

Friday, October 1, 2004: (St. Therese of Lisieux)

Jesus said: "My people, I am showing you rich, juicy foods to represent the heavenly food that I give you at My Eucharistic banquet. This is the year of the Eucharist as proclaimed by My Pope Son, John Paul II. I give you My bread as My Body to eat and the wine as My Blood to drink. This heavenly food is your spiritual nourishment to sustain your soul against all the temptations of the devil. All, who partake of My Eucharistic meal, are joined in My Mystical Body and are one with Me in body and spirit. Give glory and praise to Me in your Adoration services. My adorers are My special servants of My Light of grace. Keep close to Me in My sacraments and you will be preparing to be with Me in My everlasting banquet in heaven."

Saturday, October 2, 2004: (Guardian Angels)

Jesus said: "My people, I am feeling all of your pains, heavy feelings, and stress in your lives. As you go through life, focus on My crucifix and you can understand how much I suffered on the cross for each one of you. Even today, I am still taking on your pains and sins. Do not feel that you are alone in this life because My love reaches out to help you. Just call on Me at any time and I will bestow My graces upon you in your troubles. Many times you will be tested by the trials of this life as everyone will face struggles with jobs, problems in marriages, sicknesses, loss of faith in family members, and even death of your loved ones. Call on My grace to support you both in good times and hard times. Do not despair or be angry with Me because of your trials, but have faith that everything happens in your life as a cleansing and an opportunity to grow spiritually. If you never were tested, it would be hard to know how much you love Me or the world. At times like Job, you may be stripped of things or even of loved ones. Keep strong in your daily prayers and close to Me in My sacraments. It is the destination of your soul that is most important in your life. Keep struggling and working for your perfection in this life by stripping your earthly desires and replacing them with heavenly desires. Work every day on bringing your soul to heaven and evangelizing those souls around you to heaven also."

Mark said: "I am Mark and I stand before God and I am watching over you and guiding you. You are called as a soldier in God's holy army as you go out evangelizing souls for God. Yet, when you do this mission, you are doing nothing more than the duty that is expected of God's servants. You are giving up everything to God in your daily consecration. Remember that to whom much is given, much will be expected. You have been given many gifts from God and you are to use them whenever you are asked. Give praise, glory, and thanks to God for all that He is

doing in your life. Wait for Him and follow Him wherever He leads you. Your strength comes from your Masses, Communions, your rosaries, and your hours of Adoration of the Blessed Sacrament. Continue your service and you will be greatly rewarded. You will be held accountable for all of your time, so use your time wisely without wasting it on frivolous earthly things. Keep your focus constantly on Jesus and you will ascend this ladder to meet your Lord in heaven. Listen to my words and follow my prompting to do God's Will at all times."

Sunday, October 3, 2004:

Jesus said: "My people, I want to let My mercy and love flow over all those people who are experiencing addictions to drink, to drugs, to computers, to gambling, to smoking, or any other thing that has control over them. Allowing any of these addictions to control you is really a form of abusing your bodies which is against My Fifth Commandment. You are holy temples of the Holy Spirit and you need to guard them from any of these addictions that you have brought on yourselves of your own free will. By giving in constantly to these substances, you are developing comfort zones, but even worse these addictions are inviting demons of control into your spiritual lives. It is very difficult to break out of these addictions as they damage your body and even affect your brain with cravings that are difficult to resist. There has to be an inner desire to see how you have a problem and need to work out of the addiction's control. It may take special programs to control withdrawals. It will definitely require true prayer and fasting to stop or even a miracle of My grace to bring this person out of their addiction. The person must see a threat to their lives, their loved ones, or something that will make them desire to be healed. Telling someone they have a problem and that you are going to pray for them, may help someone to desire to stop. All addictions need help from outside the person and do not give up on your prayers for them. Pray for the right disposition of that soul to be open to change. Each soul has a price to remove this demon and it will require much struggle both for the addict and the care giver. Try not to enable their habits, but try to remove any availability of these substances. The free will of the addict is what you are praying to be changed and each addict needs to make their own choice to be cured. Thank you for helping your friends, neighbors, and relatives because indirectly they are crying out for your help. There are graces for all those helping addicts to convert. Reach out to help save their souls with the same love that I have for them."

Jesus said: "My people, this vision of a statue of My Blessed Mother processing into the Vatican is a sign that My

Pope Son is about to make a new proclamation concerning My Blessed Mother. Many people will be celebrating even as when the Luminous Mysteries were announced. Every new proclamation on My Blessed Mother has been rejected by the masons and various Protestant groups. Many non-Catholics refuse to believe that My Blessed Mother was sinless even from birth. Many Marian doctrines are a means of division between various religious groups. It will be no surprise that any new proclamations on My Blessed Mother will bring further divisions. My Pope Son has seen many bishops who do not go along with all of his plans and you will see further separations in My Church as more teachings are put forth. Pray for unity in My Church, even as you see more and more divisions."

Monday, October 4, 2004: (St. Francis of Assisi)

Jesus said: "My people, as you give praise and glory to Me in My Eucharist, remember that My Real Presence in My Blessed Sacrament is the greatest miracle that you will ever see with your own eyes. Even though you are seeing this Luminous Cross, remember that My miracle of Transubstantiation from bread into My Body and Blood is your miracle of miracles. This Luminous Cross represents the Light of faith that I am witnessing to My faithful. Many are drawn to this sign and it is a gathering place to have My faithful come together to share in worshiping Me and giving Me thanks for this miracle. I have given you messages of the Luminous Crosses at My refuges of protection by My angels. Even at this sign of My Luminous Cross, you will see miracles of healing at this place. There will be spiritual conversions and physical healing. Give glory to God that My miracles are made manifest for all to see and experience My power and grace."

Tuesday, October 5, 2004:

Jesus said: "My people, I want you to focus on Me in total obedience to My Commandments of love of Me and love of your neighbor. Some have desired events to happen sooner than they have, and even some are angry as My disciples were that I have not brought destruction down upon the evil ones of today. You must understand that I have My own plan of how events will unfold and it will happen in My time and not any sooner or later. I am giving the good and the bad sufficient time to save their souls through Me. All of the things foretold in the Scriptures must be fulfilled for this evil age. In time I will judge those who have done evil in My sight, but I give them an opportunity to repent and change their lives. So wait on Me in service, but do not rush before Me or before the time that I have chosen for events to happen. Put your full trust in Me and I will bless you and reward you for your good deeds and your

faithfulness to Me."

Wednesday, October 6, 2004:

Jesus said: "My people, it does not matter if you come to Mass in a large cathedral, a small chapel, or even in the home. You are with Me and the priest when he consecrates the bread and wine into My Body and Blood. I tell you many times where two or more are gathered in prayer, I am there in your midst. I also went off at times to pray in the mountains and even in the Garden of Gethsemene, especially before great events in My life. I give this as an example to everyone that prayer is a way for you to have strength in your everyday trials. When you unite yourself with Me in prayer, it is your communicating of your love for Me and a way of showing Me how much you trust Me in your life to help you. You should know that I have an abundance of graces waiting for you to just ask Me for them. I do not force My love upon you, but I invite you to love Me of your own free will. You can pray for yourself or others and I listen to all of your prayers. You can give thanks and praise to Me in your prayers as well as your petitions. Many times you thank someone for doing a favor, but you should remember to thank Me for all that I do for you every day. By being united with My heart in prayer every day, I will keep you focused on your narrow road to heaven. Those, who pray, I will bless in many miraculous ways."

