

Thursday, September 1, 2005:

Jesus said: "My people, the ripples of this current destruction from Hurricane Katrina will be felt throughout parts of your country. Many people have lost their jobs and houses. Gas and oil production will see some short term shortages. Ports for receiving goods will have to go to other ports. Insurance companies and your government will shoulder some hard financial times in helping the displaced people and their jobs. Clean-up costs may hamper many local governments, and bankruptcies may harm banks in this area. Many of your financial people are acknowledging cut backs in your economy as a result of this destruction. This disaster is another opportunity for your people to assist the refugees that are going to other cities. Charity to your neighbor in dire need may be necessary to forego some of your comforts. Even your prayers are needed for the sinners in this area that have tasted of My wrath. Now it is time for the rest of your country to step forward with food, water, and finances for the housing of the unfortunate victims."

Prayer Group:

Jesus said: "My people, many of your divisions in My Church have been caused by the mason infiltration into My Church. These same masons are influencing governments into wars for profit. They are also behind homosexual movements, encouraging abortions, and trying to stop population growth. The demons are behind the evil going on, and they are using the masons to carry out their evil agendas."

Jesus said: "My people, many of your modern electronic devices are being used for communications and buying and selling. There is innocence in using these devices because the users do not realize that they could be tracked by these devices and even abused by those stealing identities and bank accounts. By forcing everyone to have a smart card in their driver's license, you are making identity theft that much more available for thieves to take advantage of. Refuse to use mandatory smart cards, and refuse to have chips put in your body, even under threat of death."

Jesus said: "My people, My Blessed Mother wants you to continue praying your rosaries even into the tribulation because prayers are constantly needed for poor sinners. Natural disasters can be mitigated with enough prayer and fasting, but there is an overflowing of sin that is much more than people are praying. Listen to My Blessed Mother's warnings in many apparition messages. If all of

these messages were taken seriously and followed, you would not have all of the sins going on today."

Jesus said: "My people, you remember when I asked My disciples to feed the hungry, clothe the naked, and give shelter to the homeless. The people in these devastated areas are becoming impatient with their helpless situations and some are becoming violent in their desperation. There are many help groups trying their best to get food and water to the homeless. This will require patience because of so many with destroyed homes and flooding in the cities. Pray for these people to be less violent and more understanding until help can be provided."

Jesus said: "My people, America consumes a third of all energy supplies and this is what has supported your higher standard of living. These recent oil and gas shortages show you how dependent America has become on energy for driving your cars and the electricity that requires fuel to make. Your whole energy usage will be examined more closely as you seek a better alternative fuel to oil. The oil companies have thwarted large scale fuel alternatives to gain more money for themselves. They are making large profits on the increased prices of gas and oil. This storm has shown you how vulnerable your fuel supplies have become."

Jesus said: "My people, your people could easily start fighting over short supplies of gas because it could threaten people's livelihoods or getting to work. Put this on a global scale and you could see potential wars over oil supplies and gas refineries. Pray that these temporary shortages do not get out of hand, or you could see martial law put in place to keep order. Instead of being selfish to gain more gas, America needs to conserve and be more practical in dealing with this gas shortage."

Jesus said: "My people of America, you are used to having everything you want, but when this disaster occurred, you cannot deal with losing everything. These are lessons for you now because in the tribulation you will also be stripped of everything and you will have to depend on Me to provide for you. Enjoy what you have now because your fuel usage will decrease by necessity, and you will see lower standards of living. Live a simpler life now to prepare yourself for what lies ahead in your future."

Friday, September 2, 2005:

Jesus said: "My people, you need to understand that you are sinners and you need to change your ways of rationalizing your sins, and stop thinking that you do not

need to go to Confession. If you commit sins as everyone does, then you need to come to Me for forgiveness in the absolution of the priest, even for venial sins. The conversion process of working toward perfection means that you need to change your bad habits. Analyze your most frequent and serious sin and that is the habit that you should work on breaking. You may have lust for beautiful women or handsome men, so you need to look away and call on My Name in your temptations. You may desire to watch too much television and waste your time. That is why you must limit your time of watching to less than one hour. You may desire drinking alcohol, taking drugs, or smoking, but again work to avoid these addictions by getting help and realize your dependency and how substance abuse is controlling you. You may love to spend hours on the computer using the internet for pornography, gambling, chat rooms, or excessive time on games. All of these things could have a control over your mind and heart, and you should recognize your sins and addictions. Work to remove any occasions of sin and any substances that are controlling your life. Only by frequent Confession can you cleanse your soul and have the strength of My grace to fight your temptations. The more you sin, the harder it is to avoid committing further sin. Do not become depressed over your weaknesses, or give up, but see that with My help I can give you the grace to overcome your bad habits. You can only stop these sinful lifestyles by changing your thinking and your actions, so give up your greed for pleasure and think more how to love Me and love your neighbor. By working the best you can to follow My Commandments and My ways, then you will be on the right road to heaven."

Jesus said: "My people, at the time of My death this was the hour that Satan and the demons were given for evil to appear victorious for a brief time. This was the time when darkness and great earthquakes struck the earth, but on Easter morning I rose from the dead and Light was returned to the earth as My disciples spread My Word all over the earth. This vision of broken glass and earthquakes is a parallel when I will again allow evil to have its reign for a brief time. The hour of evil will also be associated with many earthquakes of significant size so you will know it as a sign of the coming evil in the tribulation. Natural disasters in hurricanes, tornadoes, fires, floods, droughts, earthquakes, and volcanic action will bring America to its knees. I will allow you to be pummeled by these disasters for your sins,

and I will allow the evil ones to take over your country in preparation for the declaration of the Antichrist into power. See that all of these rapid events of disasters are the signs of the coming tribulation when the Antichrist will be allowed to rule for three and one-half years. Then just as I came victorious at My Resurrection, so I will come on the clouds to defeat all of the evil ones with My Great Chastisement. Rejoice because My victory will then usher in a great Era of Peace for all of My faithful."

Saturday, September 3, 2005:

Jesus said: "My people, you would rather be judged by My love of mercy than man's harsh laws with no mercy. Your justice system is corrupt between your lawyers and the judges that make deals based on money and not the law. When man's laws are in conflict with My laws, now you know how corrupt your justice system is. You have laws allowing abortion, and you violate My Commandment against killing. You have laws allowing same sex marriage, but this violates My law of marriage that is only for a man and a woman. You have laws allowing pornography, but this encourages lust in its most evil form. You have new laws allowing any work on Sundays in violation of My law to keep the Sabbath holy with no servile work. Many of your laws favor pleasure and money instead of acknowledging My place in your lives. Many couples live in adultery or fornication instead of following My Commandment against adultery. Man follows the letter of his corrupt laws, but I look at the intent in your heart for every action. You think My laws and My chastisements of natural disasters are unfair, but it is your corrupt laws and immorality against My laws that are unfair. The more that you continue in your wanton sin, the more destruction that you will be bringing down upon yourselves."

