You will see major earthquake activity preceding this event, even as you are seeing increased activity now. This activity will be right at the site of the

volcano about to erupt. These are more signs to you to be prepared spiritually in your soul by frequent Confession. There will be some people that will die in the path of this eruption and more may be sickened and die from the poisonous gas and ashes spewed into the air. It would be better to wear a mask and not go outside when this occurs. This will be a part of the suffering that people will have to endure because of their sins."

Jesus said: "My people, I have given you messages before on controlling the amount of time you spend on entertainment so that it does not consume all of your free time. You also should be careful in the kind of movies that you watch and the music that you listen to. For your own viewing and those in your families, you should discourage any 'R' rated movies, no matter how great people think they are. Avoid the violence, nudity, and bad language that are associated with these movies. Even some PG13 and lower are not fit for your young children to watch. Certain music and lyrics also can be rated and they also have a bad influence toward drugs and foul language. Be aware of these demonic influences in the entertainment business so you are not drawn into occasions of sin or mesmerized by unsuspecting effects on your faith and morals. Keep close to your prayer life and always be discerning with My help how to spend your time and in a proper environment. Do not be attracted to the latest movies and music until you can determine if it meets My criteria of acceptability. You have one life and one soul and you must protect yourself from all outside evil influences if you are to keep on the right path to heaven. Your life should not be centered on pleasure and amusement, but how best to follow My Will and My plan for your life."

Saturday, January 3, 2004: (Most Holy Name of Jesus)

Jesus said: "My people, this day is special to your parish because it is about your namesake. The words of your homily by the priest are repeated over and over in the Scriptures, that unless you come through Me, you cannot have eternal life in heaven. I am the gateway and it is by My Blood that any soul can enter heaven because I have atoned for your sins to My Father. No matter what religion or whatever a person believes, you must accept Me as Savior and ask for the forgiveness of your sins to enter heaven. Even if someone has not heard of My Name, everyone will be given an opportunity to know their God and choose to accept Me or not. You all are infused with the gift of reason and have a knowledge of what is right and wrong. Even an atheist has heard about Me or sees My creation, and his very denial of My existence is making a decision to avoid Me. At your judgment you will have to make an accounting for all of

your actions and you will know in your heart that My judgments are true and you cannot deny them. You will be judged on how you loved your God and how you loved your neighbor. So pray for everyone to be enlightened by My grace of faith to seek Me and follow Me to heaven. Your soul is searching for My peace in your Creator and you will not be satisfied until you find Me."

Jesus said: "My people, you are seeing death all around you in abortions, war, and natural disasters. Abortions, war casualties, and homicides are caused by man and those responsible will have to account for their sins. Those, who are killed by abortion, are silent and never see any media coverage. Those, who are killed in war and by homicide, receive full coverage in the media. Many killed in earthquakes, floods, and avalanches are also in silent tombs. Death from abortion and wars are preventable if man would take away his greed for money and pride for selfish reasons. I bring love and peace to this world, but there is a price to pay for each soul. You have a constant battle in each person between earthly desires of the body and heavenly desires of the soul. If you see the injustice of killing a defenseless infant in the womb, then you will join in the struggle to educate women not to kill their babies. Pray also for peace in the world to stop the senseless killing in war after war. Man needs to work with each other in love to have peace between neighbors instead of continuous fighting which gains nothing. Some killed in natural disasters are where much sin is present, while some are dying by accident of living on a fault line. Drugs are causing many homicides to occur and it is a secondary sin as abortions result from sexual promiscuity. There is much unnecessary killing going on in your world and unless man seeks repentance of his sins, your killings will increase. Call on My help in prayer because it is your best weapon against evil."

Sunday, January 4, 2004: (Epiphany)

Jesus said: "My people, you have heard the Gospel of the long trip by the Magi following My star to where I was born in Bethlehem. Every year at this feast of the Epiphany it gives Me a chance to remind all souls to come to Me and not keep your distance from Me. Some come for only the holy days or when they are in great need. Even as you are on your way to Me, remember how I asked sinners to make amends with their neighbors before bringing your gift to Me. Seek My forgiveness in Confession and heal any problems or grudges with your neighbor. Then your soul will be pure so I can receive your gift. Your gift to Me is a clean and contrite heart that is willing to lead a holy life. Then heaven will rejoice at your efforts to love and please Me. Stay close to Me all of the time and if you wander away in sin,

know that My forgiveness will always welcome you back to My crib."

Jesus said: "My people, I am showing you the outline of these buildings which represents your economy. The collapse of these outlines means your fragile economy is teetering on disaster. The increasing amount of debts from wars, deficits, and natural disasters will so adversely affect your economy that your government will go into bankruptcy or default. This will be so disastrous to your country that it will cause an invoking of martial law and enable the one world people to establish a police state under their control. This will be a precursor event to the coming to power of the Antichrist in Europe. Pray, My people, to prepare your soul for these end times because events are moving quickly to a reign of evil that you have yet to see. At the height of this evil I will come and vanquish all evil and establish My Era of Peace."

Monday, January 5, 2004: (St. John Neumann)

Jesus said: "My people, this dog on a leash is similar to how I provide for you. I let you roam about as you please by your free will, but when you come to danger, I pull you back as a warning even through your guardian angel. Dogs may wander away from their home, but when they are hungry or need something, they return to their master. I am your Master as well and when life gets you down or you run into trouble, you come to Me for help. I am your Provider as well because everything, that you have, has come through My hands. Many times you think that you have accomplished everything on your own, but it was My gift of your talents or My grace and blessings of a good job or a good investment that has enabled you to succeed. Only use money for your needs and the needs of others. Do not seek to be rich in this world's temporary wealth, but seek My heavenly treasure which you will never lose. Be ever conscious of your priorities for seeking heaven for your soul. Life everlasting is your soul's goal and not to be satisfied with only temporary worldly things."

Jesus said: "My people, this winter up to now has seen hot and cold spells and has been fairly mild. This whirlwind in front of a snow plow is showing you that you will have many more blizzards with winds elevated at each change in the weather. The hot and cold is to represent the lukewarm of your country that are passive and complacent in their faith. Because the lukewarm are neither hot nor cold, I will spew you out of My mouth since you are not strong in your faith and your hearts are growing cold and icy to Me. These winter storms are just a part of the many chastisements and natural disasters that you will suffer because of your unrepentant sins. Now is the time to

wake up out of your sinful habits and repent for your sins because your time for conversion grows short. You are seeing increased signs all over your world that the end times are closing in on you. Chips will soon control your buying and selling, but do not take them because they could control your minds. You will have to use your stored food, water and fuel for not taking the chip. The time to go to your refuges will be upon you when the evil ones will try and force chips in the body on everyone. Be thankful for My warnings and have your blessed sacramentals with you for protection against the evil ones. Call on Me and I will save your souls from all harm. Be patient for a time and I will destroy all of your enemies."

Tuesday, January 6, 2004:

Jesus said: "My people, I used parables in the Gospels to help people understand My Word of love and forgiveness by contrasting things that the people of My day understood. Today, I am showing you a washing machine that is washing clothes easier than the women of My day who washed clothes on rocks. You first wash the clothes and then rinse out the dirt and the soap. The contrast is how to keep your soul pure from the filth of your sins. You dress every day in clean clothes because you want to have a good appearance and you do not want to wear dirty and sweaty clothes from the previous day. In the same way I have to look at all of your dirty souls with sin every day and you should be more concerned with your soul's appearance to Me. If you do not want to wear dirty clothes, why would you want to live in a filthy soul as well? You can come to Me in Confession at any time it is available and I will wash away your sins and the grace of My sacrament will restore your soul to when you were first baptized. Then not only will you be dressed in physically clean clothes, but you also will have a clean and pure soul spiritually. Be concerned about keeping a good appearance both on the outside and the inside."