Jesus said: "My people, I am showing you how many people have spent much money and time building refuges at My request for these end times. I know that some have faced many hardships and difficulties for My sake. Even though the evil ones will test you now at these refuges, do not be disheartened, but call on My grace to protect you. I want to thank all of My faithful for setting up these refuges for the people to come during the tribulation. These refuge builders are My little angels of love and you will be greatly rewarded in heaven for helping My little ones. I love all of My people and especially those who return My love. These believers will find food and shelter at My refuges of protection. During the tribulation My angels will protect these refuges from the evil ones in miraculous ways. So have no fear of this evil age because I will provide for all of your needs. Give praise, glory, and thanks to Me for watching over My little ones."

Jesus said: "My people, I am showing you My suffering on the cross and this large flame over My heart as a perpetual or eternal flame of love for all of you. I pray that I can enlighten My love in each of your hearts. I want you to fix your focus on Me constantly in your prayers, Holy Communions, and when you adore My Blessed Sacrament. When you rise in the

morning, thank Me in your morning offering that you have been given another day of opportunity to serve Me in love. When you come to morning Mass or in your morning prayers, consecrate everything you have and all that you are over to Me so that all of your good actions will be offered as prayers to Me. During your daily actions and good deeds be willing to humble your pride by telling everyone that all of your accomplishments are given for God's greater glory and no glory of your own. Remember to thank Me at night for all the graces that I give you each day, and keep repeating the words that I want to hear from your lips: 'I love you, My Lord, and My God.'

Thursday, October 7, 2004:

Mary said: "My dear children, you are all so loving of me and my Son, Jesus. I want to thank you for praying my rosary today and every day that you pray it. I hear your intentions and I will bring them before my Son, Jesus. The deacons' homily was beautiful in explaining the origins of my Holy Rosary. When you pray my rosary, you are reviewing my life and that of my Son in honoring each Mystery of the Joyous, Luminous, Sorrowful, and Glorious Mysteries. Use our lives as an example to grow holy in your daily obedience to my Son, Jesus. It is one way to pray with your lips, but I also want you to pray with your heart as well. That is, I want you to live the rosary in addition to praying it. Prayer and imitation of our lives will be a constant show of your love for both of us. Encourage your children and your family members to pray the rosary so they, too, can come close to us in love in their lives."

Jesus said: "My people, I am showing you this transformer station and these cell towers because these are two means that the one world people will control the world. Turn off your telephones and your electricity and many would feel deprived of communications and power to run your appliances and your computers. When you have seen power outages, your banks cannot transact money, your heaters or air conditioners do not work and you cannot pump gas for your cars. Without telephones you cannot contact anyone and data wires are useless. Now you know how the one world people will control you through electricity and your telephones. Some will take smart cards or chips in the hand to have their daily comforts restored. But how can you worship the Antichrist for these worldly things? This will be the choice that you will have to make in the tribulation. Either choose Me in going to the refuges for your needs, or choose the devil and the Antichrist who will charge the price of your soul for worldly comforts. Follow Me even if your life is threatened because it is better to follow Me to heaven than follow the devil to hell."

Friday, October 8, 2004:

Jesus said: "My people, I am showing you this metal globe as a representation of the one world religion that is intertwined with the New Age Movement and the United Nations as a part of the new world order. Much of this teaching on New Age is linked with the teaching of worship of gods of the earth and transcendental meditation of Eastern mysticism. These ideas of New Age are entering into My Church in place of the traditions of My Church that are being stripped out. There is only one Catholic Church that I formed with My succession of popes, and do not change My laws and traditions to accommodate other religions. You have ecumenism efforts to bring people back to the true faith in Me, but leave those churches that are being infected with other religions. The one world people, through the masons, will try and force this new one world religion on everyone, but refuse to change your faith, even if it means that your life will be endangered. My laws and Commandments will never change and I want you to only worship Me as your One true God who loves you. By following Me only, you will be rewarded with My Era of Peace and eternal life in heaven."

Jesus said: "My people, these fresh graves are mass killings of My faithful who will be martyred for their faith in Me. I have asked My people many times if you are ready to die for My Name's sake. It may be easy to voice your faith, but dying for your faith takes courage and belief of real love for Me. My martyrs will go straight to heaven. Because you are faith filled and trustworthy in small matters, I will set you in charge of great places in heaven. You know that if you are faithful to Me, that I will reward you with heavenly treasure. Even if you should be called to martyrdom, you will have comfort that others are dying with you, and I will never test you beyond your endurance. Pray for strength and endurance that you will be able to stand up to the evil ones in every way that they will test your faith."

Saturday, October 9, 2004:

Jesus said: "My people, this cable car being pulled up a hill by a winch represents the difficulty in trying to lead souls to heaven by evangelization. You can try to bring souls to conversion by your prayers, your good example, and your spiritual counseling of teaching them My Word. Evangelizing souls can be very difficult work because it means trying to encourage people by their own free will to change their lifestyle. Those, who are comfortable in their sins, will find it difficult to desire Me in love. It may take fasting, suffering, and My grace to convert a soul, but it also may take

persistence and enduring a resistance to your evangelization efforts. You will not be able to convert every soul, but you will have fulfilled your responsibility to save souls by attempting to win over the souls that you meet. It is the soul's responsibility to hear My Word and take it to heart. I call everyone to be an evangelist by your Baptism and your Confirmation. Just as I called My disciples, I want all of My faithful to go out to all the nations and preach My Word of love and obedience to My Will. Be grateful that I give you the time and opportunity to reach out with your love to touch souls and convert them to the faith. You know how thankful you are to have Me in your life and this should inspire you to share the Gospel message with those around you."

Jesus said: "My people, anyone, who stops to make a visit to My Blessed Sacrament, must be touched to love Me in a special way that is not forced by obligation. Some that come to church on Sunday are coming by choice, but also they do not want to sin against My Third Commandment of keeping the day of offering holy. Coming to adore Me is a way of thanking Me for being the center of your life. You have so many hours in your busy daily schedules and I am thankful to those who prioritize their time to include Me as a part of their day. Love is a beautiful gift, and focusing on loving Me and loving your neighbor is a gift of your heart and I am moved by your devotion to Me in My Blessed Sacrament. This gift of My Real Presence is a way of sharing Myself with you in a physical form that you believe is My Body and Blood. When you come to My Blessed Sacrament, be open to listen for a few moments to My message of discernment of how you are to lead your lives. Give glory, praise, and thanks to Me for all that I have done for you in this life."

Sunday, October 10, 2004:

Jesus said: "My people, this overflowing cup represents My overflowing graces that are always available to you. As these lepers came to Me confident that I would heal them, so I want you to be confident in asking Me in faith for all that you need and your prayers for others. Sometimes you forget to thank Me for your gifts as the nine lepers, but I am patiently waiting for you to remember. After Mass or after a day's activities, take a few moments to thank Me for gifts that many times you take for granted. This lamp of Light is My Word to comfort you and show you the way to heaven. Follow My Word of love and knowledge to enrich your spiritual life and build up your faith in Me. As you remember to thank Me for these messages, I thank you for doing everything for My glory."