Jesus said: "My people, today you can see desperate people being evacuated from New Orleans in buses to cities that are willing to help the homeless. Everyone's heart goes out to provide food, water, and shelter for the hurricane victims. This is a good help, but there will come again a time of control in the tribulation where there will be evacuations of a different kind. The troops today are providing food and water, and law and order for looters. In the future there will be troops coming to everyone's door without a chip in the body and they will be trying to force mandatory chips in the body. Those, who are found at their homes and refuse to take chips in the body, will be taken by buses to detention centers where

many will be killed for not going along with the new world order. For those, who do not want to go to these detention centers, I am providing refuges of protection from the evil ones. When you see a world famine, a division in My Church, and forced chips in the body, you are to call on Me and I will have your guardian angel lead you with a physical sign to the nearest refuge. If it means that you are to leave everything behind, it is better to be protected and provided for by Me than facing possible torture and death in the detention centers. Do not delay in your leaving, or you may face disaster much like those in New Orleans who did not evacuate before the storm hit. Pray for My help and grace to sustain you against the evil ones in the coming events."

Sunday, September 4, 2005:

Jesus said: "My people, in the vision you are seeing the dark side of the hill without sunlight which represents the people without the Light of God in their hearts. Today's Gospel speaks about approaching those committing scandal in sin to warn them of their errors. You are all called to be evangelists to bring My joy and love into the hearts and souls that are dark with sin. You know that where two or more are gathered in prayer, there I am in your midst. If you have fulfilled your responsibility to warn sinners, and still they do not change, then they will expect My punishment through such natural disasters as this latest hurricane. Many homosexual and decadence events had to be cancelled, so this should be a message to those who defy My laws in front of My face. Places of sin can expect more disasters to fall on them because they are not repenting of their sins. When the balance of sin and prayer are so weighed down with sin, then you can expect My punishment on that area. I am merciful, but wanton sin demands My justice."

Monday, September 5, 2005: (Labor Day)

Jesus said: "My people, ever since Adam and Eve were cast out of the Garden, everyone has had to work by the sweat of their brow to make a living. In America you are fortunate to have access to an education and enough jobs to support your families. It is becoming a little more difficult to obtain good paying factory jobs because many of them are being transferred to places of cheaper labor. Pray for all families that they be helped in their daily struggles to keep jobs for their income. Cheaper jobs and increasing fuel costs will further decrease your standard

of living, but you still are much better off than other nations. You should also be giving Me thanks this day for all that your nation has received from Me in your gifts of talents and resources for your jobs. Be grateful to each other because you provide the goods and services for your survival."

Jesus said: "My people, I want to ask you tonight: If you had your Warning experience of seeing your whole life before you, what would you change to put yourself on a closer road to perfection? The second question is: What is stopping you now from making these changes in your life? Deep down in your heart you know that you could live your life differently if you chose to give up some of your pleasures and comforts. Many times giving up your money and your possessions is what is holding you back. Once you experience this white light of coming into My presence, you will realize how futile it is to try and hang on to the things of this world. You will see pure love in Me and you will be seeking My forgiveness of your sins, and the forgiveness of others whom you may have hurt. It is this knowledge of your judgment and the realization that heaven and heavenly things are much more valuable than earthly things, that will change your whole life's outlook. Then you will desire to share your wealth more with others and you will trust more in Me than your worldly wealth. My faithful also have My Word of the Gospel to share with others as you work to convert their souls. You may have talents and healing gifts as well which you will be given discernment when to use in order to serve Me in your actions. Some gifts may be latent right now, but at the proper moment I will use all of your gifts for My greater glory. Focus on doing the best that you can now to lead a holy life as well as using your gifts to save souls. It is more valuable to heal souls in the Spirit than to just heal physical ailments."

Tuesday, September 6, 2005:

Jesus said: "My people, each day you go through the stresses of life in your job, your bills, and all of the troubles of your family. At times you can get discouraged and even overwhelmed by damage to your car or homes, as in storms or major accidents. Other times medical bills and operations can cause you setbacks. Through all of the difficulties and stresses in life, you can always call on My help and I am there for you. You will never be tested beyond your endurance. Even spiritually, no matter how many or how serious your sins, I am always ready to forgive

you. When I died for all of your sins, I paid the price with My Blood Sacrifice. I have given you hope also by My Resurrection so My faithful can be assured one day of being with Me in heaven with your own resurrected body. Being with Me in heaven should be your goal, no matter what you must suffer here on earth. Your sufferings here are all shared in My death and Resurrection."

Jesus said: "My people, man has been experimenting with more powerful blue lasers to use as weapons and to hold plasma balls as a source of energy for everyone. Man does not realize the danger of working with fusion and the energy that could be released from one accidental formation of plasma. There will be a terrible accident or terrorist use of this power that could kill thousands of people in a city. It would be better not to experiment with forces that you do not know the consequences. Many of your nuclear plants are also capable of accidental melt downs. Pray that these plants and your experiments do not get out of hand. Radioactive releases could kill many in a short radius."

Wednesday, September 7, 2005:

Jesus said: "My people, the Gospel of St. Luke shows this same contrast between the rich and the poor in his description of the beatitudes. On one side he talks about how the poor are suffering in their need. He blesses the hungry and those weeping now who in the future will be satisfied. Also those, who are proclaiming My Word, will be persecuted by men, but will be rewarded in heaven. Then he lists the woes to the rich who are comfortable today, but will suffer tomorrow. Also those, who have food today, will be hungry tomorrow. In New Orleans the rich are being humbled in their losses even while the poor are still suffering. Those, who had food, are now hungry and thirsty for fresh water. Those, who were reveling in their orgies, are now humbled by floods and destruction. The contrasts of the Gospel of St. Luke are very visible in the wake of this hurricane. These people have mocked My Commandments with their immorality, but now My chastisement has laid them low. This is what happens to the man who makes earthly comforts and pleasures his gods. These woes are befalling these sinners just as was prophesied for all who violate My laws."

Jesus said: "My people, the destruction from Hurricane Katrina was just the beginning of your troubles. Now your people are dying from contact with the contaminated water. Once the levees are repaired, the water that will be pumped

into the lakes, rivers, and the ocean will contaminate many of your fishing and shrimp areas. It will take years for your seafood areas to recover from this one disaster. It will be difficult to cleanse the city of all the contamination, even when the water can be removed. The damage is so extensive that it will be difficult to find enough money to rebuild this city. If men return this city to the evil it had before, you could again see another hurricane destroy this city. I condemned several towns for their evil ways in My day, and to this day they are nothing but ruins. Learn from history and repent of your sins, or you will see your cities turned to dust and rubble like the cities that I condemned."

Thursday, September 8, 2005: (Nativity of the Blessed Virgin Mary)

Jesus said: "My people, this vision of freshly harvested wheat represents also the fruit of the womb of St. Ann giving birth to My Blessed Mother. The Gospel reading shows the genealogy of St. Joseph and My Blessed Mother back through the generations to King David as was foretold by the prophets. My Church celebrates My Blessed Mother's Immaculate Conception on December 8th and her birthday nine months later. My Blessed Mother was My most perfect creation as the Ark of the Covenant for My birth. She was prepared from all time for this moment that you are celebrating. Rejoice because you are celebrating the birth of your Heavenly Mother also. With her mantle of protection she is protecting all of her children. All of those, who wear her brown scapular and pray her rosary daily, are united with her Immaculate Heart as well."