Jesus said: "My people, you are still in an orange state of alert for terrorist activity. Many events of unusual explosions, refinery fires, and plane accidents could have more terrorist activity than your media is willing to reveal. Some are real accidents, but not all of them. Many investigations have been hushed up or given reasons that are not true, nor validated by independent investigators. Some terrorist activity has been allowed purposely to create fear and chaos that would enable the one world people to declare martial law and take over the government. You will see events moving faster as one follows the other in rapid succession. Do not be fearful for I will protect My faithful in your prayers. I have told you that evil will get worse and America is headed toward a declining

influence in the world. Your sins are many and few are repenting, even those who should know better. Continue to pray for sinners to be converted before more souls are lost to the evil one."

Wednesday, January 7, 2004:

Jesus said: "My people, it is a joy to celebrate the lives of the saints as they are models to imitate for your path to heaven. These are your real heroes because they have been tested on earth with persecutions and trials and have been found to be true to following My Word. If you have some relics of the saints, keep track of their feast days so you can remember to display them for people to venerate. Having a relic is like having a little of their presence and grace of their heavenly help among you. You all are struggling in life to be perfected to be a saint one day, so see these saints as beacons along your path to follow. The inspiration of their spirits in life can be your grace by calling on their help as intercessors for your prayers. All the saints are encouraging you in your every day trials to keep close to Me and bring souls to God in your actions and good example. Do not despair in the face of temptations and disappointments, but lift your spirits to struggle on as My saints have done before you."

Jesus said: "My people, your scientists have been elated with your latest pictures from Mars, but this planet still is a long ways from sustaining life as you know it on earth. Even when you studied the Moon, there was no life or means to support it. This should make you more appreciative of your Creator that you have just the right conditions for life on earth. The air you breathe, the water you drink, and the temperatures are not so extreme as on other planets. Man has a quest to study other suns and planets, but the more you study them, the more you realize how optimum all of your living conditions are on earth. This should also be a lesson to you not to pollute your environment both in the air and in the water. You have a finite amount of raw materials and you will have to work more on renewable energy sources than consume those that take millions of years to produce. By managing your resources properly, you can have an environmentally friendly living. Give thanks and praise to your God who has provided all of your necessities for life."

Thursday, January 8, 2004:

Jesus said: "My people, in your fair, warm weather everything was going well with you. As soon as you are confronted with a blizzard snow storm, then life takes on a different meaning of struggle. There are times in the ups and

downs of life that your troubles may seem insurmountable on your own, but remember with Me, all things are possible. If you lived through life without any trials, living in faith would be easy. But even with affluence, many grow complacent and lazy, thinking they can do everything on their own. Whether in good times or bad times, man will have to recognize Me as Lord and Master of his life or you cannot enter heaven. I send you trials in life to test your pride and endurance of faith. If you have true faith in Me, you will call on Me in prayer and I will calm the waters of your fears. You may still struggle with trials, but you have My assurance that you will be given sufficient grace to endure them. Love of God and neighbor will bring you through even life's toughest trials, so have faith and confidence in My help. At the end of your life, those with faith will receive My reward of eternal life with Me in heaven."

Thursday, January 8, 2004:

Prayer Group:

Jesus said: "My people, I was born in a carpenter's house of St. Joseph and he made his living by providing practical furniture for people. He taught Me his trade as I helped him in My early years. Every person has certain talents and gifts for different trades and jobs. It is not important that you have a job that pays a lot of money, but it is important that you use your talents to the best of your ability. It is a waste of talent if you do not use the gifts that you were given. When you ply your trade for many years of faithful service, then I can say well done, My good and faithful servant. Pray to Me for guidance to know the skills that you are to use."

Jesus said: "My people, I have asked you to watch the signs in the sky and the events mentioned in the Scripture that would lead up to the end times. I am showing you how even the animals seek out caves for protection. My angels will lead you to refuges at My Blessed Mother's apparitions sites, holy ground places, and caves of protection. Many Biblical references talk of prophets and early Christians hiding in caves and catacombs. Be grateful for My help in your need for a safe haven in the tribulation."

Jesus said: "My people, your government and the bankers have pulled out all the stops with tax rebates, tax cuts, and historically low interest rates to try and get your economy moving. Most of this growth has been artificial because of deficit spending for wars and goods abroad. The real reason for your recession was your loss of major amounts of manufacturing to foreign cheap labor countries. Now you have adjusted to more service jobs, but the main weaknesses are still present and will continue to erode with time. Your country is in decline and it

will be impossible to stop your debts and decreased standard of living. Many of your problems are a result of your unrepentant sins."

Jesus said: "My people, you have seen much destruction over the last year from tornadoes, hurricanes, and high winds. This high wind destruction will continue to worsen from both natural and man-made enhancements like the HAARP machine. Many of your storms are setting record numbers and higher than normal winds. It will be just a matter of time until major population centers will suffer more damage. These are more continuing signs of how America will be tested greatly by natural disasters."

Jesus said: "My people, many times you have blueprints to follow so your houses will be made properly. But if you tried to make a house on your own without such plans, you could end up with such a staircase missing the floor as in the vision. This is parallel to when I have a plan or blueprint for your life. If you follow My plan, everything will be in its proper place on your way to heaven. But if you refuse to follow My plan and you think that you can do better, many times you will falter with your own designs. Look at My creation and how man has distorted My plans of perfection. Many of your failures are a result of your stubborn pride in not following My ways. Learn from Me or you will fall in your own ruins."

Jesus said: "My people, your doors of opportunity are before you every day in the actions you do. These doors are not blind or blank, but you very well know what they will open up to. You can choose things that will benefit you financially or you can choose things to help others. Many times you choose selfish things for your own pleasure and fame. If you are led by the Spirit, you will choose things that have heavenly merit and desire them out of love for Me and your neighbor. So examine your daily actions to see how many are done for yourself or for others."

Jesus said: "My people, you look at this desert and see that without water, nothing can be produced. Even in California and other places irrigation of waterways can make desert land come to life. You see an oasis in the desert with all green vegetation around it. Look at Me, My people, as your oasis of living water as I am willing to refresh you if you would but seek My forgiveness of your sins. Instead of remaining in a parched land of your sin, come to My oasis of graces where you can drink of My Blood and eat My Body in My Eucharist. Refresh your souls by My cleansing water of forgiveness as in Baptism and then come to My banquet to share My heavenly Bread with you."

Friday, January 9, 2004:

Jesus said: "My people, you all have various size feet and in America you have the luxury of many different kinds of shoes to wear. In poorer countries people are fortunate to have sandals. I am showing you about shoes because I want you to follow in My footsteps. You have an expression to walk a mile in someone's shoes is a way to understand the troubles of that person. But when you walk in My footsteps, I want you to imitate My behavior and My love and care for people. In every situation think of how I would act and always be in a loving spirit when you deal with people, even when they insult you or persecute you. Do not judge others or try to get even for anything someone has done to you, but still love them and be courteous. Your love will confound any evil or hate in that person and you may change their heart or embarrass them with your kindness. If you have revenge and hate in your heart for the least offense or slight, then you will be spreading anger and evil to the rest of the world. If you want peace in the world, then you have to start with each interaction you have with people to spread love instead of hate."