Monday, October 11, 2004:

Jesus said: "My people, I told the people of My day that I am greater than Solomon and greater than Jonah. They saw My miracles and listened to My parables, but still they had difficulty trying to believe that I was the Son of God. They even killed Me for My declaration of who I AM. My Incarnation as a man was so I could die for all of mankind's sins. This is the most important sign for everyone that God cares for and loves His people. Still many are looking for signs in their lives of what to do to serve Me. Use your talents for My glory and follow My Commandments, and you will have eternal life with Me. I am giving you signs in the events around you that the end times are about you. It is only through the eyes of faith that you can see the Scriptures being fulfilled in this evil age. The sign of Jonah was one of repentance and it applies to this evil age as well, but you have Me with you which is greater than Jonah."

Jesus said: "My people, I am showing you an evil trinity of Satan and the two beasts of Revelation as an answer to the Three Persons in One God of the Blessed Trinity. The image of fire around this evil trinity represents the demon power of hell that will be stirring up continuous wars and chaos. When confusion will abound, then the coming Antichrist will declare himself and promise peace. These evil ones are wrapped in hate and a desire for power which will be allowed for a time. I am the Absolute Power and at the appointed time, I will cleanse the earth of all evil, renew the disasters of man, and bring about an Era of My Peace. True peace can only come through Me as Satan and the evil ones will be chained in hell. Put your trust in Me that love and peace will prevail over all that the evil ones will try to do. Do not follow the evil ones for anything because you will have all that you need from Me. You will be tested by fire, but in the end all things will be ordered to follow My Will."

Tuesday, October 12, 2004:

Jesus said: "My people, in today's Gospel there is a concern about external practices that many perform just to look good in the eyes of others. A person can look holy on the outside, but it is the intent of the heart on the inside that it is most important. Do not just perform actions to please people's expectations, but do things because you really mean them. So do not be a hypocrite by acting one way and preach another. This vision is about how you will have to be accountable for all of your actions at your judgment. You may fool others by your outward actions, but you cannot fool Me who knows your every intent in your actions. This life is very short as you notice how fast the years pass you by. So live

every day as if it is your last, and you will always be ready when I come to take you home. Some die suddenly and they are not ready spiritually, but there will be no excuses at your judgment. My mercy and forgiveness are always available for those who ask Me, even in your dying moments."

Jesus said: "My people, your research to find cures for various diseases as AIDS and cancer has required much testing of new chemicals with animals at first and even humans later. Some of these new drugs have side effects that are worse than the intended cure. There is so much money put into these drugs that making money on their sale is at times overriding the safety of the general public. This latest pain medication, that was removed from the shelves, is such an example where known problem drugs were still brought to market. Other research with stem cells of fetal tissue and changes of DNA and cloning are violating My plan for life and are testing the ethics of this extreme research. All of man's solutions are artificial and are not in conformance with nature. That is why it should be no surprise to you that allergies, side effects, and interactions of drugs are causing more problems than they are solving. Use alternative natural herbs and vitamins for your diseases and you will be working more with nature instead of against it. I am the Great Healer, so you can call on My graces to heal you as well."

Wednesday, October 13, 2004:

Jesus said: "My people, this beautiful butterfly in the vision comes from a caterpillar through a process called metamorphosis. This change of form in the life cycle of a butterfly is similar to the life changes of a human and even beyond death. Each person starts from a fertilized egg which then develops into a fetus, and you are born as a baby. The baby goes through childhood into adulthood. The final change of life is when you die and your soul is transformed into a new eternal life which at the Resurrection will be reunited with your glorified body. This new life will no longer be subject to sickness or death, nor will you be tempted by the evil one to sin. This new life in heaven will be more glorious than you could ever imagine. Your life on this earth is a brief testing time to see if you truly desire to be with Me in a perfect soul and body, or if you wish to remain tied to your earthly weaknesses forever in hell. The devil with his distractions and lies tries to mislead souls away from Me to make gods of worldly things. Strive for heavenly treasures to be with Me, and you will become a lover of Me and your neighbor over selfish worldly things. Share all that you have with Me and others and you will have a heavenly reward far better than the devil could offer

you. I offer you eternal life in the glory of heaven in a beautiful body. The devil will lead you to be a hideous creature and suffer forever in the flames of hell."

Jesus said: "My people, the debates are over and your voters will now choose the final poll. There are clear choices for who supports life issues and who supports the death culture. Unfortunately, it is the one world people who are dictating orders for whoever wins. The special interests are still in control as long as the Senators and Congress people are influenced by money. It is the continuous wars perpetuated by the one world people that are causing much of your deficits. It is to their benefit to profit from interest on the national debt, and to profit from selling arms to both sides of these wars. If wars were stopped, your economy would improve with less debts. Stop these unnecessary wars and all the killing, and your country would rise out of your financial and job problems. Your government leaders are out of control in following the dictates of the one world people. Those with money are totally in control of who gets nominated and who gets elected. As long as money controls things, you will have war after war and higher debts into insolvency. This plan to bankrupt your finances and neutralize your military is how the one world people will take over your country."

Thursday, October 14, 2004:

Jesus said: "My people, many times in life you will be faced with rough waters and you will seek the safe comfort of the shore over doing the mission that I call you to perform. When I walked on the water amidst a storm, I called St. Peter in faith to walk on the water to meet Me. He started to walk on the water, but he faltered on fearing the storm. I then reached out and saved him from sinking and I said to him: 'O thou of little faith, why didst thou doubt?' (Matt. 14:22-32) This invitation to walk on the waters of life may seem impossible to mankind, but if you have the faith of a mustard seed, all things are possible with Me. If you truly have a strong faith in My graces, you can accomplish much for My glory. Many falter as St. Peter in thinking it is too difficult a task to succeed in the world with many evil forces against you. The evil ones will test you as they tested Me, but if you call on My grace, I will assist you and save you from drowning in your sins. Be persistent in faith and prayer, and you will be amazed at how much you can accomplish. You may be called to step out of your comfort zone to reach out and help someone. So do not be fearful, but have confidence that I will provide you sufficient graces to endure every trial that you will face in life. Each day call on Me in your daily consecration to pick up your cross

on your way to Calvary. I suffered much in this life, and My followers will have to suffer as well. Let Me carry your burdens by your trust in Me as St. Peter reached out to Me in trust."

Thursday, October 14, 2004:

Prayer Group:

Jesus said: "My people, many are afraid to look at a real abortion because this is the most cruel destruction of life that mankind has devised. Even before a life could be seen, the doctors are performing their grisly business for their blood money. Abortion in America is why you are being chastised by natural disasters, wars and terrorism. That is why your election of pro-life candidates is your moral responsibility. Your court system is corrupt enough without adding more lawmakers in favor of abortion. Change your laws on abortion, My people of America, or you will see worse destruction of all that you have."

Jesus said: "My people, your high fuel costs are not coming about by accident. All the attacks against oil producing facilities, and gas and heating oil are all being orchestrated to cause higher prices. America's thirst for fuel supplies is being challenged by others seeking fuel and the producers to provide enough supply. Any threat to any source of fuel lowers your stock prices as a result. This tactic will soon be affecting many of your needs and push America into a lower standard of living."