Thursday, September 8, 2005:

Prayer Group:

Jesus said: "My people, many are heeding the warning to not walk through these contaminated waters. The waters are being pumped out of New Orleans after the levees were crudely repaired. It will take some studying to determine whether this city can be rebuilt. Those helping the evacuees should be thanked for doing a difficult task. You should pray and send donations to those who are providing the food, water, and shelter for the victims of this hurricane. Be thankful also for what you have by sharing what you can with these unfortunate people."

Jesus said: "My people, it has been difficult to get supplies to these flood victims and it has been even more hazardous because of the fires and bands of looters. Those

shooting at the relief helpers have necessitated precious time to secure this area from crime. Many are complaining that help did not come fast enough, but no plans were made to deal with such a catastrophe. Instead of pointing blame, it is more helpful to continue helping the victims to find their family members and provide the means for a new life going forward."

Jesus said: "My people, there have been many unheard heroes that have been providing life giving health aid to the sick and injured. There also has been a world wide effort from various nations to help America in this disaster. In the wake of this destruction, you can see many Good Samaritans stepping forth to help their neighbor. This outpouring of help is a blessing that is coming forth from all parts of your country. Many Americans are not used to losing everything, but it is uplifting to see everyone willing to share what they can for the needy families."

Jesus said: "My people of America, every time that you view this disaster, it is hard to imagine the scope and size of the area that was devastated. Even as you try to clean up this destruction, think of how this is related to your abortions, your living together in fornication without marriage, and those committing homosexual acts. Unless man sees the relationship between sin and the punishment by God, he will be repeating his sins and facing My wrath again. The wages of sin are death and destruction, but those, who follow My ways, will be greatly rewarded both on earth and in heaven."

Jesus said: "My people, no matter how much man tries to protect himself from natural disasters, there is always something that he cannot plan for. You are vulnerable to all kinds of disasters and you prepare the best that you can. The most important disaster is the loss of your soul, and not just your possessions. Your possessions will pass away, but your soul lives on forever. Call on My help to protect yourselves from the devil's temptations. By prayer and My sacraments, you will have all of the protection that you will need. Trust in Me every day and your consecration will provide for all of your needs."

Jesus said: "My people, if you are faced with an illness or operation of short duration, it is easier to bear when you know things will return to normal. If you are faced with a chronic problem or terminal cancer, you know things will not return to normal. This is what the people in New Orleans are facing and it will be hard to bear for many of the victims. These people need to be

offered help for the long term in jobs, homes, and places of their own. The poor are facing even harder problems of how to re-establish their help from welfare programs. The children also need hope in new schools and colleges so they can have a future to live for. Reach out in any way that you can because these people will need long term help until they can get back on their feet financially."

Jesus said: "My people, you have witnessed the power of nature and the damage that can happen. But you also have seen the beauty of mountains and streams on your vacations. During the course of life you will see good times and bad times. Be prepared, My people, because you can expect to be tested in this life. If life was always good and easy, it would be difficult to know if your faith was real. By testing you can be made strong physically and spiritually, and not be dependent on only your own means. Your faith in Me will bring you through any trials that you will face."

Friday, September 9, 2005: (Camiel Gysel's funeral Mass)

Camiel said: "I am happy to see all of you here, and I am sorry that I had to leave all of you so suddenly. I love all of you so much and I am saddened that I could not have some parting words with you. I ask forgiveness for anyone that I may have hurt, and I forgive those who have hurt my feelings. I love my family and my sweet Elaine. I will be watching over all of you and I ask you to pray for me."

Jesus said: "My people, this blank sign represents the signs of the times that the people are not reading. They can read physical signs, but they are not seeing the spiritual signs of the end times all around them. You have seen September 11th, the recent tsunami destruction, and now the Hurricane Katrina damage, and still the people do not understand My wrath coming because of your unrepentant sins. I have told you that you would see serious natural disasters and terrorism that would bring America to its knees. Many are content to send a donation and go on with their lives without seeing the need to stop abortions, stop heterosexual and homosexual sins, and stop pornography. America cannot go on with your repetitive sins and think that I will not punish you and hold you accountable. Your new large vehicles are your pride and joy, but now with high gas prices, it is almost too expensive to afford to drive them. This is the irony of how you have put your possessions before Me and now these things, that you treasure, are becoming a liability to your finances. Even

heating your large new homes will become a burdensome expense. America is being humbled in many ways that you did not think possible, because your jobs and blessings are being taken away from you. Turn back to prayer and repent of your sins. Put Me back as your first priority because all of the things that you depended upon are passing away."

Saturday, September 10, 2005:

Jesus said: "My people, in the Gospel I spoke of the person of faith who builds a proper foundation that is well rooted in Me. A house built on rock will be able to withstand the storms of life. Just as you saw further construction of the first floor, it is not enough just to build a foundation, but you must live your faith every day in every action. You may have been brought up well by your parents and your teachers in elementary school, but now you must nurture your faith with daily prayer and good deeds for your neighbor. You must open the door of your heart to Me and by your own free will choose to love Me in all that you do. The evil person does not choose to lay a good foundation in faith and builds their house on the sand of their own means. Then when the storms of life lash at that person, their house is swept away in the flood. I also compared people's hearts to good and bad trees. It is by a person's fruits of deeds that you will be able to recognize if they are good or evil. A good person will do good deeds for others and share what they have just as a good tree can only bear good fruit. An evil person will only do evil deeds from their heart of evil just as a bad tree will only give bad fruit. This does not mean that you are condemned in your sins. But you can repent of your sins in Confession and seek My forgiveness. If you truly want to be a good person and bear good fruit, then you must change your selfish and sinful lifestyles. This means in order to convert your life, you must choose to love Me and your neighbor, and root out all of your vices and bad habits. It is not easy to convert your lives, but I am waiting patiently for you to love Me and ask My help to change your ways to My ways."

Jesus said: "My people, the hour is getting late and the time of tribulation is drawing near. This sundial in the vision is recording a late hour in the day, and it also represents the time of the darkness of evil which will be spreading all over the earth with the coming into power of the Antichrist. See that now more than ever it is time to prepare physically and spiritually for the end times. Preparations for home Masses, refuge sites, and water and

food, will be helpful when I will protect My faithful and multiply your food and water. Have trust and hope in My help when you will be protected by My angels. Refuse to take chips in the body and trust in Me to provide for your needs. Know that the Antichrist's reign will be brief before I come in victory to vanquish all of the evil ones to hell. I will renew the earth from man's destruction and there will be a new heavens and a new earth in My Era of Peace. Do not lose hope in despair, even when it may seem hopeless because I will put an end to this evil. You will be persecuted and tested for My Name's sake, but My faithful remnant will be rewarded for their faithfulness."

Sunday, September 11, 2005:

Jesus said: "My people, My message of the Gospel is to be always forgiving your neighbor for any debts or faults that have been committed against you or your loved ones. The other request is to forgive everyone, even the hard cases of problem people or your enemies. There may be some in your relatives that have drinking or drug problems as indicated in seeing the beer bottles being filled. Some may resent their constant drinking and financial problems that they cause. Drinking and drugs have also broken many marriages. Even still you are called to love everyone and forgive everyone. It is not easy to go against your human sort of justice, but just as the owner forgave his servant's whole debt, you must do likewise in forgiving those that you dislike, or are your enemies. By forgiving even these hard cases, you will be rewarded for truly living your Christian life in practice and not just in words only."