Jesus said: "My people, in nature creatures of the sea, the air, and the land travel together for food and for protection. Even man is a social creature and travels in tribes and ethnic groups. Each person has separate roots as where your family was brought up in various countries. There are many religious denominations as well, based on what people believe. When I came into the world, I told you that I would bring division between those who believe in Me and those who do not. In the temporal world people group together because of a common goal or thinking. In the spiritual world your free will determines your every action. Those, who truly believe in Me, are willing to consecrate everything over to Me. If you truly desire to come to heaven, love of Me and your neighbor will be manifested in following My Commandments and My plan for your life. Faith is a gift to you, but you must accept Me into your soul as Master of your life. It is how you nurture your gift of faith in prayer and obedience that will determine your eternal destination. It is not everyone that will come to Me because the evil one will try to tempt you to follow the gods of the world in fame, money, or any other obsession of the world. It is only the strong in faith that will gain heaven by their own free will choice. So do not look to follow all the groups and cliques around you because following the crowd may not be right just because many are doing something. Many live together in fornication, but it is still a mortal sin in My eyes. Many may cheat on taxes, lie, or any number of sins that you can think of, but it is still sin and offends Me. Even if you may be criticized for following My laws, stay true to your Lord and you

will be rewarded greatly in heaven. You are called to be saints and your souls will never have true peace until you come to rest with Me, your Creator."

Saturday, January 10, 2004:

Jesus said: "My people, this Sunday, that celebrates My Baptism by St. John the Baptist, is the closing of the Christmas Season and many are putting away their Nativity scenes and Christmas decorations. I mentioned before that you can celebrate My Infancy during the whole year as some countries keep this tradition as the Infant King in Prague. You can even keep a small Nativity scene in your prayer room to remember Me every day. You can pray to Me as an Infant King, as a Preacher in the synagogue, as a suffering Servant on the cross, or as your risen Savior-whatever you wish. The main point of My message is that you remember Me as the first priority of your life every day and offer up everything you do to Me for My greater glory. I want you to be humble of all of your accomplishments and not praising yourself because all you have and are has come through Me. It is only fitting that you give credit to Me by My grace that your deeds are successful through Me. By calling on My help in prayer every day, I will be at your side guiding you through all of life's trials and troubles. Never lose hope or despair, for I will help you to endure everything. By your hope and trust in Me, your faith will save your soul in heaven."

Jesus said: "My people, you need to know that I am the King of All Nations and even the demons acknowledged My power over them when I was on the earth. The devil is the prince of darkness over this world, but My power is greater and he can do nothing without My approval. Just as I do not violate your free will, so the devil cannot violate your free will either. When you are not strong in your faith or have much sin on your soul, you will be weaker to sin and especially habitual sin. This is why you need a good prayer life and forgiveness of your sins in Confession to strengthen yourself against the temptations of the evil one. There is coming a time when the evil powers of the Antichrist will be allowed before My coming victory. This will be an evil to the extent that you have never seen before. But do not be fearful, for as the evil ones will gain in power and authority, I will give My faithful enough spiritual stamina to endure this vicious onslaught of evil. You are not ever to lose hope because you know that I will be the victor, no matter what Satan and the Antichrist will do. So take peace and comfort that you know the outcome of the battle and Satan loses. My faithful will always be on the winning side, so keep your focus on Me as you walk your path to heaven."

Sunday, January 11, 2004: (Baptism of Jesus, death of David 1983)

Jesus said: "My people, with My Baptism in the Jordan you are seeing a presentation of the Blessed Trinity in the voice of My heavenly Father and in the dove of God the Holy Spirit. I started My public ministry to establish My Kingdom on earth and I was training My apostles to form My Church. When I read the Scripture of the coming Messiah in healing the sick and freeing captives of sin, I sat down and told those in the synagogue that 'This day this Scripture is fulfilled in your hearing.' (Luke 4:16-21) I went out from My Baptism to evangelize souls to My new Gospel of love so people could see how to life in perfect love. This day of celebrating My Baptism is an example for all of My followers to go out from your Baptismal calling to teach all around you about the Kingdom of God. You all are called to be evangelists by your Baptism and your Confirmation. This is everyone's mission on earth to work with My help in saving your soul and as many souls as you can while you are living on the earth. Every day when you rise, you can give praise and glory to your King in Me and ask My help in your daily consecration."

David said: "My dear father, I am happy again to give you my witness of love and help for our family. The mission for me was over early, but I was making way for you in your mission for God because it would have been difficult to take care of me and still travel in your ministry. But I am here in heaven giving you my prayers, guidance and protection for all that God is calling you to do. I still want to encourage my mother and my sisters to work hard in following your missions from God. Give praise and glory to God in all you do to follow His plan."

Jesus said: "My people, I am showing you these symbols that represent the new radio frequency devices that will be used in many of the products that you buy in the store. This may seem a good idea to save millions of dollars in keeping closer checks on inventory, but its potential abuse after you take these products home could violate your privacy and even tell people where you live. There has been some consumer resistance to having such chips in every product that you buy. By using chips for your products, they will be able to scan your cart with a reader without having to scan bar codes physically. There would be people that could also scan what you buy in your house from a car or a helicopter. It is this invasion of privacy that some activists are upset with. This is another way that stores are forcing chips on the consumer without their consent. These chips, smart cards, and chips in the body are all means that the one world people will continue to force on you for all buying and selling involving satellites and cell towers. Remember to

avoid using smart cards and refuse to use GPS (global position satellite) chips in the body. These may access money, but also could control your minds. Do not give into the suggestions of the Antichrist and do not take his chips, nor worship him. Worship only Me whom My Father has said to listen to Me. Call on My help and use your stored supplies instead of chips. I will multiply what you have to survive. When you love Me and trust in Me, you will have no fear and no worries."

Monday, January 12, 2004:

Jesus said: "My people, today's readings speak of My calling of My apostles to come and follow Me. This is an example to all of those who answer My call to be My disciples and faithful. You are called to leave your worldly desires behind and consecrate everything to Me. This means that you will be able to give your whole will and being over to let Me lead your complete life. Many want to be in control of their lives, but you will learn that My ways are always better than your ways. As soon as you learn that My plan for your life is the best plan, then you can get in step with Me on your path to heaven. This life is not easy because of your weakness to sin and you will need to call on My help daily to be able to endure all that you must suffer for My Name's sake. I give you a gift of faith and you must nurture it in love of Me and love of your neighbor. I am preparing you to face these end times when evil will test your faith as never before. Only through My grace will you be protected. You may be called on to witness to My Gospel when it could mean your very life is endangered. The prison cell may be a suffering for a good number where you could be tortured and even martyred for your faith. Others will be led by My angels to places of protection at refuges. Be prepared My little ones. Are you prepared to die for your faith in Me? If you are weak now in the green, how are you going to endure during the tribulation? Do not fear this time, but trust and hope in Me and I will give you all the grace that you need to endure this test. Then you will be vindicated in your faithfulness and receive a prophet's reward."

Jesus said: "My people, you know how much I love the little children and how I do not want any harm to befall them. Those, who mislead them, abuse them, or kill them in abortion, will have to suffer much because of My justice. In today's readings I was calling My apostles to follow Me. I also am calling all of My faithful to Me as little children. I want you to be open and trusting as a little child trusts their parents. By being humble and living in simple faith, you can live a holy life better than having learned theological understanding. Give your will freely over to Me so I can lead you on your path to

perfection. A little boy loves his parents unconditionally because he knows that they would not do anything to hurt him. In the same way you must love Me unconditionally as I love you. I give you infinite love and I shower you constantly with My graces and blessings, even if you are not worthy. I give every soul up to their dying breath many opportunities to express their love for Me. So live the simple life of a child without being so complicated in your reasons to follow Me. I am here for you at all times, so do not neglect Me in apathy or complacency, but let your love burn strongly in your heart for Me."