Jesus said: "My people, many have been stripped of homes, jobs, and power. It will take a hard road for many to recover and to get people working again. Continue to reach out with your donations of money and time to help the homeless and the hungry. There are many effects from these storms on your economy, but much of this story is not being told to your media. Pray for these people to get their lives back in order."

Jesus said: "My people, man is always challenged to invent new vehicles for space travel. There have been many discoveries in this quest that have benefitted other modern conveniences. Even as much money is spent on research in various fields, more could be done with this money to feed the poor and help people to grow crops for themselves. Providing jobs has become an ongoing problem for America's people and those immigrants seeking entry. Pray that your governments could be more concerned with helping people than wasting your money and lives on constant wars."

Jesus said: "My people, your housing industry has been in great demand while your interest rates remain unusually low. This is good news for areas devastated by storms, but this boom

could dissipate as interest rates are returned to normal. Your spreading development for new housing is consuming available farm land, but also it is putting an increased demand on your infrastructures to provide fuel, water, and electricity. It will become harder for people to afford new homes as your economy will deteriorate with your wars and deficits dragging you into more financial problems."

Jesus said: "My people, how long will America be willing to fight a dragged out conflict with insurgents in Iraq? At some point there needs to be an exit strategy that will stop the drain of American casualties and the loss from your treasury. Fighting endless battles in the name of fighting terrorism will not stop this sabotage all over. Instead of focusing on killing and destruction, it is better to seek compromises in love and rebuilding homes."

Jesus said: "My people, for many years priests, who have committed sexual crimes, have been sheltered from your justice system. Now because of financial gains, those, who were abused, are coming forward to challenge these priests. It is unfortunate that such litigation could bankrupt many dioceses or parishes because there is not sufficient funds to pay for these cases. This could even be a means to tear down parts of My Church. The good priests will be threatened by these many suspicions and training new priests will be more difficult. Pray for more vocations to the priesthood and that these trials will not tear down the Catholic Church structure."

Friday, October 15, 2004: (St. Teresa of Avila)

Jesus said: "My people, in this vision I am standing next to an ever flowing font of My love and My graces for Baptism, Confession, and Confirmation. When you are baptized, your original sin is forgiven because of My death on the cross. When you come to Me in Confession, your sins are cleansed from your souls and My graces are restored. In Confirmation you become My soldiers of the faith as you receive the gifts of the Holy Spirit to help you on your road to heaven. Remember to call on Me in My abundant graces both in My sacraments and My graces of healing in answer to your prayers. My graces are ever flowing just as this spring of water. Keep faith in My help and you will have all that you need to endure your life's trials."

Jesus said: "My people, the life issues are the most important issues that are at stake for your country. Because of your sins of the flesh and your abortions, America is on the edge of destruction which it is bringing on itself by My wrath in My chastisements. Those, who advocate abortions, are partners in this crime of killing the unborn infants. Those, who do nothing to try and stop these abortions by your apathy,

are condoning this sin as well. Those, who advocate same sex marriages, are defying My sacrament of Matrimony which is only reserved for a man and a woman. Those, who advocate fetal tissue of aborted babies for stem cell research, are again advocating the killing of babies in abortion. Avoid voting for candidates of the death culture, and vote for candidates supporting life, and you will be fulfilling your Christian responsibility."

Saturday, October 16, 2004: (Mary Margaret Alacoque-Sacred Heart)

Jesus said: "My people, I am showing how I suffered and died on the cross for love of all of mankind. I would have died even for only one of you. This darkness beneath My feet on the cross represents all the sin of mankind and how I conquered sin and death once and for all. My saint of the day, St. Mary Margaret, loved My Sacred Heart and she was given a message for everyone to express your love for My Sacred Heart. I expressed My love for you the best way that I could by bringing you all salvation through My death on the cross. I have also left you a miracle of My Real Presence in My Blessed Sacrament. Now you can come to adore and praise Me as My angels do constantly. Continue to give glory and praise to Me as you thank Me for all that you have. This image of My Sacred Heart is a reminder of the flame of love that I have for all of you. I ask you as well to love Me and serve Me every day for My greater glory."

Sunday, October 17, 2004:

Jesus said: "My people, this spring water that I am showing you in the vision is a laver of graces that you can ask Me for at any time. You know of the cleansing waters of Baptism that washed away your original sin from Adam. You all need to admit that you are sinners and are in need of My forgiveness. When you come to Me in the priest at Confession, again your sins are washed away with the priest's absolution. It is humbling to admit that you have offended Me, but with contrite hearts you can ask for your forgiveness and I will forgive you of any sin except that against the Holy Spirit. My heart of love reaches out to each soul awaiting your return to Me, just as the father of the Prodigal Son awaited his son's return. And when a soul returns to grace by conversion, all of heaven will celebrate the return of even one repentant soul. In addition to keeping your soul clean by frequent Confession, I call you each to a life of daily prayer, a daily consecration of everything to Me, and a service of love to help Me in all of your neighbors in spiritual and physical needs. When you pray, you are inviting Me into

your hearts to tell Me how much you love Me. Love is what I call everyone to experience, both for Me and your neighbor as yourself. When you perform good works out of love, you will forget all of your earthly selfish desires because your heavenly rewards will fulfill your soul much more than earthly things could ever do. Give praise and glory to Me every day that you carry your cross on your way to heaven with Me."

Monday, October 18, 2004: (St. Luke)

Jesus said: "My people, today's feast of St. Luke, the evangelist, is special because St. Luke wrote down My very words of My parables for all of mankind to read and share My Revelation of My Word. In My Word I am communicating My love and My Way for all souls to come to heaven through My graces. My written Word has power and spiritual wisdom for all of you, not only to read, but to live out in your life. You have a treasure in My Word of Scripture that shows you how to serve Me in love and I show you how much I love you by My death and My gift of Myself to you in My Eucharist to give you strength. Just as I called all of My disciples to go out to all the nations and spread My Good News of salvation, I also call on all of My disciples of today to spread My Word of love to all the nations as well. By your Baptism and Confirmation you are all empowered by the Holy Spirit to communicate My Word by evangelizing those souls who are away from Me or who have not heard My Word. I have redeemed all of you from your sins and each soul is called to accept Me as your Savior and seek My forgiveness of your sins. By giving your 'yes' to Me of your own free will, then you are committing yourself to follow My Way of life until I will call you home to Myself at your death. You can communicate your love to Me in your daily prayers and teach your children how to pray and show them My Way in the Gospel of My Word. It is by your faithfulness to My Word that you will save your soul."

Jesus said: "My people, your days of sudden roadblocks at night will be starting soon under the pretense of security for terrorists or drugs. This will then move to martial law that will control all of your major highways, trains, and airports. Chips as smart cards will then be required of everyone along with your fingerprints or eye scans. It will not be long after smart cards are made mandatory for everyone, that chips in the body will then be required. Avoid taking chips in the body even if they threaten your life. This will be close to the time of the Antichrist's declaring himself in control. Then you should ask My help and your guardian angels will lead you with bikes to avoid the roadblocks with a physical sign to the nearest refuge of My Blessed Mother's apparition sites, places of holy ground,

or even caves in places with hills and mountains. Do not be fearful because I will provide you with shelter, water, My Manna and even meat as I did in the Exodus. Some will be martyred for My Name's sake, but the rest of My faithful will be provided for. Trust in Me to save your souls and do not trust in anything from the evil ones. My victory over evil will come shortly after the Antichrist comes to full power. You may suffer in this time of tribulation, but your reward with Me will be far more valuable than any earthly possessions."