Monday, September 12, 2005: (The Most Holy Name of the Blessed Virgin Mary)

Jesus said: "My people, you know that you can always call on Me in prayer, and when you pray to Me, you are praying to the Blessed Trinity of God. My Blessed Mother is your most important intercessor to Me because she is joined with Me in our Two Hearts. Some are a little confused in their prayers to Me directly and to Me indirectly through My Blessed Mother. You are worshiping Me in your prayers, and you are honoring My Blessed Mother in prayer as an intercessor. You know how much I love My Blessed Mother and I will always listen to her requests and petitions. That is why her rosary and devotions are very powerful. Do not let anyone say that she is not important or put down praying through her to Me. Even My faithful

can be intercessors for prayers and healing for other souls. The important thing is to remember your daily prayers whether to Me or through My Blessed Mother."

Jesus said: "My people, I am showing you these flashing lights to represent the worldly enticements of the devil to comforts and pleasures. At many carnivals and casinos you find games of chance luring people to think that they can get rich quick. Other temptations may lead you to so-called psychics and fortunetellers who call on the dark side to mislead people in telling their futures. Even further enticements call people to prostitutes, or suggestive dancers. The devil can entice you through many earthly weaknesses, but you must be strong in your faith and grace to resist them. Call on My Name to send the evil one away. Some people out of curiosity delve into New Age and the occult to try and gain power or wealth. It is when you invoke these demons that modern day obsessions or possessions can occur. Avoid these people who teach witchcraft and New Age principles. You only should worship Me and not anything else. Seek to be holy and do good deeds instead of seeking the pleasures and comforts of this world. This world and the body are passing away, but your soul lives on forever. Your soul is your most prized possession and that is why Satan is trying to steal your soul away from Me. I also am seeking souls, but I seek you out of love while the devil seeks you out of hate. I will lead you to the beauty of heaven while the devil can only lead you to the ugly flames of hell. By being spiritually strong and calling on My help, you can fight off these earthly temptations. Your soul craves heavenly things, so follow your soul's desire over your body's desire and you will be greatly rewarded in heaven."

Tuesday, September 13, 2005: (St. John Chrysostom)

Jesus said: "My people, as you look at this makeshift refuge in the vision, do not think that you will have your present comforts at your refuge. You will be very fortunate even to have a priest for Mass because good priests will be scarce. During the coming tribulation, you will be suffering your purgatory on earth as you will be in a spiritual battle against evil that you have yet to see. You will need all of your spiritual weapons as your rosary, holy water, Benedictine crosses, and your relics of the saints. If you are able to have Mass, you will see My Hosts multiply for My faithful. You will even be able to survive on Holy Communion alone. Pray that your family will endure being stripped of your material things so I can

protect your souls and feed your bodies at My refuges. It will take strong faith to deny your comforts and pleasures, and follow Me away from the Antichrist's power. Have hope and trust in Me no matter how much you will be tested to deny your faith. Worship only Me and refuse any microchips in your body."

Jesus said: "My people, you have seen the destruction and flooding that struck your Southern states and now you are seeing yet another destructive storm that will bring more havoc on America. Some were a little complacent and slow to respond to help the people of New Orleans. Others were only concerned about carrying on their old sinful lifestyles. Your people have not yet understood that it is their sins that are bringing this violent destruction upon them. This next event will leave no doubt that you are being tested with My wrath for your abortions and living in fornication. This symbol of a chapel being destroyed is an example of your not praying and how your blessings are being taken away. The cross that is left standing means that you are going to suffer dearly from continuous natural disasters. The sooner America sees your need to change your sinful lifestyles, the sooner these storms will subside."

Wednesday, September 14, 2005: (Triumph of the Cross)

Jesus said: "My people, this feast day celebrates My victory over sin and death. It was by My Blood that everyone is redeemed and washed free of their sins. You choose by your free will to follow Me or not, but it is My Blood sacrifice that has opened the gates of heaven and allows anyone to be saved. You are saved by My Blood, but you must seek My forgiveness by Confession every time you commit serious sin. If everyone is a sinner, then it is necessary to have My forgiveness before you can come to heaven. My dying on the cross and carrying My Cross is an example to all that each of you must suffer on this earth to survive and gain heaven. Just because you are a faithful believer, it does not mean that you will not suffer trials in this life. By calling on My help, I can ease your burdens. You will always be tested by the temptations of the devil, and you will have to work for a living for your family. Weakness to sin and working to provide food are consequences of Adam's original sin. So stop complaining of your daily trials because everyone has to suffer through them."

Jesus said: "My people, there are many who want to rebuild this city back to its former ways for all the port

business and fuel business that it provided. Much of the housing and its contents have been ruined with water damage and are contaminated with sewage water. Many homes would have to be leveled and built again, and the billions to rebuild would be enormous for your government or insurance companies to bail out. Once it is realized how much damage there is, many parts of this city will remain in ruins. The people of your country at some point will refuse to go into more debt to try and rebuild a city that could be flooded again. Remember what I gave you before. If these towns of prostitution, homosexual acts, and casinos are rebuilt to continue their sinful lifestyles, they will be destroyed again. Man has been defying My laws for so long, you do not see why My wrath has destroyed this town. As long as you continue in your unrepentant sins, you will continue to see My destruction befall you in natural disasters. Repent and seek My forgiveness America, or you will be no more as a nation."

Thursday, September 15, 2005: (Our Lady of Sorrows)

Jesus said: "My people, this feast day of the Sorrows of My Blessed Mother shows you both the pain I had to suffer, and the pain of My Blessed Mother watching Me die in agony. Pain and suffering are a part of everyone's life, but how you react to it can either be hurtful or beneficial. With all of your pain pills and medications, modern man has suffered less than in previous years. Sometimes you cannot avoid certain pain, but you can gain spiritual benefits by offering up your pain for your soul or the souls of others. Even those suffering from storms can offer up their losses and inconveniences of lost power for someone's soul. Many are reaching out with charity to house and supply food and water for the refugees of Katrina. Continue to pray and help the needy, for this is your Christian responsibility."

Prayer Group:

Jesus said: "My people, this latest tragedy in New Orleans has brought many people to their knees because of their sins, but still there are evil elements taking advantage of others' losses. Some even had to be shot by National Guard troops for causing unrest and killings. Many have decided to stay despite the bad water conditions. Pray that order can be restored so that the clean up could begin."

Jesus said: "My people, in the beginning of Katrina's aftermath there was a lot of finger pointing for what

seemed a slow response for help. Soon the finger pointing will go to who is going to pay for the damage. Many insurance companies are trying not to pay or only give token amounts based on water damage. The government cannot reimburse all of the losses either, or it would bankrupt your treasury. Officials are now admitting this storm has caused the largest destruction ever in dollars."

Jesus said: "My people, your economists were only estimating a small effect on your economy by Hurricane Katrina, but after seeing the job losses, slowed shipments of farm products, and extended losses of oil and gas, things are looking worse. Restoring these affected areas will take years instead of months, so financial effects are going to linger for a long time. Many are realizing how ill prepared America is for major disasters. Pray that you will not see anymore large disasters, and pray that your people will change their sinful lives."