Tuesday, January 13, 2004:

Jesus said: "My people, this snow falling on an old church represents how some souls are turning cold to Me as their original fervor of the faith is waning. Many prayer groups see their numbers declining and even My Adorers are not coming as often. Your faith really needs to stand up against the test of time, even though your worldly pressures vary from time to time. My faithful need to renew their faith constantly every day or you can drift away from devotional prayer into more worldly pursuits. You have many things in life that put demands on your time, but you must keep your spiritual priorities higher over your earthly concerns. The Gospel sheds light on My authority, especially over demons. So when evil things are threatening you, remember to call on My Name to protect you from them. Man sometimes in his pride thinks that he is in authority, but I am the ultimate authority and man has to answer to His Master for everything he does. By focusing on Me at all times, then you will see your place in creation and see that it is you who must serve Me."

Jesus said: "My people, crime levels in your cities are rising again mostly because of drug trafficking. As people are making less on lower paying jobs, personal budgets are becoming strained for the bare necessities. Others, that are getting assistance, are finding it harder to get funding as governments are cutting back on health care and rent subsidies. As people find it hard to survive, they resort to stealing for food and even fuel to keep warm. As the one world people come closer to controlling buying and selling by chips in smart cards and in the body, there is another threat to My faithful to be outlaws for not taking these chips, nor going along with the one world order. My remnant will be suffering persecution when they try to force chips in the body on everyone. Rely on what you have set aside for a while. Then you will have to go to My refuges for safety from being imprisoned in detention centers for your faith. The one world people will say you are violating their

laws because you are storing food and avoiding chips. Fear not these evil ones and trust and hope only in what I will provide for you."

Wednesday, January 14, 2004:

Jesus said: "My son, the reading of Samuel's acceptance to My calling: 'Speak Lord, for your servant is listening.' is near to your heart because you were also asked to do a mission for Me and you accepted. In the beginning you did not know what I would be asking of you, but now you have witnessed many locutions over the years of your service to Me. You have faithfully documented My words for the internet and in books. You have been called to a healing ministry and traveling to spread My Word in your talks. These are gifts that I have been able to grant you for your faithfulness to Me in prayer and your reverence for My Eucharist. I have called many prophets through the years to show My people that I am ever watchful and loving of My people to share warnings and encouragement of their forgiveness of their sins. In the Gospel you have seen My compassion to heal people of their sicknesses and I continue to heal people through My servants. This is not a ministry to get attention for fame, but it carries a heavy responsibility for My servants to be good examples in your witness to others. Your love for Me has been returned in many ways, even by seeing people come to Me in conversion by your mission. Give praise and glory to Me for all that I have done for you."

Jesus said: "My people, America's economy is on another bubble of debt that is about to cause severe problems. Your low interest rates have made people money in refinancing their mortgages and your government has given back tax money. This short lived euphoria has sent money into cars, houses, and many purchases until consumers are being choked with debt. As businesses seem to be improving, they will find expansion difficult in competing with government debt financing. Your currency is decreasing against commodities and other countries' currencies because of your debt increase and your deficit of payments. As income shrinks from less paying jobs and more taxes from local governments, there will be less money for the consumer to spend. After a short spurt of prosperity, your economy will be stuck in a decline with no way out. When bankruptcies increase out of proportion, the one world people will be ready for their take over. They are doing everything with wars, terrorism, and reckless spending to cause America to go into default in not being able to make good on its debts. Every homeowner knows that he cannot spend beyond his means for long or his creditors will force him into bankruptcy. Your government spending is out of control with no end in sight for

all of your massive deficits. Because of America's sins and reckless abandon in your spending, you will be bringing about your own ruin amidst seeming affluence. The only hope that you have is trusting in My grace to save your soul, because your country is headed for hard times."

Thursday, January 15, 2004:

Jesus said: "My people, this gruesome vision of the remnants of your abortions is a story that needs to spread across your nation to wake you up to the inhumanity you are doing to the unborn. You have struck out in war five times in the last ten years against dictators that were abusing and killing their own people. Yet America is killing even more people in the millions of abortions of the unborn every year. It is ludicrous for you to be criticizing dictators when you are doing even more inhumane things to your own people. You do not even acknowledge these deaths with certificates. You flush them down the toilet, use them for research and bag them into garbage dumps after you have torn them limb from limb. Killing in abortions and trumped up wars is calling My justice against America. You only bully nations that you can beat with your superior firepower and only places with oil and drugs at the bequest of the one world people. Now you have unending debts for wars and restoration. You must see that this killing by abortion, wars, and man-made diseases is all part of a plan by the one world people to reduce population growth so global control will be easier. Once you understand this grand design of evil, you will see why you have unnecessary wars and debts beyond your payments. Fight in a peaceful way to stop all abortions and all wars by prayer and deeds and you will be struggling against the devil's plans which are to destroy man, whom he hates."

Thursday, January 15, 2004:

Prayer Group:

Jesus said: "My people, you have seen some dramatic shifts in your weather cycles that have made it more difficult to grow crops. In the West it has been very dry, especially in the summer. Droughts have been spotty all over your country. Winds have caused tornadoes and hurricanes with devastating damage. Now in the winter you are seeing record high temperatures next to record cold temperatures. This bad corn crop is an example how drought and famine will continue to spread all over the world. This is just another sign of the end times for you."

Jesus said: "My people, you have seen just about all of your phone lines replaced with fiber optic cable and the light generators that allow voice and data to travel from place to

place. Many more lines can be sent through one cable making two way signals common for listening devices in your cable TV and telephones. Your voices can be heard in your living room to those who want to listen. Your phone lines also are heard by those spying on conversations. This is why many of your modern high definition TVs are able to see you as well as hear you. Two-way cables have been a tool for the one world people to know all of your habits. Do not fear these evil ones for I will be victorious over them at My appointed time."

Jesus said: "My people, I have talked to you of caves as refuges for protection. Inside caves it is cool at about 50EF, but in winter it can be relatively warm for anyone entering. You need to be near the entrance for enough air to breath, but you will find water and protection as well. I will feed My people with heavenly Manna so all of My faithful will be provided for in your hiding from the authorities. Do not worry how I will protect you in the wilderness, but you will be safer away from the cities. Those, who do not leave for refuges soon enough could be tortured and martyred."

Jesus said: "My people, your cell phones are useless unless there are enough towers to carry the signals to the satellites. Not only are your phones good for making calls, but they also can be a means of tracking your movements even when it is turned off. When you go to My refuges, do not take any electronic devices with you that could be used to trace you. It will also be harder for the evil ones to find you if you are in areas where there are no cell towers. My angels will protect you at My refuges because the evil ones will not be able to see you with their electronic eyes. Pray for My protection at that time."

Jesus said: "My people, your Northern states are suffering unusually cold temperatures that have closed schools and many other activities because of low wind chills numbers. Even your snow levels will begin to increase in areas where high snow levels are uncommon. All of these weather trials are testing your endurance as you were tested with droughts and fires in the summer. No area is escaping some kind of testing. Weather extremes and natural disasters will be taking a toll on your economy and loss of life. See these trials as a part of the ongoing chastisement that I will be using to bring you to your knees in prayer."