Tuesday, October 19, 2004: (St. Issac Jogues, John de Brebeuf)

Jesus said: "My people, many Christians today are being murdered in the Sudan and elsewhere by Muslim extremists. You can add all the little unborn infants killed in abortion by their mothers as martyrs for My Name as well. Just as today's North American martyrs shed their blood for believing in Me, you will continue to see more and more martyred for their faith as the evil ones will gain more power over the world. Those, who do not repent of their crimes of killing, will burn forever in the flames of hell. Those, who do repent, will be forgiven, but they will still have to suffer either on earth or in purgatory in reparation for their sins. I have told you many times that taking a life is a mortal sin and serious because you are denying My plan for the life of that soul. Those, who are martyred for My sake, will be instant saints in heaven, and you will have nothing to fear if you are called to martyrdom because I will strengthen you to endure it. Trust in Me that the evil ones will appear to be in power for a short time, but victory will come soon to destroy all evil and My faithful will be vindicated."

Jesus said: "My people, this scene in the dark represents the evil of your day all around you. This race track is a sign of how fast your life passes you by. No matter what age you are, whether it be twenty years old or sixty years old, look behind you and see how fast those years passed you by. The older you become, the faster the years seem to pass. Look at this life as a testing ground for heaven. Your soul is your most important gift, but you must protect it daily with prayer, My sacraments, and blessed sacramentals as rosaries and crosses with the Benedictine blessing. You will be tested dearly every day with temptations for greed, pride, and worldly possessions. The devil will not leave you alone, but you can call on Me and I will give you sufficient graces to resist him. Stay true to your faith in Me by showing your love for Me in helping others. Your good works help make reparation for your sins, and desiring to help others shows Me how much you love Me and your neighbor more than selfish earthly things. Do not be afraid of dying,

but keep your soul protected with My grace and you will see your reward in heaven."

Wednesday, October 20, 2004:

Jesus said: "My people, at times you meet your fellow parishioners and talk about casual things, but unless you walk in their shoes, you do not know their problems. Among your peers you each share common problems in running your households, but then there are the outreach programs that the Church supports. You are first called to support your local church financially and their help projects with your time. Teaching the children their faith is a very important work for parents, but also in Church related settings as well. Some may work with the elderly or with food shelf programs to feed those in need. Helping various mission churches abroad also can be a calling to support. The closer you are involved with foreign missions, the easier it is to understand their needs. The more you give alms and help people, the more heavenly treasures that you will store in heaven. You all were asked to help spread the faith to all the nations, so helping the missions helps to fulfill your call. Pray for your priests and missionaries in all their work to spread My Gospel message all over the world."

Jesus said: "My people, this spotlight on a fence represents how people's privacy is constantly being invaded. People are losing money by identity theft, and businesses are running profiles on your charge accounts and invading your computers through the internet. The latest approval of Verichips in your body by your government agencies will allow the next step to control your buying and selling by the mark of the beast. Refuse to take this chip in your body, even if they threaten you with prison or detention centers. Even if you lose all of your money, refuse chips in the body and trust that I will provide for your needs at My refuges. Mandatory smart cards and chips in the body will soon be forced on you by your government in the name of security. Chips in the body, when abused, could control your thoughts to worship the beast, so refuse them at all costs. You may have to leave your house when they condemn it for taxes that need to be paid with chips in the body. This will be your time to seek out My refuges with your guardian angels. Pray for My help in the tribulation that will not last more than three and one half years. In the end My power will triumph over all evil and I will renew the earth in preparation for My Era of Peace. Have patience in your suffering and soon you will see My new heavens and new earth."

Thursday, October 21, 2004:

Jesus said: "My people, sometimes you need to look at life

from a different perspective in order to improve your spiritual life. You may have too much clutter in earthly distractions that are keeping you from fulfilling My mission for your life. Just as you clean up things in your room that are not necessary, so look at what you are doing each day and remove that which is not necessary for your soul's salvation. Ask yourself if I would do those things and this will be a guide for what to discard. If things take up too much time in your life and keep you from praying and being close to Me, then work on clearing these activities to give you more time for Me. Possessions and wasting time on earthly activities will not help you get into heaven, so put these aside to accomplish good works in helping people. It is better to focus on Me and others than being selfish with your money and your time. Many of the problems that you have are brought upon yourselves by not following My Will and doing your own will. Pray for discernment in following what I want you to do in life, and it starts with your daily consecration to remove or detach yourself from earthly desires. Keep focused on Me as the center of your life and I will lead you on your path to heaven."

Thursday, October 21, 2004:

Prayer Group:

Jesus said: "My people of America, you have some major candidates and laws standing up for election when you vote in a few weeks. As you see the future eagles in this nest, think of how you vote and the effect of your decisions on your children and grandchildren. Abortion, euthanasia, same sex marriages, and stem cell research with fetal tissue hangs in the balance. Whatever you vote for, you will have the consequences."

Jesus said: "My people, storms and heavy rains have caused damage and power outages in California. Many states have suffered much from your natural disasters, and your economy has suffered in various ways as well. Many of your fellow citizens need your help still with the necessities of life. Pray for the homeless, the unemployed, and the hungry as well as helping them financially."

Jesus said: "My people, because your fuels are becoming so expensive, new exploration for fuels is increasing along with much interest in renewable energy sources. Getting better gas mileage for cars, and more efficient heaters are also ways to save on fuel. America has enjoyed a comfortable standard of living by burning a large percentage of the world's available energy supplies. You will suffer a decreased economy because of these expensive fuels. Learn to share the energy supplies with other nations, even if it means having less things of the world."

Jesus said: "My people, your housing boom is starting to cool off as interest rates increase and the economy absorbs so many new dwellings. Rebuilding in the damaged Southern states is competing with the available building supplies. Homeless people are in more need of shelter as many poor homes have been destroyed. The Caribbean islands also are in need of your financial help. Reach out to share what you have with those in great need."

Jesus said: "My people, your farmers and fruit growers have suffered greatly from the latest hurricanes. These food commodities will also be in short supply and have higher prices. It is hard to know how much people are suffering as they recover from this year's disasters. Many unusually severe storms have challenged your people and you are seeing how natural disasters can have a great effect on your daily life. Pray for people to repent of their sins in America or you will continually face more of these disasters."

Jesus said: "My people, you are continuing to see unusual miracles in the sun, in weeping statues and pictures, and physical healing. These little signs and graces are being given as a confirmation of faith to My faithful who believe in Me, even in this evil age. Do not focus on a need for signs, but see them as a sign of the end times, even as you are tested with the loss of your possessions. Seek out heavenly treasures by helping others instead of building up earthly treasures that will disappear."