Jesus said: "My people, you are just beginning to see signs of the rebuilding of infrastructure that will be necessary to restore power and sanitation. All of the needs for running your homes are being restored, but many homes will not be helped because they are unlivable or are gone. Displacement of people to other cities will also continue to cause problems for jobs and food. It will take a long time to restore New Orleans if it is capable of being done. Pray for these people who are struggling just to survive."

Jesus said: "My people, even as you are recovering from flooding in the south, now some are being flooded again with loss of power along your Eastern coast. This latest slow moving storm has caused more wind and water damage in another part of your country in less than two weeks. Every additional loss will add up to a devastating year for America due to natural disasters. Learn a lesson of what happens to man when he goes against My laws. While devastation is still all around you, atheists are still struggling against My Name in your Pledge of Allegiance to your flag. By these actions against prayer in the school and removal of My Commandments from your buildings, it is no wonder that you are reeling from the destruction of My wrath. Wake up America, the more you turn against Me, the more disasters will be sent against you."

Jesus said: "My people, it was your country's Supreme Court decision that legalized abortion in your land. You have let your courts make laws against My Commandments because this evil was not being voted in by the people. Now the courts again are allowing the Pledge of Allegiance

to be banned in schools. Courts also are trying to make same sex marriage legal. Your court system is unjust and out of control in basing judgments on Church and State separation which has never been established by Congress. Your courts need to change, or you will be ruled by judges and lawyers instead of by the will of the people. Pray to keep My Name sacred in your laws and traditions or worse things will befall you."

Jesus said: "My people, you continue to see millions of abortions in your country because of your misguided Supreme Court decision. It is these angels that are continuing to witness your murdering of My little ones in the womb. What gives you the authority to take these lives against My Fifth Commandment? If America continues down this path of moral decadence, then you are writing your own epitaph on your tombstone. Your unrepentant sins will call down more death and destruction that you have never seen. Change your ways America before I will remove you from the face of this earth just as in Noah's day."

Friday, September 16, 2005:

Jesus said: "My people, this vision of the beauty of nature is a chance to view the earth as a haven for all of mankind in supporting your life. As beautiful as My creation is, it is still finite and man needs to be a better caretaker, instead of destroying it with your pollution. Even more, man has changed many things with his so-called better ideas than My perfection. All of your creations are against nature and you are affecting the balance of nature with all of your DNA manipulations. See that it is more important to follow what I have given you for your crops instead of your seedless hybrids. Nature has a way of cleansing what is weak and unnatural, so let your environment heal itself from your mischief. Because man has changed his environment so much, I will have to renew creation once again when I come in glory."

Jesus said: "My people, many people drink liquor and some drink a little too much so that they are snarled into an addiction which is hard to break. Your storms also are becoming more violent in your hurricanes and your tornadoes. Your scientists have drawn the conclusion that the warmer the ocean water is, the higher the chance is for more violent weather. The oceans are now 1EF warmer than decades earlier and as a result, a higher percentage of Category 4 and 5 hurricanes are striking land. The more violent the storm in the speed of circulation, the more devastation that will occur. Even if everyone is not in

agreement about global warming, they have to see that the statistics draw a strong connection to the severity of the storms and the increase in the temperature of the water. Man is having a large effect on the earth by his pollution and burning of fossil fuels. Pray My people that this gas price problem will wake you up to how serious it is to cut back on the use of gas and oil. Your goal is to use renewable sources of energy so you can eliminate so many sources of pollution. Now is the time to control your pollution so your weather does not control you."

Saturday, September 17, 2005: (St. Robert Bellarmine)

Jesus said: "My people, very few people in remote areas are the only ones who are not acquainted with the Bible's existence. It is the next step to desire to read My Word, especially in My Gospels. Just as in My day, some hear My Word, but there are various responses to My parables. Some hear the parables, but do not understand the hidden meaning. Others may hear and read the meaning of My words, but they do not want to change their lifestyles and give up their pleasures and comforts. Still others may try for a while to follow Me, but they give up because My life of holiness is too difficult. My faithful remnant embrace My Word of love with joy, and by perseverance they struggle through life enriching their soul and helping others. Following Me in this life will take some endurance, but with My graces, I will help you to carry on. Pray for perseverance that you will one day come to My Light at the end of the tunnel."

(Ernest & Susan Bello Wedding) Jesus said: "My people, marriage is an important step in life, and it is good to be rooted in your faith so you do not take both commitments lightly. Remember that when a man and a woman share their vows of marriage, they are also making this promise with Me as a part of their marriage. The grace of this sacrament will strengthen each spouse through the trials and anxieties of life. You know that there will be good times and bad times, but both spouses have to give of each other to have unity in the marriage. Continue to ask for blessings on your family and any children that come forth. Pray for peace and unity also for all the extended family. The bride and groom need to see examples of love around them to help them through their own marriage. Marriage is a joyful time and a beautiful beginning of new life in the spirit of sharing."

Sunday, September 18, 2005:

Jesus said: "My people, I am showing you this antique dresser because man tends to be set in his ways of justice without much mercy. The mirror is to look at yourself and reflect on today's Gospel. Are you giving your employer a fair amount of work for your hours, and are you using your talents to the best extent that you can? The other example in the Gospel concerns how generous you could be. You may be expected to help your family and friends, but how much do you reach out to help strangers and the poor? Even sending aid to the hurricane victims is a good place to be generous. It is better to be focused more on helping others than being envious of others, or selfish in not sharing. Once your needs are met, then you can share in helping others with their necessities. Be generous with your donations and do not just give token amounts."

Monday, September 19, 2005: (St. Januarius)

Jesus said: "My people, the Gospel speaks of putting My Light in a place where it can be seen and heard. I was encouraging the people to spread My Word of truth which is My Light which defies the darkness of evil. In this vision I am showing you how fresh water will be a blessing to find. Your wells and reservoirs will become contaminated with pollutants. Your rivers and lakes already contain coliform bacteria, mercury, and pesticides. Purifying your water will become more expensive and scarce to find. In addition to storing some food, I have asked My people at the refuges to store some water, or have wells prepared for the tribulation."

Jesus said: "My people, this vision of counting refers to two things. The one is counting the costs of your total consecration to Me, and the other deals with a counting of sins against prayers. As a person contemplates giving everything over to Me, they must count the costs for what they must give up to truly let go of their earthly desires. In America you have grown accustomed to having most everything that you want in homes, cars, and a good living. Your pleasures and comforts have seduced you in the ways of the world. Total consecration means that you are willing to give over to Me all that you own and love, whether it be possessions or loved ones. All of My saints took on this complete consecration of their will over to My Divine Will. This is a life long struggle which requires My grace to assist you on your path to sainthood. During the tribulation and even in these hurricanes, you are being stripped of things. The other counting of sins against prayers and good deeds represents how nations deal with My

justice as you are weighing good against evil. America needs to repent and change your sinful lives because your sins are weighing heavily against your good deeds. Your abortions, sins of fornication, sins of homosexual acts, and your manipulations of cloning and euthanasia are getting worse instead of improving. Many of your natural disasters are bringing you to your knees. So choose wisely, America, whether you want to change or call on more of My wrath."