Jesus said: "My people, man is always curious to learn about other places as the moon and other planets. Your president's latest aspiration to return to the moon is a bit redundant since you have already been there. But using the moon to launch Mars missions is definitely a huge undertaking. Providing oxygen, food and water for long times as well as

radiation protection from the sun will be considerable challenges. Solar panels could provide energy, but many supplies would be needed for even two or three people. The finances for this mission will definitely be more than is originally projected, which may be a problem for a nation with so many debts."

Jesus said: "My people, your scientists have been monitoring many earthquakes in the Northwestern area of America. Some have been along the active sites along the coast, but others are in the Yellowstone area. Earthquakes can be devastating in themselves, but they also can be signs of magma on the move for future volcanic eruptions. There will be several significant volcanic eruptions that will affect your weather severely. These are also more signs of the end times. So be prepared to suffer through these trials that threaten many lives."

Friday, January 16, 2004:

Jesus said: "My people, you are tied up in your sins as in bondage, especially with your habitual sin. As this ship in the vision was set free, so you can come to Me in Confession to be set free of your sins and receive My graces. This is why I came into the world to set all those captive to sin free at last of their bondage. Just as the people of God were set free from Pharaoh's oppressive rule, now My people of today can be set free of your oppression from sin. Do not let sin control you when you can have freedom by seeking the forgiveness of your sins with a contrite heart. By obeying My Commandments and following My Will, you are truly a free people to fulfill the mission I have given you. Better to have spiritual freedom than think you are being restricted in your pleasures or personal desires."

Jesus said: "My people, these two sides of the river with snow and fire represent how you have been tested in various parts of your country. During the summer you have had extreme heat causing droughts and fires. During the winter you have had cold and snow and you are suffering from freezing pipes. During spring and fall you have suffered from tornadoes and hurricanes. In other words you are having a steady barrage of weather problems one after the other. You are seeing many records fall for heat one day and cold another day. When I told you that I would take your weather disasters to the next level, you did not know how bad it could get. Now looking over the last year, you can see how My words have been fulfilled. These weather trials are just a part of the chastisement for you sins. It will take prayer and repenting of sin to try and mitigate some of the severity of your weather. Put your focus on Me at all times and

continue to pray for America to change its ways before you are all brought to your knees."

Saturday, January 17, 2004: (St. Anthony of the Desert)

Jesus said: "My people, this netting in the vision represents the snares of the devil as he tries to tempt people into sin. This St. Anthony fought with the devil many times in physical battles and he was an inspiration for early monastic life. He took to heart what I preached to the rich man to sell what he had and give it to the poor. Then follow Me to eternal life. I have given you this theme in many of My messages to seek heavenly riches before earthly riches. By keeping a good spiritual defense, you will be readied with My help for your own battles with the devil. You must be prepared and on guard at all times for the attacks of the evil one. You can start your defense with frequent Confession to keep your soul cleansed from sin. Daily prayer and good spiritual reading will make good use of your time. Helping others in corporal works of mercy will help you to store heavenly riches. Be vigilant throughout your life and you will prepare your path to heaven."

Jesus said: "My people, you will face many different difficulties in life, but with confidence in My help, you will have sufficient grace to deal with them. I want My children to be humble and not boasting of your wealth, education, or successes. You can boast in My Name and give praise to Me, but do not be a braggart as if you could do everything on your own without Me. For without My help, you can do nothing. If you are boasting of your wealth, then you should be sharing it with others by tithing to charities. Be thankful also for all that you have, even if you do not have much because I could take it all away in an instant just as with the prophet Job. Do not let money or any earthly thing so control you that you could not give it up as the rich man who walked away. You do not have to give everything away because you need to provide for your family. But you can always find room in your budget to share or you are being too selfish and spending beyond your means. Put everything in My hands and I will provide for your needs."

Sunday, January 18, 2004: (Marriage feast of Cana)

Jesus said: "My people, when you come to a wedding feast, it should remind even older married people of their own wedding day. Just as I want you to continue to have the same fervor of faith in Me as when you were converted, so I want those who are married to keep your same fervor of love for your spouses. With a strong love for Me and your spouse, your marriage can have endurance. I am emphasizing marriage because My Church is like

My bride in a marriage. I am the Bridegroom and by staying close to Me, I can reserve a place for you at My great banquet in heaven at the final judgment. You must communicate with Me daily in prayer to show Me your love, as you should communicate with your spouse in keeping your love strong. Guard over your family members with prayer and good example so they can be present at My banquet with you. The joy and glory of heaven will be the great reward that I will bestow on all of My faithful followers."

Monday, January 19, 2004:

Jesus said: "My people, I am showing you all of this ice and snow because your Northern states are going to witness severe cold and constant storms one after the other. Record lows and heavy snowfalls have begun to make up for your early warm spell. Now you are facing the worst of winter with no letup in the precipitation. Your country is going to witness more and more natural disasters all over and not just in the North. As you see these unusual events, you will soon recognize that these things are not normal, but a continuing testing of your country because of your sins and cold hearts to Me. You have chosen affluence and pleasures instead of Me and so I will bring you to your knees asking to mitigate these disasters. Without repentance for your sins, you will continue to wallow in the misery of the consequences of your sin. Come to Me and I will provide for your needs and ease your burdens."

Jesus said: "My people, just as for no apparent reason you started a war with Iraq, now all of a sudden there is renewed interest in sending man back to the moon. There were words that it was not a race, but since other nations are now contemplating such a venture, this could be the real reason. Along with competition there is also some speculation on whether the moon could be used for base camps to other planets. All of these plans will cost considerable amounts of money, which is why other projects as the telescope and your Shuttles may be shut down in favor of moon trips. Reasons of curiosity for knowledge may even cover possible military ambitions to control space trips and bases. Man will find space a very difficult environment to survive in as well as the need for expensive equipment. Your knowledge and capabilities for space travel are limited, and you could better help other nations survive from war and famine on earth let alone survive in space."

Tuesday, January 20, 2004:

Jesus said: "My people, I have warned you before that those promoting the one world religion of the New Age movement would try and move their gods and images into My churches. This shiny

image of a god of the earth is an example of true idol worship that will take on an evil influence of its own. When you see people in the church placing such idols there, then make a movement to oust such idols. If they persist and do not remove them, then it would be better for your faith to attend another church that does not have New Age idols. Just as holy, blessed objects have a good effect, so evil symbols that are cursed with evil rites can have an evil influence. You are entering an evil age when the evil ones will be allowed more influence, so you must be on your guard with prayer and blessed sacramentals to protect your souls and those around you. Do not take this warning lightly because the lukewarm souls could easily be misled and My prayer warriors must be My leaders to protect My faithful remnant. There will come a day when the words of Consecration are changed or omitted. Leave these churches because My Blessed Sacrament will not be present. When you move to the homes for underground Masses, the churches will be taken over by the one world religion people. If you cannot find a proper Mass, then pray for spiritual communion to receive Me. At My refuges My angels will bring you My heavenly Manna. Pray for spiritual strength to withstand this coming evil age. With Me all things are possible and I will protect you from the evil ones."

Jesus said: "My people, you have seen wars over land, between ethnic groups and now you are seeing wars to depose dictators. All wars use weapons and the side with better firepower has usually won. These weapons cost money to produce and even your nation in America has been the world's largest arms dealer. These weapons would not be needed if there were no wars. So the one world people, who desire to sell weapons to all sides, actually purposely instigate wars to make money on arms. When you see that the purpose of war is to kill and destroy cities and production, one would wonder why you need war in the first place. This killing is another tool of the devil to destroy man. It is also a means to reach global control which is the ultimate goal of the rich and powerful. I want My faithful to be peacemakers and lovers of everyone. If you want to have peace, it must come through prayer and compromises to help each other rather than destroy each other. Imitate My ways of love and avoid pride and anger which can motivate wars. Do not be so quick to back war for its own sake, especially pre-emptive wars with unfounded reasons. Remember who profits from wars and you will understand why these same people use the media to promote wars. I want My followers to promote peace and love which defies the devil's plans."