Jesus said: "My people, this month of October is a focus on praying the rosary of My Blessed Mother. There is much need of prayer to stop the killings in war and abortion. There is also a need to honor and praise Me in My Blessed Sacrament as you celebrate My pope sons's Year of the Eucharist. When you love Me and My Blessed Mother, your hearts are united with ours in all of your devotions. Hold on to your faith and your traditions to share them with your children."

Friday, October 22, 2004:

Jesus said: "My people of America, you have some level of awareness of terrorism, but you already have become complacent over another attack as on September 11th. Even now as your election draws near, there are more preparations being made to try and thwart any terrorism that could influence the election. Your most likely targets would again be major financial buildings in New York City and government buildings in Washington, D.C. The scale of terrorism has gone from suicide bombers to major explosions involving thousands instead of hundreds of people. America has been humbled already this year with many severe natural disasters and an ongoing war in Iraq.

Terrorism on your own soil has not been a factor to this time, but you are apprehensive that a severe attack could happen again. I gave you one message earlier of how you will see more coming to church again as after September 11th. You will see more attacks, but you do not know when. All of your disasters are a result of your sins and they will worsen until you repent, or are brought to your knees in prayer. Change your ways and focus on Me in your lives before My justice will fall on you."

Jesus said: "My people, I am warning you to not let yourself be controlled by addicting games, virtual reality machines, internet surfing, too much TV, or excess computer programming. These electronic devices have an attraction to play with, but there is a hidden addiction that could control your minds. Virtual reality games are especially dangerous because you can become a different person and many of your thoughts can be manipulated and controlled without you realizing it. If starting just for a short time on these devices leads you into hours of wasted time, then it might be better not to start. A person addicted to alcohol cannot even take the first drink, or the habit would return. So avoid these electronic devices if they control you. You need to be in full control of what you are doing, so avoid anything that has an earthly control over your mind. Even the coming electronic chips in the body should also be avoided because they could control your mind if they are abused. Stay close to Me in your daily prayers and ask My discernment of your actions so you do not become addicted to anything."

Saturday, October 23, 2004: (St. John of Capistrano)

Jesus said: "My people, the continuous waves on a beach represent My bountiful mercy as I continue to forgive you your sins in washing them away at Confession. You know I will forgive you if you repent and are sorry for your sins in having offended Me. It is contrite hearts that move Me to compassion for sinners. When you come to Confession, pray for a good examination of your conscience in deciding what you may have done against My Commandments. Do not just go through the motions of this sacrament, but really search out a firm purpose of amendment to avoid these sins in the future. Learn from your mistakes so you do not repeat them. If you have weaknesses to certain sinful pleasures, or to anger, try to avoid the occasions of these sins and put yourself in better environments that will not lead you into sin. I want My children to be loving and caring without so much focus on personal entertainment for selfish reasons, or on possessions without sharing. When you love Me and your neighbor more, you will have less desire for sin because you do not want to offend Me or others. So come to Me often in Confession to humble your pride

and to keep your soul always pure in preparation for when you will come to Me in judgment at your death. You can come to Me anytime, but do not put off repenting until tomorrow when you may die today."

Jesus said: "My people, those, who live in the North, see the four seasons as a circle of life and death. You have new life in the spring, growth of crops in the summer, a sense of dying leaves in the fall, and a somber cold winter as a time of death when nothing grows. This same cycle also occurs in the Church year and in the last weeks before Advent, you hear in the readings about the judgment day and the end times. Preparing your soul for death means repenting of your sins before it is too late to do anything about your salvation. If you live every day as your last, you will always be ready for Me on your judgment day. Daily prayer and frequent Confession will help keep your soul pure and ready to meet Me at anytime. You need to be as a watchman, because you do not know the day that I will come for you. By consecrating everything to Me and following My Will for your life, then you will have no fear about death because I will reward My faithful servants. It is those, who are in constant sin and refuse to repent that should be more wary of being turned away from heaven. Reach out to save souls at all times because many think that they have a long time to live and get ready. People need to think of where they are headed after death because you may die younger than you think."

Sunday, October 24, 2004:

Jesus said: "My people, wherever you are, you can expect temptations and distractions from the evil one. Even when you are praying before My tabernacles, you need to pray first to take away the demon of worldly distractions. Put all the worldly things out of your mind, so you can focus on Me in sincere prayer and not just repeated words. Have a goal of some set prayers or some Scripture reading, but always leave some minutes for listening to Me and conversing with Me in your own words. By having a plan at your holy hour, you will not waste this precious time with Me. When you visit My Blessed Sacrament, it is most important to just be with Me and give Me some of your precious time. Confusion and wasting of time is how the evil ones attack you, so pray much in My Name and ask the Holy Spirit to humble your pride and focus on your spiritual mission of love of God and love of neighbor. Rejoice in My love and give Me praise and thanksgiving for all that I do for you."

Jesus said: "My people, My Word to you today is all about trust in love both between spouses and between you and Me. When two people love each other, there is always a risk that each person takes in trusting each other to be faithful to their

vows. You are vulnerable in your trust and some suffer broken hearts when there is a separation or a divorce. Even though you take a risk in every human relationship, you trust that the other person's love will not fail. Without this mutual trust in love, how could there be a long lasting marriage? True love means a willingness to do anything for the other spouse. I am a third partner in every marriage because the grace of this sacrament unites all three hearts. As your God and Master, I request that you even love Me more than your spouse. This trust in love is even greater between you and Me. You know without any doubt that I will always love you. You can also trust in Me that I will never test you beyond your endurance. When you pray to Me, you can trust that I will always answer your prayers in the most beneficial way for your soul and the souls that you pray for. At times it may seem that your prayers are not answered as you desire, but My answer may be more in keeping with My desire for your soul. Do not despair in your trials, but be persistent in your prayers that I will provide for your needs. Give thanks and praise to Me for all that I do in your lives of love."

Monday, October 25, 2004:

Jesus said: "My people, when you come to Mass, you see how I suffered on My crucifix and died for all of you. Every Mass is a re-enactment of My suffering and death on the cross. Even while I was on the earth, many came to Me with their sicknesses and I healed them. In life everyone will have to suffer the trials and sufferings that are the weaknesses of the body. But you do not suffer alone because you all share in My suffering as well. As I suffered, you also must suffer the human condition. As you look through your life and those lives around you, there are many sicknesses both in mind and body. You may see someone blind, deaf, in a wheelchair, with cancer, AIDS, or any number of debilitating diseases. There are those with no arms or legs, some in comas, some with mental problems, some with paralysis, Parkinson's disease, or memory losses. You see those with high blood pressure, heart or lung diseases, diabetes, arthritis, cataracts in the eyes, or even leprosy as in My day. All of these diseases and disabilities are sufferings that could be offered up as reparation for your sins or for the sins of others. Because of your infirmities, you come to Me seeking to be healed and relieved of your pain. Some are miraculously healed of their diseases because of their faith in Me. Healing of the soul in conversion is the greatest healing. You all will suffer in this valley of tears, but you have consolation in sharing your suffering with My suffering on the cross. You all have a cross to carry in this life, and some of you have heavier

crosses than others. No matter how difficult your life is despite disasters, unemployment, or sickness, I will always give you enough grace to bear your sufferings. There is always someone worse off than you in poverty or sickness, so count your blessings each day that you are alive. You all are called to a mission of love and sharing My Gospel of love with everyone. Put aside your anxieties and worries of this life and trust and hope that I will lead you on your way to heaven by My mission for your life. Consecrate everything to Me each day and live your lives according to My Will as you all suffer with Me."