Tuesday, September 20, 2005:

Jesus said: "My people, establishing treatment plants takes a while to establish a balance of bacteria to purify the water. These plants were inundated with water in New Orleans and raw sewage spread throughout the city. Now to purify all of this water it will take a long time, even being flushed by the river. Many lakes will take even longer to recover. Water can temporarily be shipped in, but draining the city and providing fresh water again will be a long job. Just when the people wanted to return, further storms may threaten the Gulf again. You have hurricanes every year, but this season has produced an unusual number of storms that have yet to stop. America continues to be humbled by natural disasters and you refuse to see that they are related to your cesspool of sin. Just as you see filth in the water, you also are seeing much spiritual filth among your people. Your souls need to be purified more than your water."

Wednesday, September 21, 2005: (St. Matthew)

Jesus said: "My dear son, this feast day is all about the calling of a tax collector, Matthew, to be one of My apostles. Many souls that were leading earthly lives have been called to be saints in following Me. They were called on to give up everything in order to serve Me. You, yourself, were leading a good life when you became addicted to earthly ways in spending so much time on computer programming. Once My Blessed Mother and I called you away from this control by the computer, now you were ready for Me to mold you for your current mission. I cannot work with any soul until they give their will over to My service. Once you give Me your 'yes', then you can follow My plan for your life. You have had a great love for Me in My Eucharist for all of the many years that you came to daily Mass. Now your love has blossomed further in visiting Me most every day in Adoration of My Blessed Sacrament. By being close to Me and sharing My messages,

you are reaching out to evangelize souls when sin is so prevalent in your society. Continue to be faithful to Me in your mission and work every day to spread My Word throughout the world."

Jesus said: "My people, now that the water has been pumped out of New Orleans, it will be possible to see about any more dead bodies. The death toll continues to rise in Louisiana as more investigation continues from house to house. That is the meaning of the many crosses in a cemetery in the vision. Still another major hurricane is looming in the Gulf as more oil platforms and gasoline refineries will be at risk. Time will tell how disastrous Hurricane Rita will be for the Gulf coast. The billions of dollars of damage from hurricanes has already set a record for one year. The number of storms for the year will also set a new record. Your scientists are forecasting higher numbers and more violent storms for years to come. Living on the Southern coastline will be more and more expensive and more dangerous to live. Insurance companies will stop insuring these areas, and even your Treasury will not be able to sustain the magnitude of the coming destruction. Many of these places of sin and drugs can be found in this region of your country, so your natural disasters are cleansing this sin with My chastisements."

Thursday, September 22, 2005:

Jesus said: "My people, this vision shows the United States getting pummeled by storm after storm with no let up. I have told you, America, many times how I would bring you to your knees, and you will be begging Me to stop this destruction. Yet, by your abortions, nude dancers, fornication, gay parades, and pornography, you continue to call down My wrath and you do not even realize how much you are offending Me. Many times I let the Israelites get destroyed by their neighbors because they worshiped idols and other gods. Now, it is America's turn to learn this lesson the hard way of either repenting, or suffer more devastation. How long is it going to take your people to realize that you are bringing this destruction on yourselves because of your wanton sins? You have seen Me destroy the people of Noah's day and the people of Sodom and Gomorrah, and still you are blind to this reality. Not only will you suffer destruction, but you will see a takeover of your country if you do not change your lives. You have seen the Babylonian Exile when Israel was taken over, and it can happen here in America where the masons will take over also. Learn from history because every

nation, that has turned their back on Me, has been destroyed."

Prayer Group:

Jesus said: "My people, I have given messages before about the four angels controlling the weather of the earth. Now you are seeing one of these angels being given the authority by Me to allow these storms to strike America because of your unrepentant sins. Even in New Orleans you have mocked My destruction from Hurricane Katrina by continuing with your nude dancers, gay parades, and lifestyles that I have condemned other civilizations for. This latest storm is again revisiting the same general area of your sins. You will see continual storms of destruction until you change your sinful habits and lifestyles."

Jesus said: "My people of America, you are trying to carry on life as usual, but even your farmers will be going bankrupt if they cannot ship their produce overseas. They, as other marginal industries, will also have to bear any increased costs from gasoline or other transportation increases. Your dependence on gasoline and oil may turn your farmers into making alcohol to run their vehicles. Shortages of fuel and artificially high prices could cause many problems in your economy. Pray that your people change your hearts or worse things will befall you."

Jesus said: "My people, many of your sports teams are being inconvenienced by some of the hurricane damage. Some are complaining of their new travel problems. Many of your people spend too much time on sports and very little time for prayer. These events will be upsetting to these fans, but they still do not realize that they need to worship Me before any other idols that mean more to them than Me. I invite everyone to love Me, but still many are rejecting Me for earthly desires."

Jesus said: "My people, many people have been leaving everything behind and are evacuating their cities that are in the path of this Hurricane Rita. Some may return to damaged property, but by leaving they are saving their lives. This second storm has changed people's mentality after seeing the devastation from Hurricane Katrina and the effect on those who did not leave soon enough. If you can learn from your mistakes in earthly things, then learn also from your sinful mistakes as well. Cleansing your souls is far more important than your physical life. Your body dies, but your soul is immortal."

Jesus said: "My people, when it is hot and humid in the summer time, you want to cool your homes with air conditioning. In these Southern states the heat is

difficult to bear. When these storms occur, many power outages make this comfort impossible. Here is another use of your fuels for personal comfort. Your fuels and electricity are very vulnerable as you are witnessing. Many are being forced to endure trials in the storm ravaged areas. See in all of this destruction that life in your society needs to improve spiritually if you want to hold back My destructive hand. Life is going to change whether your people want it or not."

Jesus said: "My people, you are so used to driving through these dangerous structures that you do not think what it would be like without them available. These storms have destroyed some bridges that will take a long time to repair. Again you are seeing how vulnerable many of your infrastructures are to natural disasters. Some damaged cities will take years to be restored back to their original condition. Remember what I have stressed to you about how I would revisit your destruction if you rebuild with the intention of continuing your sinful lifestyles. Listen to My Word and read the signs of these chastisements if you want to see your cities left standing."

Jesus said: "My people, you can help the people in the path of this next hurricane by getting on your knees and praying for their safety and for their physical needs. Also pray for their spiritual needs as well because their hearts need to be changed to love Me more. If enough prayer is forthcoming, I could stay the hand of My wrath of justice. Do not just pray a token prayer, but make a vigil of prayer for these people who are your countrymen."

Friday, September 23, 2005: (St. Pio)

Jesus said: "My people, in the Gospel I kept emphasizing to My apostles who I really was. St. Peter was given that I was the Christ, the Son of the living God. Even more I wanted them and everyone to know that I was the Messiah sent by God to die for the sins of all of mankind. My death by crucifixion was the purpose that I became a man so My Blood sacrifice would bring atonement for My Father for all of your sins. This is why it is important to have a large crucifix on the altar so you can always remember My love for you, and My mission as the New Adam. My Most Precious Blood was a worthy sacrifice to wash away your sins and open the gates of heaven. After this life, you will appreciate My gift of life even more. The mission of every Christian is to spread the Good News of My death and Resurrection."