Wednesday, January 21, 2004:

Jesus said: "My people, this vision of closed doors represents the evil one world people always meeting in secret as the masons where they plan their next wars, diseases, support for abortion, control of world money, and eventual global control. The higher levels of these rich people actually worship Satan and carry out his evil plans for the world. Even though these evil ones have money, weapons, political power, and armies at their command, do not be overwhelmed at their strength. They may seem like Goliath, the giant, to you, but I was with David and I brought victory over seeming impossible odds. There is injustice and ruthless killing going on now, but My justice will prevail when My victory lays all of these evil ones low and they will suffer in the flames of hell. Even before My victory you will see many nations fall under the weight of their own sins. You may suffer persecution now for believing in Me, but your reward for your faithfulness will be great in heaven. Continue to preach My Word of the Gospel and love to all, and never deny your faith, even under the pain of death. All martyrs receive instant sainthood and are guaranteed a glorious place in heaven. You may suffer here for a while, but the evil ones, who refuse to repent, will suffer for all eternity."

Jesus said: "My people, you are familiar with how bears hibernate for the winter and how man even can fall asleep overnight. Your scientists are experimenting with hibernation which could be used on long space flights to limit the amount of oxygen and food needed over long times. As you are considering trips to the moon and possibly to Mars, this experimentation has received renewed interest. This is not a normal state for man, where it is for some animals. I have mentioned before in My messages that hibernation will be something that I will enable My faithful to use during the tribulation during the winter months in Northern climates. These are some of the secrets of your nature that I will allow only for My purposes of protection from the Antichrist. I will allow miracles of protection at My refuges so My faithful will be able to endure this evil struggle during the tribulation."

Thursday, January 22, 2004: (Roe vs. Wade anniversary-abortion)

Jesus said: "My people, you see many people coming to sports events and also to campaign elections for primary candidates. But how many want to come to Washington, D.C. to protest against abortions? Many of the guilty pro-abortion Congress people hide and shy away from these protestors because they are brought face to face with the fact that they are pro-death and a part of the death culture. My people should not just think of abortions on this day only, but you should work

and pray as much as you can to have this abortion decision overturned. This also means that My followers should vote only for candidates that will fight against abortion. I know all of your holders of high office are influenced and financed by the one world people, but you should be voting for those that you discern to have the best morals. It is true that miracles can be brought about with enough prayer and good deeds, but your country is not repenting, nor stopping your abortions. That is why My wrath and judgment are falling on your country on your way to ruin."

Thursday, January 22, 2004:

Prayer Group:

Jesus said: "My people, this vision of ice in these many chairs at a banquet table represents those souls who have cold hearts and no consideration for all the unborn babies being killed every day. These are the same people who do not want dictators who are killing their own people. They see the wrongs in other countries and want to make war to remove these dictators. Yet they do not even see or think that killing the unborn is wrong. Some do not recognize the unborn as human, but they are very human from the moment of conception. Many people set up double standards for their own convenience, but My laws are true for everyone. Continue to pray and work to stop abortions in America."

Jesus said: "My people, candidates for office come and go with each primary result. When the final candidates are chosen, then your decisions will have to reflect a choice about the morals of those that you will vote for. Those, who continue to support abortion, may think that they are going along with popular opinion. Deep inside it is more important how they see what is really done in an abortion. Those, who justify this killing as right in their hearts, are truly callous to all life and are not worthy of your vote. You will be held accountable for your vote and your country will determine your destination by whom you elect."

Jesus said: "My people, many of your jobs are looking like this junkyard as old factories have been shut down or cut back because they are no longer profitable against foreign competition. Many people have been displaced from their manufacturing jobs and even with training are only able to find low paying jobs. This stripping of good paying jobs in America has been a stripping attempt to eliminate the middle class. You will now have service jobs of high paid bosses and the remainder with low class poor paying jobs and very little in between. Pray for the unemployed and have compassion for those who cannot find good paying jobs, even with a college education. Free

trade has caused many of your companies to send these manufacturing jobs overseas."

Jesus said: "My people, your snow levels will continue to climb and this snow pack will cause considerable problems with your streams and rivers in the spring. Many of your roads are wide, but still you see a lot of congestion with cars because many want to drive their own vehicle with only one person in the car. Your roads were not built to handle such high volumes of cars. Your rivers also cannot always handle the volume of water that can come all at once with melting snow or heavy rains. Man needs to use more highly occupied vehicles for his roads and sufficient water control along your rivers."

Jesus said: "My people, with your bitter cold winter, many of your heating oil, natural gas, and gasoline supplies are being challenged to provide warm homes for so many people. Some have taken advantage of the demand to bid prices higher than normal to make more profits. You have seen how some of your corporate leaders have been jailed for cheating on prices at times of demand in the energy field. This justice will again befall those trying to gouge customers with higher prices than normal."

Jesus said: "My people, many of your scientists were elated with their latest venture on Mars, but now they are being humbled with a few glitches in their machines. This is an example of how man thinks that he can control everything with all of his modern inventions. I have told you how space is a very difficult environment to work in and you are finding several failures even with the best of planning for problems. It is good to be humbled at times so your pride does not puff you up and you see that you need Me in everything more than you think. Trust in Me and ask My help in your projects and I will lessen your burdens."

Jesus said: "My people, you have seen some strange handling of this latest movie, "The Passion", by the media and how the Pope has viewed it. You will find many divisions on each side, especially in reference to why I was crucified. Remember that I formed these events so I could become the slain Lamb of sacrifice for all of mankind to be offered salvation. The graphic display of what I suffered will witness to you even on My Holy Shroud how painful a death I undertook to atone for all of your sins. When you look at a crucifix, you are reminded of how much I love you to die for all of you. Give thanks and praise for My sacrificial gift of My death and also thanks for giving you Myself in My Blessed Sacrament."

Friday, January 23, 2004:

Jesus said: "My people, you are very protective of your

children at an early age and you are constantly picking up their messes. As they get older, it is harder to straighten out their mistakes. As they leave the house, you are still looking out for their interests. During their upbringing years, it is the parents' responsibility to be good examples and teach the faith and love of God to their children. Your gift of faith came from your parents and teachers. So you must give your children the same opportunity to enjoy the rich faith that you have today. It is harder in this evil age to depend on others for teaching the faith to your children. You must instill the real faith and reinforce it by your own actions. Watch over them by protecting them from bad movies and bad TV programming. Control proper reading and literature that they see. Even as your children get older, it does not hurt to encourage their daily prayers and frequent Confession. These souls have been entrusted to your care and you need to direct them toward heaven in every way that you can. Pray for your children's faith even after they leave the house. You can also be a positive influence in faith on your grandchildren as well. Many children have received their inspiration of faith from their grandparents. Trust in Me and your prayers for your family and I will see to their protection from worldly and evil influences."