Jesus said: "My people, this man drowning in the dark sewer water represents how you are when you are drowning in your sins. If you have an inner strength and faith in Me, you can pull yourself out of your sins and go to Confession. Those, who are weak in faith, may need someone else's prayers to help them back to Confession. Those, who have allowed their sins to have a hold on them, may need someone physically to help them and encourage them to get to Confession by driving them there. It is not easy to find your way back to My sacraments because it means swallowing your pride and admitting that you are a sinner and in need of My help. When you listen for someone's plea for help, do not abandon them, but reach out in Christian love to provide for their physical and spiritual help. For every soul that you bring back to Me, you will gain many heavenly treasures.

Do not be curious in things that could lead you into sin and you will not be drowning in your sins. Instead strive to live a holy life by staying close to My side in your prayers and My sacraments."

Tuesday, October 26, 2004:

Jesus said: "My people, you have heard a great homily on charity or love and it is based on thinking more of the other person than yourself. At times I have used married love as a shared experience to witness My love for My Church. I formed My Church with My apostles and St. Peter as the head. I have promised you that the gates of hell will not prevail against it. After over two thousand years, My Church is still intact as a witness to My promise. True love between married spouses should be self-giving of one to the other. Each spouse should look for ways to help each other without being asked. Love should inspire you to help each other without expecting anything in return. When you are concerned to bring souls to Me to be saved, you are reaching out for the best interest of the person's salvation. When you want to love Me in return for My love for you, it is difficult for you to comprehend a Spirit of love that you cannot see. That is why when you see paintings or

statues of Me, or My crucifix, it is easier to show your love for Me. Even when you adore My Blessed Sacrament, you can have My Real Presence in your midst. My salvation for mankind on the cross and My Eucharist are two great signs of how much I love each one of you. Your prayers and your good deeds are your signs of how much you love Me. Always keep our relationship vibrant and living by sharing My sacraments often. When you love Me and your neighbor, you are living out your belief in My Commandments."

Jesus said: "My people, the demons and evil people use Halloween as their feast day and many are taken up with these festivities to treat their children with parties and candy. This day is being commercialized even more than Christmas and Easter. The evil ones are doing everything to glorify evil and minimize any mention of God or My Name in public. This age grows more evil with each passing year. The evil ones have focused on the destruction of the family and My Church. All of this evil is why prayer is needed more than ever. The evil in your society has corrupted your laws and it is tearing away the Christian foundations of your country and its religious freedoms. Drugs, same sex marriages, cloning, and abortions are just a few issues being tested in your laws. My faithful need to double your prayer efforts and your efforts to elect candidates for life. If you do not follow My Commandments in your laws, then you will condemn America to its ruin. It is My blessings that have made you great, but you want to take your own credit for your riches. If you exalt yourselves, I will humble you and bring you to your knees."

Wednesday, October 27, 2004:

Jesus said: "My people, today's message is about life and death not only of the body, but of the life and death of the soul as well. Each day all of your actions are seen by Me and all of heaven. Your lives are acted out on the stage of life and they are recorded and made ready for your judgment day. You will be held accountable for all of your actions and how you used your opportunities, graces, and talents. For those, who were given more, more will be expected. Most important will be if you repented of your sins, even if it was the eleventh hour of your life. You have all of your life to prepare for your judgment in seeking My forgiveness of your sins. You will have no excuses for not repenting because you have been given plenty of time. Everyone is appointed to die as a result of the consequences of Adam's sin, but I offer you hope in My Resurrection that those faithful to My laws will enter the kingdom of heaven. When you come to Me at your death, you will be judged to either heaven or hell. Those, who still need

purification, will be purged in purgatory. So you need to pray for these souls in purgatory who can benefit from your prayers. Your eternal destination is at stake during life and I want all souls to come to heaven, but it must be of your own free will that you choose to love Me and your neighbor as yourself. So keep your souls pure by the forgiveness of your sins in Confession, so your soul will always be in the proper disposition to be ready for heaven. Reach out as well to bring souls to Me in conversion because you do not want to see people lost to hell by your silence. This is why it is so important to spread My Word of love in the Gospel to all the nations so that everyone will be warned about preparing for their judgment. Each person is responsible for their own soul by their own free will, but My faithful are responsible as well to lead people to My waters of grace and forgiveness so they can drink."

(Eclipse of the moon by the earth) At St. Theodore's Adoration Jesus said: "My people, I have told you to look to the skies for signs and tonight's lunar eclipse is a bad omen for America. The water overflowing the dam in the vision represents America being overcome by the weight of its own sins. America's survival will be challenged by your deficits, your wars, and terrorism. One more major security incident as September 11th and you could be faced initially with mandatory smart cards and possibly martial law. Once the one world people can seize control of your government, you will all be prisoners of the state with no freedoms. By allowing money to control your elections, you are allowing the rich to control whoever is elected. By allowing evil laws by man to supplant My laws which are eternal, you are condemning your country to oblivion. Your founding fathers treasured your freedoms, especially religious freedom. Because you are not upholding My laws to protect life itself, you have legalized the death culture that has you wallowing in your sins. If America does not wake up and repent by stopping your abortions, you will see your country taken over by the one world people and you will lose everything. Refuse to take mandatory smart cards, and absolutely under pain of death, refuse to take any chips in your body. Under this takeover you will need to call on My help and your guardian angels will lead you to the nearest refuge to protect you from the Antichrist and his evil agents. Those, who trust in Me and do not give up their faith, will enjoy My Era of Peace on earth and be with Me forever in heaven."

Thursday, October 28, 2004: (St. Simon & St. Jude)

Jesus said: "My people, this beam of light, that rested on each person individually, represents how I love every soul equally. Some appear to you as holier than others, but they

have been given more grace to be holy. I love the most grievous sinner as much as a holy saint. I love the homeless person as much as the richest person on earth. I died on the cross that everyone would have an equal opportunity to be saved. Some angels in heaven are in higher places because of the grace that I gave them. Some people on earth are given more graces to accomplish greater missions than the average person. It is how much you respond to My love in your actions that could elevate you to a higher station in heaven. Be thankful for your faith in Me and treasure the love that I have for each one of your souls. By seeking the forgiveness of your sins from Me and accepting Me as your Master, you will be on the right road to heaven. By showing your love for Me, you are uniting your heart with My Sacred Heart in everything that you do. Returning your love to Me and helping your neighbor out of love is the best thank you that you could give Me for all the gifts that I bestow upon you. For every gratuity that you do for someone, truly I will multiply My graces to you in this life and the next. I have an abundance of graces waiting for everyone who asks for them. Love one another as I love you."

Thursday, October 28, 2004:

Prayer Group:

Jesus said: "My people, some of your cathedrals are being stripped of all traditions in the name of renovation. The reverence for My Blessed Sacrament is being diminished by removing My tabernacles from the main church. More focus is being placed on the 'meeting place' instead of on the holiness of My Church because of My Real Presence. Many New Age symbols and traditions are replacing My statues and My tabernacles. When these radical churches change the words of Consecration, or introduce gods and goddesses of the New Age, then leave these churches for a proper Mass. You will not have a proper Mass for long and then you will meet in the homes and finally in My refuges. Call on My protection against this evil age and your souls will be saved."