Friday, September 23, 2005:

Jesus said: "My people of America, many are starting to ask how your government is going to be able to pay for the hundreds of billions of dollars that it will take to rebuild your Southern cities. At first some wanted to reclaim money from passed legislation that included \$24 billion worth of pet projects. These were not even close to closing the gap and no one wanted to give up their money. Critics of the hundreds of billions of dollars spent on wars like Iraq will start to get more of a hearing as people are tired of this spent money and troops with no benefit to America. People of America will much rather spend their money to help their own instead of wasting money on wars. You have refused to stop your incessant wars that only give profits to the rich. As natural disasters threaten your economy, you will be brought face to face with the futility of war which destroys, and the contrast to rebuilding your infrastructures that are needed more. Pray to stop your wars, and work more to help the poor and the homeless which are a much better use of your wealth."

Saturday, September 24, 2005:

Jesus said: "My people, without fuel to make electricity and fuel to run your cars, much of your country would come to a standstill. Your energy sources and problems supplying fuel to your stations have been worsened by these latest hurricanes. You are seeing how vulnerable your oil rigs and refineries are in the Gulf to repeated storms. As prices rise and shortages occur for gasoline and oil products, there will be some stronger looks at alternative sources and not just token amounts. You may import some refined products for your immediate needs, but you may be facing repeated damage with each hurricane season. As your people complain about higher gas and heating prices, your government will have to have a better policy than emergency oil reserves. The terrorists also are heeding your current energy situation and may start targeting refineries and fuel depots. Your people will have to make some hard choices around how you travel and how your budgets have to change. You will also have to start helping each other more just to have your necessities."

Jesus said: "My people, as you get older in life, you look behind you and you wonder where all the years went. In the morning when you are washing up, you notice the gray hairs turning into white hairs, or wrinkles appearing where

they did not appear before. This recognition of your aging appearance and your inability to do things as you used to is a way of waking you up to how short your time is on this earth. Seeing your possible death on the horizon is a wake-up call to be sure that you are always ready in your soul to meet Me at your judgment. You may never be totally worthy of coming to heaven, but by calling Me to go before you, I will prepare a place for you to dwell in My Kingdom. It does not matter how old you become, how rich you are, or how many accomplishments you have had. It all comes down to how much did you love Me during your life and how much you loved your neighbor in helping them. By not being selfish with your time or money, and by reaching out every day to help others, you will be storing up treasures in heaven that are far more valuable than earthly things. If you have lived your life in love, then you have nothing to fear in your next life with Me. Better to be selfless in giving of yourself to others than trying to hold back something for yourself that you cannot take past the grave."

Sunday, September 25, 2005:

Jesus said: "My people, in today's Gospel the two sons represent all sinners. Some are willing to admit that they are sinners, but it is difficult to admit that you have made mistakes or have violated My Commandments. Others may claim to be My followers, but they are only giving Me lip service. Saying that you are a sinner is one thing, but that is only the first step because now you need to seek My forgiveness in Confession. This pool of water in the vision represents how you need to have your sins cleansed as at Baptism. When you are forgiven with absolution in Confession, then your sins are cleansed and you are filled with My grace once again. You see many come to Holy Communion on Sunday, but very few come to Confession to have their sins forgiven. Why is it that so few take advantage of My sacrament of Reconciliation? Could it be that people think that they truly do not commit any mortal sins, or are they rationalizing their sins? Is it that they do not want to take the time to come to the priest? What are your priorities of time to have your soul cleansed to be alive in My grace? When you come to your judgment, are you going to tell Me that you did not have time to come to Confession? I tell you, those, who do not repent of their sins, do not know Me, and I will send these accursed to the fires of hell for worshiping the world more than Me. If you truly are My followers, then you will come to Me for

forgiveness. My followers also should reach out to help save other souls from their sins. You cannot force their will to love Me, but you can give them good example and warn them of the consequences of not repenting that could lead them to hell. Love one another and love Me. This is the greatest of My Commandments. Repent now before you are called to the grave, when it will be too late to be saved."

Monday, September 26, 2005: (St. Cosmas and St. Damian)

Jesus said: "My people, pride is a tool of the devil and some people strive to be better than others. Do not be envious of other people's wealth, possessions, or fame. These are only earthly things and they will not bring you closer to heaven. Do not despair also in losses or not being well off in this world. I have given each of you unique talents, and you are to use them for your survival and for helping others. Do not try to overcharge for your services for more gain, but be fair in your dealings with others. I have given each of you a plan for your life so you can use your talents to the best that you can do. There will be some with greater skills at things than you, so just accept what you have and carry on. Do not worry about your needs because I will provide for you as I provide even for the birds of the air. You are to love Me and your neighbor by helping each other without worry about compensation in this life. All of your good deeds will store real treasure in heaven."

Jesus said: "My people, I am showing you this modest home because this is all that you really need for a shelter. Most people are seeing how fortunate they are to have homes that have not been ravaged by floods, hurricanes, and tornadoes. I have warned people in the past that it is safer to not live near oceans, rivers, or earthquake prone areas. Even still it is the right thing to help these refugees of the hurricanes with what you can afford to give. Your home is your abode, and you should also be thankful for what you have and that I have spared you any catastrophic destruction. Many parents do what they can to help their children get started in their homes with a down payment on the house. Just as you help your children with schooling and wedding expenses, a house can be quite expensive at the outset with only modest incomes in the beginning. The children on the receiving end of this generosity should be willing to thank their parents and help them in their old age. By helping each other, both parents and children can have a peaceful home without worry."

Tuesday, September 27, 2005:

Jesus said: "My people, today's Gospel (Luke 9:51-56) showed how the Samaritans would not accept Me because I was acknowledging the Temple in Jerusalem instead of their temple in Mount Garizim. Because of this rejection of Me, My disciples wanted Me to call down fire upon the Samaritans. I have talked to you many times about how imperfect man's justice is, and My ways are not your ways. Any condemnation comes from My justice and not by man's desire. In other cities I did condemn them for their not repenting of their sins. (Matt. 11:21-24) "Woe to thee Corozain! Woe to thee, Bethsaida! For if in Tyre and Sidon had been worked the miracles that have been worked in you, they would have repented long ago in sackcloth and ashes. But I tell you, it will be more tolerable for Tyre and Sidon on the day of judgment than for you. And thou Capharnaum, shalt thou be exalted to heaven? Thou shalt be thrust down to hell!" Let this lesson also be for America because you also are not repenting of your sins, even when you have My sacrament of Reconciliation fully available to you. My desire is for everyone to be saved in loving Me, but it is man's free will that must choose to love Me. If you do not repent of your sins and you mock My Name by removing it from your buildings and your documents, then you will be calling down My wrath of justice on your country in natural disasters."

Jesus said: "My people, you have witnessed in the last few decades an unusual intensification of your weather events and your earthquakes and volcanoes. Some claim that this is occurring because of global warming and the hotter ocean temperature allows these storms to grow bigger and with more violence. There is another factor which many people are unaware of. Several countries including Russia and the United States have been known to use weather making machines which are known to control jet streams, intensify storms, cause droughts, and even earthquakes. These machines direct microwaves of unusual force to any place on the earth that is desired. It is a difficult question to answer why they are being used to create terrible storms, but some feel that if enough disasters can be formed, it would allow for easier takeovers under the guises of emergency powers. Man has played mischief with nature in many ways, but this weather making capability is a new warfare use of such technology. The more violent storms that you are seeing may be due to more than just warmer waters."