Jesus said: "My people, this vision of My calling forth Lazarus from the tomb, is a reminder to you that I am the Resurrection and the life. (John 11:1-44) I am the One who gives life at birth and takes it back at death. Anyone, who takes a life as in abortion, is violating My plan for that life and commits a mortal sin of murder. I can forgive anyone of their sin, even if it be so grievous as abortion. But it is the person who commits such an act that may have lingering difficulty in forgiving themselves. The babies, that are aborted, are brought out of their tombs in the womb. These innocent little ones were rudely killed before they could even begin their mission in life. These are My little martyrs that are now with Me in heaven. Their angels are witnessing to Me of their deaths because everyone of you at conception is appointed a guardian angel. Pray, therefore, that all people will come to see all life as sacred, even in the womb. With enough prayer you could even see abortion uprooted from your country."

Saturday, January 24, 2004: (St. Francis de Sales)

Jesus said: "My people, just as St. Francis de Sales had to protect the faith during the Reformation, so all of My faithful are called today to protect the faith against modernism, the New Age movement, and the occult. You are in the midst of a death culture that sees wars, abortion, and euthanasia as necessary with no respect for the sanctity of life itself. Many had a

deep fervor for the faith, but faith has had to survive the many worldly and materialistic distractions all around you. The morals of your society in fornication with living together, pornography, and a passion for homosexual activity have deteriorated to an evil age. Again as St. Francis promoted devotions, My faithful must be true to your faith and encourage others to be more prayerful. Your rosaries, Liturgy of the Hours, Imitation of Me, and spiritual reading of the saints are all a part of your heritage in faith. Daily prayer, frequent Confession, visits to My Blessed Sacrament, and daily Mass when possible are all ways to feed your soul with My graces and My Real Presence in Holy Communion. You have many gifts in your traditions that will strengthen you to fight the battle of good against the evil of the devil. Stay strong against temptations and continue to give Me praise and glory every day. By staying close to Me, you can be assured of a place in heaven. Struggle also to lead your whole family to Me by your teaching and good example. A good faith life will be their salvation as well."

Sunday, January 25, 2004:

Jesus said: "My people, in today's reading (Luke 4:16-22) I made a point to state that the prophet Isaiah described My mission and that My fulfillment of this prophecy made Me the Messiah. This is the coming of My Kingdom on earth and from that point on people would have to choose between believing in Me or not. There is no middle ground because you are either on the narrow road to heaven or the broad road to hell. This dividing line among the people represents the fork in the road of life that everyone will face. On one side will be those who believe in Me and follow My laws. On the other side are those who choose to follow their own way without regard for following My laws. Each decision will bring its own consequences. Sin will only yield spiritual death and a road to suffering in hell. The forgiveness of sin will bring new life in the Spirit and hope to be with Me in heaven. Choose spiritual life with Me and not death with the devil. Some of your family will be with Me and some will fall away and may persecute you for love of Me. Be true to your Lord and do not be turned away from Me, even by your family members."

Jesus said: "My people, you have become complacent and expecting everything in your church to stay the way it was. But new leadership is always changing things and fewer priests have caused Masses to be decreased and even some parishes have only retired priests, part time priests or priests going to several parishes. The cold air means that the faith is growing colder with fewer traditions maintained and rarely are any sermons heard on hard subjects as abortion, living together, or other

social ills. Even sin and Confession are not spoken of except in the readings. If your parish is going to remain strong, it needs good attendance and people willing to maintain their faith through daily prayer. It also needs prayer for your pastors and assistants to keep their faith strong so they can be good examples to their flock. You are struggling with fewer priests and even fewer parishioners in some areas. Do not despair in your shortages or changes in priests. Be thankful that you still have a proper Mass for a while."

Monday, January 26, 2004:

Jesus said: "My people, once again your scientists are excited over the second landing on Mars that fell right into a crater for observation. Your search for water on Mars and if there was ever any life there, has been man's desire to find. Man's curiosity to explore other planets is always searching for the origin of My creation. Your scientists want to believe in their own theories of how the universe came to exist as it is, but they are reluctant to believe in My creation account in the Bible. These are the same proud scientists that believe in Darwin's Theory of evolution which has not proved species jumping to higher chromosomes. They also are the same ones to manipulate hybrids and DNA in plants and animals in an unsuccessful improvement on the perfection of My creation. It is about time that man wakes up to the fact of My existence because it is I who have created you and My creatures should give Me praise and glory that you even exist. Without the power of the Holy Spirit in you, you would cease to exist. When you put things in their proper perspective, all of your findings on Mars is a further extension of My glory in the universe which you are just scratching the surface of that knowledge."

Jesus said: "My people, your world will give up many of its freedoms to have an authority that will prevent wars. This authoritative group will soon develop tyrannical power and lay the groundwork for the Antichrist to take over. The rich and the powerful are always seeking global control. These one world people have created terrorism and wars that are wearing the people out with constant senseless killing in bombings in the ground, in cars and on bomber's bodies. Once these people are given some authority, they will demand your money and allegiance to keep the peace. The faith will be tested dearly and people, who believe in Me, will be persecuted for their faith and imprisoned for not going along with the new world order. When this tribulation begins, you will need My help at My refuges to survive. Just as your numbers at your prayer groups are becoming fewer, more are being attracted to worldly comforts and pleasures. You must stand up to all the devil's temptations

with My help because this evil age will be further away from Me. Trust in Me, My faithful, and I will protect your souls. You must struggle daily to build up your spiritual stamina so you will be able to endure the coming tribulation."

Tuesday, January 27, 2004:

Jesus said: "My people, you have seen many incidents where your troops have been killed by land mines and timed explosives by those waiting for convoys to come by. This vision of a time bomb is about the bombing in Iraq and a second meaning is about some bombing outside of Iraq by the terrorists. Any troop concentrations in Arab countries are becoming major targets. It is the softer targets outside of the United States that are most vulnerable. Every time you are in a lower state of being alert for terrorism, it tends to lower your guard and that is when they like to attack. In some ways this is how the devil attacks you with temptations when you are least expecting it, or you think you are in a safe time or place. You must be on your guard at all times to protect your soul from sin because the devil knows about all of your weaknesses and when you are most vulnerable. When you sense an attack, call on My Name to help you in that temptation and I will give you the grace to withstand the evil one."

Jesus said: "My people, you have had longer lives and are surviving more serious medical problems because of your modern medicines. Some medicines have required major research to develop, while other generic medicines have been around and have worked for many years. In general your drug companies are still charging too much for your medicines because they are greedy for too many profits. Even some are making man-made diseases to sell more drugs for the cures. There are real abuses going on by lawyers getting large awards for malpractice suits and insurance companies charging substantial premiums for those outside of group plans. Its almost too expensive to afford major operations and common medicines. Many jobs do not offer medical benefits. The health industry is sometimes giving out too much medicine and is reluctant to use more natural herbs for healing. Even over medicating has cause some bacterial diseases to become resistant to antibiotics. Pray for those without medical coverage and that these medical costs can be brought down to more reasonable prices."

Wednesday, January 28, 2004: (St. Thomas Aquinas)

Jesus said: "My people, many people make heroes out of sports players or people in the movies or TV in Hollywood. But when you inspect the lives of these people, there are many bad examples with criminal or immoral behavior. Imitating such

people only comes from worldly ambitions and desires. If you want to have meaningful heroes, you would be better to imitate My saints as these should be your spiritual heroes. They have been tested by the world and the devil, and with My help they remained faithful to Me, even when some were martyred rather than give up their faith. These are real models that should inspire you in your own faith. It is easy to go downstream with the ways of the world on the broad road to hell. It takes stamina and will power to fight upstream against the desires and distractions of the world as well as fighting off the devil's temptations. Those, who do remain faithful to My laws and follow My Will, are on the true path to heaven that every soul should desire and seek. By daily prayer, Confession, and helping and loving your neighbor, you also can be inspired to lead a saintly life. Only by My power can you come to heaven, so stay close to Me and call on My help at all times and one day you will be happy forever in heaven."