Jesus said: "My people, many are not always proud of their dirty laundry and dealing with any stench. When you put on clean clothes, you feel refreshed for the day. In the same way you are wearing dirty clothes when your soul is in serious sin. The stench of your sin offends Me more than your physical dirty clothes. You can put on a clean soul when you have your sins cleansed from your soul in Confession. Keep your souls clean by frequent Confession and you will always feel refreshed with My grace."

Jesus said: "My people, this latest UN discovery of old caches of explosives appears too politically motivated by those

in the UN who are not friendly with your president. There have been so many trumped up issues before your elections that it is obvious that these were planned just for this time. Continue to focus on the real issues of the life issues. Those, who support life, should be the candidates to vote for."

Jesus said: "My people, your Catholic schools are slowly breaking down from a lack of funding and a lack of desire by your leaders to continue on with proper teaching of the faith for your children. What is being taught is so watered down from your traditions that the children are needing more input from their parents. The sacraments and truths of the faith are a necessary part for everyone's soul to be saved. Learn what your children are being taught and share your own faith experience with them. This is the next generation of Catholics and you need to give them good roots to remain sound in their beliefs in Me."

Jesus said: "My people, along with teaching the faith to your children, you need to teach them how to pray the rosary and the Liturgy of the Hours. You start them with morning prayers, prayers before meals, and evening prayers. Even if you can all pray one decade, your being joined in prayer will protect your family from divorce and division. The more you work to keep your family holy, the more I will bless your efforts."

Jesus said: "My people, many think it is good fun to dress up as witches and monsters on Halloween, but it is not sending a good message to your children to glorify these evil symbols. It is better to have more pleasing beautiful costumes than the evil looking ones. This is a prelude to All Saints' Day and not a condoning of an evil feast day."

Jesus said: "My people, the early Christians were martyred for sport in public arenas. All of My apostles, except St. John, were martyred for preaching My Gospel of love. Today, it is getting harder to openly evangelize souls because you have so many lawyers suing people for infringing on their beliefs in public. Displaying crosses and speaking about God publicly is drawing much criticism and even harassment. The evil ones are becoming bolder to kill Christians all over the world. The days of Christian martyrdom are already returning, but those, who die for My Name's sake, will still become instant saints for your beliefs. You may suffer here for a time, but I will reward My faithful in ways you cannot imagine in heaven."

Friday, October 29, 2004:

Jesus said: "My people, this vision of an old wind mill is a sign of the many scenes that you will see in your life review at the Warning. The Warning is not far off as the end events are being drawn together. I have warned you in these messages

to always be prepared in your soul by frequent Confession and to be ready to move to My refuges when the persecution of religious people begins. The empty highway is an example of the less traveled road to heaven which requires one to be able to give up all of your possessions to go to the refuge. You have grown accustomed to your conveniences of modern cars and many comforts of your home. Unless you are aware of the dangers to your soul, it would be very difficult to leave your home for a refuge where life would be crude, but safe from the evil ones. Persecution of My faithful will worsen, especially if you stand up against the evils of your society openly. It is your duty to speak out of My love and My disdain for your abortions, euthanasia, same sex marriages, and stem cell research with fetal tissues. They will try to imprison you for your beliefs and some will be martyred. Do not have fear of these evil ones, but trust in My grace that I will save your souls. Martyrs will be instant saints, and the rest I will protect at My refuges. For those, who are faithful to Me, you will find your reward in heaven."

Jesus said: "My people, I have told you that you would find miraculous springs of water at all of My refuges. This water will have healing properties as well as providing for drinking purposes. As many people will be drawn to My refuges by your guardian angels, each person will need enough water for survival in drinking, meals, and cleansing. This water will be multiplied as the food that I will supply for you. Water is necessary every day, so you will need cups and a means to try and save any rainwater for your needs. Every refuge will need to think of how best to provide water for the crowds that will come. I allowed Moses to strike the rock for water in the desert, so I will miraculously provide for all of your water needs. Bread and meat will also be provided miraculously as well. Do not worry about what you are to eat or wear in the tribulation, for I will answer your every need and My angel will protect you from the evil ones. If your spring goes dry, My angel will dig you another well. The angels will give you water, bread, and meat whenever you need it. Give praise and glory to your God who knows your needs before you even ask Me."

Jesus said: "My people, you are continuously washing your hands and you are used to washing your body frequently to rid the sweat and filth of the day. Yet, your Lord has made the inside in your spirit as well as the outside of your body. It is even more important that you keep the inside of your soul cleansed from your sins. You are baptized with water and some by immersion in water. Just as your original sin is symbolically washed away by water, it is in reality washed away

by My redeeming Blood. It is My Blood sacrifice on the cross that takes away your sins. I have left you with My grace of Confession to the priest so you can come to Me and I will forgive you of your sins. The Gospel speaks of humility, and what greater way could you humble yourself than to come before Me and admit that you are a sinner and confess your sins? Then I will forgive you of your sins and your soul will be pure again as at your Baptism. You remember that after Confession the priest gives you a small penance as part of the reparation that you need to make up for your sins. You remember to pray for others and the souls in purgatory, but you also can pray for the reparation of your own sins while you are on the earth. Should you go to purgatory, you will no longer be able to pray for the reparation of your sins. So remember to pray and do good deeds in payment for your own sins and you will need less time in purgatory. Humility is a virtue that should keep you focused on avoiding sin as well as not letting your pride control your actions. As you clean the body, remember to cleanse your soul as well."

Sunday, October 31, 2004:

Jesus said: "My people, I want you to come to Mass properly dressed. Remember the parable of the wedding feast when those, who were brought in without a proper wedding garment, were cast out. When you come to Mass, I want you to dress with reverence and respect for your Lord and Master. Do not come to Mass with clothes that you would wear in the garden. Do not wear clothes that are too revealing and could cause temptation for others. If you can dress nicely for weddings and funerals, then you can wear good clothes in front of your God on Sunday. Also, be respectful in church in front of My Blessed Sacrament without loud talking and gossip. By reverencing your Lord at church, I will know how much you love Me."

Jesus said: "My people, over the last several years you have seen terrorist acts on a new level that have never been seen before as on September 11th. The initial reaction against these terrorists has been an all out war against their bases and nations who harbor them. It is almost impossible to rid all terrorists who can travel to other countries for sanctuary. You in America are also seeing that it is difficult to keep attacking other countries where you would like to change their leadership. You cannot have an endless war on terrorism at the cost of your troops and a constant drain on your treasury. It is one thing to try and protect your people, it is another to try and force your way of life on everyone. It is the Islamic terrorists that are causing this suicidal destruction and not the people in the countries that America is trying to control.

Constant war will be among man until I return, but it never solves any problems as you are seeing in Iraq where war has caused more problems. I keep telling you that love is what is missing in your societies and constant disputes or revenge are causing your wars. Look to resolve your differences in peaceful ways and pray for peace in your world. The devil and the one world people are constantly stirring up countries to war because the devil hates man and he uses wars to destroy you. By peace and prayer, you can prevent their plans, so do everything to stop wars instead of continuing them."