Wednesday, September 28, 2005:

Jesus said: "My people, many times I call on you to follow Me and imitate Me in My actions on earth. Many men and women have been declared saints and these also you can imitate in following their ways in life. Each person is called to a certain vocation in life, whether it be the priesthood, married life, or single life. Once your mission has been determined, you should be true to following the vows of your vocation. You also are called to use your talents in whatever profession for which you have the skills. Everyone has a spiritual mission as well to save your soul and those in your family. Some are even called beyond the family setting to be evangelists of My Word. Still others are called to be messengers or prophets. No matter what your calling is, whether it be public or private, I am asking each of you to be true to your calling and do not be distracted away from your calling. Each person has a mission to be a certain part of My plan in preserving the faith and carrying it on to future generations. Hold fast to My teachings in the Bible, My Commandments, My traditions, and listen to My true prophets who will lead you on the right path to heaven."

Jesus said: "My people, when you have the opportunity to visit a church, some take a few moments to light a candle for their prayer intentions. There are many people asking for prayers for cancer victims and many other sick people or those having operations. Some pray for their family members and others are praying for the soul of someone who has passed away. Many souls in purgatory are desiring prayers from their relatives or from those that are praying for the souls that no one is praying for. You can even be praying for the victims of your recent hurricanes. All of your prayers are heard and I will direct your prayers to the neediest souls for their benefit. You do not realize how important your prayers are for sinners and for the souls in purgatory. Even if your prayers are allowed to take months or years off of a soul's time in purgatory, you do not know how much that soul will thank you. So continue praying constantly for souls that will be praying for you in return."

Thursday, September 29, 2005:(Archangels Michael, Gabriel, Raphael)

St. Michael said: "I am Michael and I stand before God always doing His Will. Your priest made an interesting comment that the angels have free will, but they only

exercise it once. This statement is hard to understand for humans that are in time and you have your sins forgiven frequently. Every created angel is a spirit, but we have all knowledge of creation and about God. An angel, who rebels against God, is immediately cast from His Presence, and it is a one time decision outside of time in the eternal now. That is why the demons in hell will never be released or forgiven because they defied God with full knowledge of what they were doing. This is the ultimate sin of pride to deny your Creator. The good angels are commanded by God to protect man from the demons, but not temptations. Only in a few rare instances has God allowed certain people to be afflicted with physical abuse from the demons. He also allows possession by demons if people are so foolish to invite them. God also allows exorcisms and fasting with prayer to remove demons from people just as He did. It is this ongoing battle that is going on between good and evil for souls that we angels and God's faithful are waging. Souls are being saved and lost even at this moment. Many times people call on me in prayer to protect them from the demons, and even to remove demons when it is allowed by God. So you have the demons and us good angels in a constant struggle for souls. Once you die, the battle is over, but until your judgment, you can expect attacks from the demons. You can call on Jesus' Name, your guardian angel, and me to come to your aid during these attacks, so do not forget that our help is always at your side."

Prayer Group:

Jesus said: "My people, this vision of bombs and missiles is showing the contrast between spending billions of dollars on weapons when the poor and the homeless of the hurricane victims are in great need of housing and jobs. You spend one million dollars for one missile that only destroys homes instead of the billions of dollars needed to repair your Southern cities. You would rather build your own homes than destroy homes in foreign lands. Pray for peace in your world and give your time and charity to help these people who have lost everything."

Jesus said: "My people, you have barely started cleaning up from the last hurricane and now you are brought into the next event of spreading fires in California. These fires are threatening more homes with devastation by natural disasters. The current dryness and abundant brush are providing the fuel for these fires. Pray that your people can bring these fires under control before more losses are incurred."

Jesus said: "My people, as one justice has died and another has replaced him, now still another justice has resigned that needs to be replaced. Much political sparring will go on to replace this resigning justice because many are fearing an overturn of your abortion ruling. If your Supreme Court did change this ruling on abortion, many babies could be saved and your nation could be spared many chastisements. America needs to repent of its sins if you desire to see less destruction."

Jesus said: "My people, many of your farmers need to ship their food stocks down the Mississippi River, but there has been a slow down because of hurricanes destroying these ports. Even higher fuel costs and transportation costs will be pushing up your food prices. Interest rate increases also will hurt farmers in obtaining supplies and equipment. Subsidies for your farm crops may have to increase to keep your food coming to your stores."

Jesus said: "My people, many of these price increases will be affecting everyone's budget when it comes to discretionary spending that has propped up your economy. Housing will be decreasing with higher prices for homes and building supplies as well as higher interest rates. Your gasoline supplies will be stretched thin with fewer refineries on line. Summer travel has eased off, but conservation alone will be difficult for those driving hours to work. Pray again to help families who find it hard to make ends meet with higher prices and occasional layoffs."

Jesus said: "My people, America is walking down the same path of lower church attendance as is happening in Europe. Even with many disasters occurring, there are no increases in those coming to church. America has not learned the connection between your sins and these destructive hurricanes. When you come to Me on your knees to stop these disasters, then your attendance at church will increase. Pray that you return to church before it is too late."

Jesus said: "My people, of those whose homes remain intact, returning power has been a welcomed relief in the heat of the South. Restoring roads, bridges, and electricity are the main needs for those cities whose infrastructures were destroyed. The billions of dollars needed for reconstruction will be enormous for those trying to rebuild these cities. It will be a large debate over where this money will come from. Pray that calm heads will prevail over political fighting."

Friday, September 30, 2005: (St. Jerome)

Jesus said: "My people, in the fall many are anxious to view the beauty of nature in the colors of the leaves turning. These beautiful colors are like nature's paintbrush during the fall season. In other places like California these leaves and brush are becoming the fuel for fires at a dry time of the year. It is more than coincidental that these fires are endangering the homes of your movie stars. These are the same areas where the actors and movie people make 'R' movies and pornography for the whole world. These movies are even a source of sin for others and My people should not even view or support this filth. Many of your young children are adversely influenced with violence, nudity, and foul language. The less people would view these films, the less films would be made, but because people watch them, it becomes a sign of the depravity of your society. These natural disasters in fires are another warning to you how you are even risking the hotter flames of hell by these evil movies."

Jesus said: "My people, I am repeating this message of repentance for sin many times because the people are not listening to My call for forgiveness of their sins. All the people present are in the water in the vision to indicate that everyone is a sinner and everyone needs to have their souls cleansed of their sins. My faithful remnant in My Church can be forgiven in Confession to the priest. Those, that are not Catholic, can call on Me in their own way to have their Creator forgive them for their sins. Repent now while you still have time before it is too late. I have told you that chastisements are coming upon your country in natural disasters. There are sins of nations and sins of cities that are calling out for My justice. I have destroyed cities like Sodom and Gomorrah with fire and brimstone. Other cities I condemned in My day and they are in ruins to this day. Many civilizations as the Roman Empire fell from within because of their moral corruption. This is a mirror image of how America will be falling apart in the same way. Follow My Commandments of loving Me and loving your neighbor, and you will be following the narrow road to heaven."