Jesus said: "My people, providing for one's family with living expenses has become more demanding because of layoffs, cutbacks in benefits, and the changing of investments. Even local and state taxes are increasing to take away any tax cut gains. Lower paying jobs and poor returns on investments have made it more difficult for people to pay their bills. Some worry too much about how they are going to survive and pay their bills. Remember to call on Me and I will protect you and provide for your family. It is not easy to live on faith, but I know your needs better than you and I will allow My faithful to have what they need. Trust in Me, My people, and you will have nothing to fear. I have provided for you up to now, so I will not leave you orphans."

Thursday, January 29, 2004:

Jesus said: "My people, I truly resurrected from the dead because death has no power over Me. I allowed the evil ones to crucify Me because that is why I came on the earth to be a Divine Blood sacrifice worthy to forgive all mankind of their sins. I proved My Resurrection to My apostles by eating with them and letting them put their hand into My wounds in My hands and side. I told them to believe in Me and discard any disbelief. The elders of the Jews paid the guards to say His apostles stole My Body because they did not want to admit that My prophecy of rising after three days was true. They were afraid that My true Resurrection would win the people to following My way of love in the Gospel and their control would be gone. (Matt. 28:11-15) This is why the Jews never accepted Me as the Son of God or the Messiah. Despite these denials, My Gospel accounts of the evangelists have revealed to you how

everyone, who is worthy, will also be resurrected on the day of final judgment. My Resurrection is proof to you that I am the Light and the Life that dispels the darkness of sin, and I am the victor over death, sin, and Satan. I will restore man to his glorified state before the fall of Adam and those judged worthy will enjoy eternal life with Me in heaven."

Prayer Group:

Jesus said: "My people, I am showing you these parrots that I have gifted with the capability of speaking. It is their masters that help them to learn what they will say. In a similar manner I have gifted man with many gifts of speech and reason. You are taught in school how to use your gifts, but it is your free will that will determine what you say and do. Because you have been given so much, it is fitting that you use your speech to give Me praise and glory in speaking and even singing."

Jesus said: "My people, your doctors today have many tools at their disposal to see into places in your body that are having bone problems or cancers. Some, who have diseases or cancers, are fortunate that there have been some cures or remissions by operations or treatments. These new tests are quite expensive and have raised costs and insurance premiums, but their use and finding have also helped to cure people. Give thanks to the many nurses and doctors who are helping many back to good health."

Jesus said: "My people, this senseless killing day after day by terrorists has caused an ongoing war of one retaliation after another. This is a perfect example of killing which begets more killing by revenge. There are always those who want a better life, but killing indiscriminately will not guarantee any improvement. Those, who are poor, see no way of improving their lot, so they react violently to any authority. If you do not take care of your poor or provide adequate jobs to the masses, you are cultivating chaos and anarchy when people are frustrated in their attempts to survive. This is why charity is needed in your society on a voluntary basis or soon people will steal and kill for what they need. Pray for the poor and do what you can to help others in need with your time and money."

Jesus said: "My people, when there are problems among nations, man is too quick to try and solve these uprisings by money and wars. It is not right that one nation should force its will against another nation. This is why America should be more careful not to get into wars that are oppressing other nations with your will. Look to solve problems by diplomacy and compromise instead of rushing to war that will solve nothing."

Jesus said: "My people, the spoken word on a radio and the telephone were the only means of quick communication besides the

printed word in days gone by. You still hear the spoken word only now you can put a face with who is speaking. I spoke to the crowds as well and you have My written Word in the Bible. There are not enough books to hold My every word, but you have been given the kernel of faith in what to believe by My evangelists. Be patient even with My recent messengers as they share My word to help you in today's trials and tribulations."

Jesus said: "My people, television has been the tool for many viewers to see many sports events without being there. Money and fame are quickly attached to the better players. These players and coaches are exploited for money and all those connected with promoting sports. My faithful need to be careful not to spend a major part of your time in viewing so many games. It is these obsessions of money and wanting to be constantly entertained that have drawn people into more worldly concerns than remembering to pray and thank Me for everything. Put your spiritual priorities ahead of your temporary needs because this life is passing away."

Jesus said: "My people, just as your shopkeepers are always concerned about the next holiday or money making day as Valentine's Day, you should be looking now away from the Christmas season in the Church to focus on the coming Lenten season. Time passes very quickly and you will be receiving your ashes on Ash Wednesday before you know it. Each Church season has a spiritual focus and Lent is a special time to see how you can improve your spiritual life. It is a time to reflect on your sinfulness and how best to correct it with My help. Listen closely to the Lenten readings because you will see many places where you can change your bad habits into giving Me greater glory through your conversion. Prepare now how you are best to profit from this coming Lent."

Friday, January 30, 2004:

Jesus said: "My people, this reading about David and his affair with Bethsheba is a lesson in sin and how one sin begets more sin. One is first attracted to someone in a fantasy of lust. Then if you allow this desire to continue, it could lead to an affair in relations. This fornication or adultery could then lead to further sins with the same partner. If there is a resulting pregnancy, this could even lead to a sin of abortion. It is the person committing the sin that must see the wrong and offense to Me so they can see that loving Me is more important than giving into your earthly pleasures. Each sin can perpetuate more sin unless you break it off. You can even stop this string of sin with not proceeding from the first temptation. You know what is sinful and you need to be strong spiritually not to act out your earthly fantasies. Even if you

should fall once, you can still come to Me for forgiveness. But you also need to break off any illicit relationships so you are not further tempted to sin. Removing the occasion of sin is the first step in breaking bad habitual sins. It is better to be properly married if you so desire a loving relationship, but do not violate My laws just to satisfy yourselves. Loving Me should be your first priority and avoiding sin is the best way to not have a break in our relationship. Confession is your way to cleanse your sin, but you must have a firm purpose of amendment not to repeat this sin. Habitual sin is the hardest to overcome, but you must start by seeing your proper priorities toward gaining heaven."

Jesus said: "My people, man looks at a beautiful building and takes pride in his work as his own creation. I look at a beautiful mountain as one of My beautiful creations. The difference is that I created the mountain from nothing and man used the materials that I have provided for him. Everything that you have, whether it is your talents or your natural resources, they are all gifts to you. See that I am the only Creator and you need to give Me praise and thanks for all that I have given you. I have told you before that you should be doing everything for My glory and not boasting of your own accomplishments. Every day when you go to bed, see if you were giving the credit for your accomplishments to yourself or to My glory. The more you boast in My Name, the closer you will come to perfection by putting aside your pride in acknowledging My glory."

Saturday, January 31, 2004:

Jesus said: "My people, you are witnessing how much I suffered for you on My cross on the first Good Friday. I want you each to be able to pick up your own crosses on your way to your own Calvary. You are to follow in My footsteps and be willing to suffer persecution for My Name's sake. This dying on the cross for all of mankind is the greatest act of My love that I could perform for the salvation of all your souls. This is why I am asking you to display My crucifix prominently on My church altars and in your homes. Crosses without My corpus, and Resurrection crosses are incomplete by not showing My true pain and sacrifice. Give praise and glory to your Savior for My willingness to die for you. Give thanks to God the Father for sending Me to you and showing you the personal love relationship that I have with all of My children. Give thanks to God the Father for accepting My Divine Sacrifice as complete atonement for all of mankind's sins. By one man, Adam brought original sin to all men, but by one Man-God, Jesus, I have brought grace to all mankind in Baptism. Rejoice in My triumph over sin and

death."
